PHARAON H.T.

\$1.60

Named after the great Pharaohs of Egypt. This strong erect grower has clear green foliage, is floriferous and disease resistant. The strawberry red colouring and crimson carmine reflections will make it stand out in brilliance over all the other reds.

MAJORETTE H.T.

\$1.60

The coppery-coral blooms are borne on long stems and give a parade of colour, right through the season. A vigorous, healthy, free flowering plant with an erect branching habit.

CARINA H.T. \$1.20

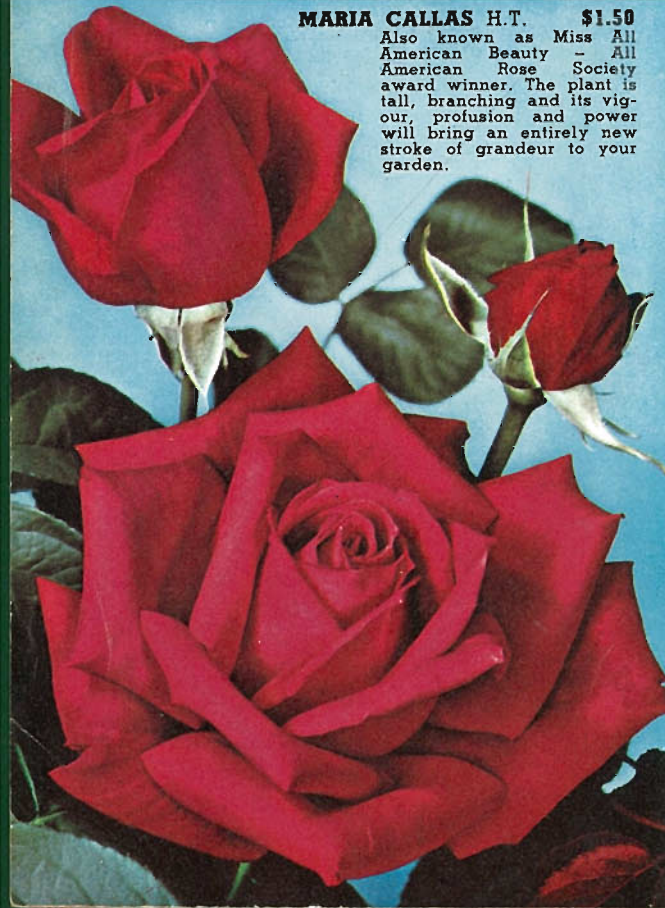

The satin rose-pink blooms open slowly and last for at least six to seven days when cut. The bush has a branching habit and the stems are long and smooth with well spaced dark foliage.

