COLLECTION

75TH Anniversary

Nectarina

A NEW DWARF NECTARINE TREE

Flowers

In early spring, the little trees of these dwarfs are magically transformed into a spring bouquet, when each branch is crowded with large pink blooms. "Worth planting for the flowers alone," says one happy customer.

Fruit

From whichever you are picking your first fruits Bonanza or Nectarina, you are in for a gastronomical delight. The big, yellow-fleshed freestone peaches and the golden fleshed nectarines are deliciously flavoured.

Garden Beauty

Radiant spring bloom on the trees is followed by the biggest, most luxuriant peach foliage imaginable. Huge, long, lance-like leaves of rich green cloak the plant solidly right down to the ground.

DUNCAN & DAVIES LTD

NEW PLYMOUTH

P.O. BOX 340 PHONE 36-199

75 YEARS OF PROGRESS

Seventy-two years ago a youth, Victor Davies, was apprenticed to the late Mr J. R. Duncan who had, three years earlier, started a small exotic nursery in Westown, New Plymouth. Together they founded what is today Duncan and Davies Limited. For many years this Company has been owned and operated by the Davies family and it is significant that Mr Davies still plays an active part in the administration.

Over the ensuing years by hard work, ability and application to business, he has expanded these modest beginnings into today's thriving nursery, known and respected in many parts of the world. We are proud and happy to acknowledge that his horticultural and business life has been synonymous with the growth, development and expansion of the Company.

Throughout his life Mr Davies has gained a reputation for his knowledge and love of plants, especially our own New Zealand native flora. He is renowned for his willingness to foster and encourage all aspects of horticulture and in recognition of these services was awarded the O.B.E. in 1954, the Veitch Memorial Medal by the Royal Horticulture Society of England in 1966, the Loder Cup in 1968, and made an Associate of Honour of the Royal New Zealand Institute of Horticulture.

Duncan & Davies Limited is still essentially a family business, with both Mr & Mrs Davies Snr. on the Board, and their two sons Mr Trevor Davies and Mr Neville Davies in the senior managerial position. Mr Davies' business interests have not been limited to his Company. He was one of the instigators in the establishment of the New Zealand Nurserymen's Association. This Association now represents most of the horticultural trade in New Zealand and its main objective is to provide the public of New Zealand with quality horticultural products. Mr V. C. Davies was three times President of this organisation, and this involvement has continued with Mr Trevor Davies serving a two year term as President and Mr Neville Davies currently Vice-President.

During its steady and continued progress, the Company has expanded its activities in many directions. As well as the Retail department specialising in Mail Order, there are now Export and Landscaping divisions, a wholesale subsidiary (New Zealand Nurseries Limited), and the Garden Centre operating in New Plymouth (Davies Retail Limited). The Company's aim has always been to propagate and grow a wide range of quality ornamental trees and shrubs suitable for New Zealand conditions. It is also significant that today approximately one-sixth of the nursery's production is exported to other countries throughout the world.

With almost 250 acres devoted to propagation, growing, packing and administration, the Company employs a staff approaching 200 people in its peak period each winter. At any given time, plants in excess of 2,000,000 are being grown in the nurseries and to meet the ever growing demand for quality plants, new methods of propagation and techniques in growing are continually being applied. The Research and Development division annually introduces and tests many new plants. To mark this 75th Jubilee, two distinct and noteworthy introductions have been released to the gardening public of New Zealand: Liquidambar Golden Treasure with the striking splendour of its golden variegated leaves, and from America the sensational new dwarf nectarine—Nectarina.

Our progress continues into this 75th year and it is our pleasure to offer you, our customers and friends, this Jubilee Catalogue. We have confidence in listing a comprehensive range of ornamental trees and shrubs guaranteed to satisfy your garden needs.

TERMS OF BUSINESS

MINIMUM ORDER: Due to the ever-increasing costs of materials and freight, we have found it necessary to make a surcharge of 50 cents on all orders under \$3.00 in value.

LARGE ORDER DISCOUNT: Orders from this catalogue exceeding \$20.00 in value entitled you to a 5% quantity discount.