**SAMOURAI \$1.50**

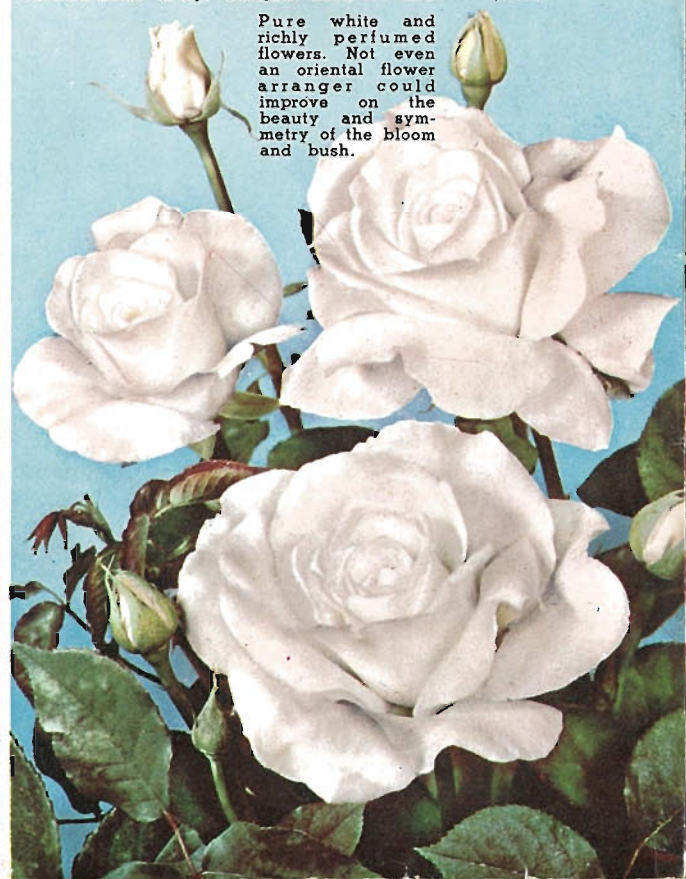

Also known as Scarlet Knight - All American Rose Society award winner. Forms an impressive upright bush, closer to a H.T. than a Floribunda.

**MARIA CALLAS H.T. \$1.50**

Also known as Miss All American Beauty - All American Rose Society award winner. The plant is tall, branching and its vigour, profusion and power will bring an entirely new stroke of grandeur to your garden.

**YOUKI-SAN (FUJI UNDER SNOW) H.T. \$1.20**

Pure white and richly perfumed flowers. Not even an oriental flower arranger could improve on the beauty and symmetry of the bloom and bush.

ROSES

The symbol of guaranteed quality

As an individual plant the rose is undoubtedly the most popular and in New Zealand statistics show more and more roses are being planted each year. With the production of roses soaring, hybridists have performed miracles, and now their colour range is almost unlimited. Again our offering consists of carefully selected varieties of Bush, Climbers, Standards and Weeping Standards.

We have established close to New Plymouth a new Rose Nursery and to manage this have appointed a Nurseryman who has devoted a lifetime to rose production both in New Zealand and overseas.

Further we are proud to announce that we have been appointed sole New Zealand agents for UNIVERSAL ROSE SELECTION (previously known as A.F. Meilland) the originators of the famous rose - PEACE, one of the world's largest rose organisations which devotes its whole energy to the breeding and selection of new roses.

The following list includes the best of the new and the old, all of which we can recommend with every confidence.

FLORABUNDA ROSES

THE REASON FLORABUNDA ROSES ARE BECOMING SO POPULAR IS THAT THEY ARE THE EASIEST TO GROW, ALMOST LIKE THE HARDIER SHRUBS. AND WHO COULD ASK MORE OF A PLANT THAT BLOOMS SO PROFUSELY, BEGINNING THE FIRST YEAR AND CONTINUING YEAR AFTER YEAR.

APART FROM THEIR STURDINESS AND EASE OF CULTURE THAT MAKE THEM WONDERFUL FOR BEDS OR BORDERS, FLORABUNDAS, WITH THEIR MASSES OF BLOOM, COME IN A VERY WIDE RANGE OF COLOUR AND FORM.

STANDARD ROSES

ROSES WORKED ON A 2FT. 6IN. STANDARD ARE SHAPELY AND ELEGANT. THEY CAN BE USED AMONG BEDS OF ANNUALS AND PERENNIALS, GIVE VARIETY OF FORM TO THE DISPLAYS OF OTHER TYPES OF ROSES, AND THEY FIT INTO ANY GARDEN SCENE. TREATMENT IS EXACTLY THE SAME AS FOR BUSH ROSES WITH ONE EXCEPTION - THEY MUST BE STAKED. A STAKE TREATED TO RESIST ROT, AND PAINTED, DOES NOT DETRACT FROM NATURAL APPEARANCE.

WEEPING STANDARD ROSES

ON THEIR 5FT TO 6FT STEMS, THESE MAKE OUTSTANDING SPECIMENS EITHER IN THE LAWN, OR THE CENTRE OF A BED. WEEPING STANDARDS SHOULD BE SUMMER PRUNED; THAT IS, IMMEDIATELY AFTER FLOWERING. ANY OLD, OR OVER MATURE TRAILING STEMS CAN ALSO BE REMOVED. THIS ENCOURAGES LONG, WEEPING GROWTHS DURING THE SUMMER WHICH, IF LEFT ON THE PLANT, WILL FLOWER THE FOLLOWING SPRING. WE BELIEVE THE FOLLOWING ARE THE BEST OF THEIR COLOUR.