PAYMENT: Payment may be charged to your account but it is strictly nett and due for payment not later than the 20th of the month following date of despatch.

FREIGHT AND PACKING: Free by normal means to the nearest railway station.

PRICES: Including packing and freight to your nearest railway station or equivalent and may be altered at any time without notice.

ABBREVIATIONS

"E" = EVERGREENS: Usually despatched balled or in pots.

"D" = DECIDUOUS: Usually despatched in bundles.

● = NEW RELEASES AND LISTINGS

HEIGHTS: These are approximate only, but are a guide to what we consider the average height would be under normal garden conditions in 15 years.

Ornamental Trees and Shrubs

The term "ornamental trees and shrubs" covers a wide group of important and interesting plants from every corner of the world, so adaptable that they can virtually occupy the whole garden. They can be placed to give spaciousness, be massed for effect, or stand alone as specimens. Likewise, they are stalwarts of shade and shelter.

ABELIA. Hardy evergreen shrubs with attractive foliage, suitable for specimen planting, ornamental hedges ground cover or banks; will thrive anywhere.

GRANDIFLORA. E. 6ft. Blush-pink flowers, red bracts in summer. \$1.60

GR. FRANCIS MASON. E. 5ft. Attractive golden variegated foliage. \$2.00

GR. PROSTRATA. E. 2ft. Low growing, suitable for ground cover. \$2.00

ACACIA. WATTLE. The spring flowering Australian Wattles are comparatively hardy and ideal for poorer soils. They do not like manure and need little attention. All prefer full sun and good drainage. The smaller growing varieties benefit by pruning immediately after flowering.

BAILEYANA. E. 15ft. **COOTAMUNDRA.** Late winter. Fern-like blue grey foliage. Fragrant lemon yellow. \$1.70

B. PURPUREA. E. 15ft. Fern-like purplish foliage, fragrant yellow. \$2.00

CARDIOPHYLLA. E. 8ft. **WYALONG.** Arching branches, yellow. \$1.70

DRUMMONDII. E. 4ft. Bright golden flowers. \$1.70

ELATA. E. 20ft. **CEDAR.** Cream flowers in early summer. Ideal shade tree. \$1.70

GLANDULICARPA. E. 2ft. **HAIRY-POD.** Spreading habit, yellow. \$1.70

LEPROSA. E. 12ft. **CINNAMON.** Semi-weeping, pale yellow. \$1.70

LONGIFOLIA. E. 15ft. **SYDNEY GOLDEN.** Cream flowers. Suitable coastal areas. (see also Hedge and Shelter Section). \$1.70

PODALYRIIFOLIA. E. 10ft. **QUEENSLAND SILVER.** Canary flowers winter. \$1.70

PRAVISSIMA. E. 12ft. **ALPINE.** Golden 18in sprays. \$1.70

REWA. E. 6ft. **RICE'S.** Dark green foliage, lemon yellow. \$2.00

ACER. MAPLE. Maples comprise a group of deciduous trees and shrubs famous for their ornate leaves, coloured barks and their vivid spring or autumn colours. While they will tolerate a wide range of conditions a cool rich root run would be their first preference and shelter from strong wind.

CAPPADOCICUM AUREUM. D. 10ft. New growth in spring is bright coppery-red turning later to rich butter-yellow. \$3.50

- FORRESTII.** D. 20ft. Beautiful small tree with striated bark. Young stems coral red. \$3.25
- HOOKEI.** D. 20ft. Large heart-shaped leaves, young shoots bright red. \$3.25
- JAPONICUM ACONITIFOLIUM.** D. 15ft. Brilliant red autumn foliage. \$5.00
- NEGUNDO.** D. 30ft. BOX ELDER. Rapid growing shade tree. Yellow green flowers. \$2.80
- ARGENTEO VARIEGATUM.** D. 20ft. SILVER BOX ELDER. Silver variegated leaves. \$3.25
- N. ELEGANTISSIMUM.** D. 20ft. GOLDEN BOX ELDER. Golden leaves. \$3.25
- PLATANOIDES.** D. 20ft. NORWAY MAPLE. Good shade tree golden yellow autumn foliage. \$2.80

ACER PALMATUM. JAPANESE MAPLE. The Japanese Maples range from dwarfs to sizeable specimens; are grown for their vivid Spring or Autumn colours and coloured barks. Some are weepers in greens, crimsons and purples, others tall or spreading. All are dainty and neat in habit. Protection from strong winds is necessary and hot dry corners should be avoided.

- PALMATUM.** D. 15ft. Seedling grown plants. \$2.80
- ATROPURPUREUM.** D. 10ft. RED JAPANESE MAPLE. Bright red leaves turning to purple in summer. \$5.00
- AUREUM.** D. 10ft. GOLDEN JAPANESE MAPLE. Pale green stems, foliage lime-green to yellow. \$5.00
- BURGUNDY LACE.** D. 8ft. The slender bright green branches have open artistic habit. The deeply lobed brilliant burgundy-red leaves are finely serrated, giving a lacy effect. \$5.00
- CHISHIO.** D. 4ft. Leaves blood-red in Spring turn green then red in Autumn. \$5.00
- COREANUM.** D. 12ft. Brilliant crimson-scarlet foliage in late autumn when other varieties have lost their leaves. \$5.00
- CRIPPSII.** D. 6ft. Finely serrated leaves of bright green. Dense bush. \$5.00
- HEPTALOBUM OSAKASUKI.** D. 12ft. In Autumn the bronzy-green foliage turns fiery orange-crimson. \$5.00
- **LINEARILOBUM ATROPURPUREUM.** D. 6ft. Deeply divided reddish-purple leaves. \$5.00
- ROSEOMARGINATUM.** D. 6ft. In Spring the attractive green leaves are edged coral-pink. \$5.00
- SENKAKI (Seigan)** D. 10ft. RED STEMMED MAPLE. Foliage turns shades of orange and gold in Autumn. Red lacquered effect on young stems. \$5.00
- SHIN DESHOJO.** D. 8ft. Formerly known as Chishio Improved, is more vigorous in growth. Small translucent crimson-scarlet leaves in Spring turning green in Summer and red again in Autumn. \$5.00
- SUMINAGASHI.** D. 10ft. New growth crimson turning blackish-crimson, bright Autumn tints. \$5.00

ACER PALMATUM DISSECTUM. JAPANESE WEeping MAPLE. This group have very finely divided fern-like leaves. They have a most attractive graceful habit with the slender branches weeping to the ground. Require a position sheltered from wind. Ideal for pool edges.

DISSECTUM. D. 5ft. (Green Form). Orange-gold in Autumn. \$8.00

D. ATROPURPUREUM. E. 4ft. Brilliant, deep crimson-purple foliage changes to orange-red in Autumn. \$8.00

D. EVERED. D. 4ft. Delicate lacy deep red foliage. Retains colour well. \$8.00

D. NIGRUM. D. 4ft. Fine leaved deep purple. \$8.00

D. ORNATUM VARIEGATUM. D. 4ft. Delicate lacy green foliage. Variegated cream and pink. \$8.00

DISSECTUM RUBRIFOLIUM. D. 5ft. Strong growing form, reddish-purple in Spring changing to orange-red in Autumn. \$8.00

DISSECTUM VIRIDIS. D. 4ft. Soft pale-green foliage in Spring changing to orange-gold in Autumn. \$8.00

ADENANDRA. These dwarf flowering shrubs prefer a free, loose, well-drained soil in an open situation. The manuka-like flowers are borne over a long period from early Spring into Summer.

FRAGRANS. E. 3ft. Rose-pink sweetly scented flowers and foliage. \$2.25

UNIFLORA. E. 2ft. China-white flowers backed with pale pink. \$2.25

AESCULUS. HORSE CHESTNUT. These well known trees have a stately spreading habit ideal for specimen and avenue planting in all districts, preferring cool moist conditions.

HIPPOCASTANUM. D. 25ft. Horse Chestnut; large panicles of white. \$4.00

● **PAVIA.** D. 8ft. RED BUCKEYE. Beautiful small tree. 6-inch long panicles of crimson flowers. \$8.00

AGONIS. AUSTRALIAN MYRTLE. These rapid growing Australian trees are drought resistant and ideal for planting in light soils and dry conditions.

FLEXUOSA. E. 20ft. WEEPING WILLOW MYRTLE. Attractive weeping habit with new growths bronzy-red. White flowers in November. \$2.00

FLEXUOSA DWARF. E. 4ft. Dwarf compact habit but retaining the attractive weeping habit of A. Flexuosa. Suitable for smaller gardens. \$2.20

JUNIPERINA. E. 15ft JUNIPER MYRTLE. Masses of white flowers in winter. Useful cut flower. \$2.00

AJUGA REPTANS. Attractive hardy ground cover for sun or shade. Erect spikes of blue flowers in early summer. \$10.00 per dozen

ATROPURPUREA. E. Dark green to brownish-purple foliage. \$1.20

BURGUNDY LACE. E. Variegated cream and cerise foliage. \$1.20

VARIEGATA. E. Pale green and cream variegated leaves. \$1.20

ALBIZZIA JULIBRISSEN. D. 15ft. SILK TREE.

These rapid growing trees with light green feathery wattle-like foliage are especially suitable for hot dry districts with light well drained soil. Silk like pink flowers during Summer. \$2.75

ALNUS. ALDER. Very hardy attractive small trees adaptable to most soils and particularly useful for damp areas. Fast growing.

GLUTINOSA. D. 20ft. Long yellow catkins. Spring \$2.75

RUBRA. D. 15ft. Pyramidal tree. Red buds. Catkins 4-6 inches long. \$2.75

AMELANCHIER CANADENSIS. D. 12ft. SHAD BUSH.

From North America the Shad Bush is noted for its beautiful young foliage and glorious Autumn tints. Very hardy but prefers cool districts and resents lime. Starry white flowers in Spring, maroon purple berries. \$2.00

ANOPTERUS. GLANDULOSA. E. 5ft. TASMANIAN LAUREL. Handsome dark green glossy foliage. White Lily of the Valley flowers carried well above the plant. Prefers cool, moist conditions. \$2.50

ARBUTUS. STRAWBERRY TREE. Very hardy small trees which will withstand wind and frost.

UNEDO. E. 15ft. IRISH STRAWBERRY TREE. White flowers, red strawberry-like fruit. \$2.20

ARCTOSTAPHYLOS. MANZANITAS. Small evergreen shrubs and sprawling plants ideal for ground cover. Avoid lime.

POINT REYES. E. 4ft. Delicate pink flowers in pendulous clusters. \$2.20

RADIANT. E. 1ft. Mat-like shrub with glossy green leaves with pinkish-white flowers followed by large bright red berries in Autumn which remain on the plant most of the Winter. \$2.20

ARDISIA CRISPA. E. 3ft.

Sub-tropical dwarf growing berried shrub. Ideal for shady spots and as an indoor decorative pot plant. Masses of scarlet berries persist throughout late Autumn and Winter. Frost tender. \$2.00

ASTARTEA FASCICULARIS PINKIE. E. 5ft.

A charming Australian shrub requiring open sunny position. Prune after flowering. Dainty white blush-pink Ti-tree-like flowers. \$2.00

AUCUBA JAPONICA. JAPANESE LAUREL. Evergreen shrubs with large bold foliage suitable for under trees or shady places, will thrive in any garden soil. The scarlet-red berries are produced on the females only and the male plant is necessary for pollination. Excellent tub plant.

FEMALE. E. 6ft. Large dark green foliage. \$2.50

MALE. E. 6ft. Large dark green foliage. \$2.50

CROTONOIDES FEMALE. E. 5ft. Leaves heavily splashed with gold. \$2.75

CROTONOIDES MR. GOLDSTRIKE. E. 5ft. Leaves heavily splashed with gold markings. Sex: Male. \$2.75

- PICTURATA.** E. 5ft. Large showy leaves with a deep green margin splashed bright golden yellow in the centre. Sex: Female. \$2.75
- SULPHUR.** E. 5ft. Wide sulphur yellow edges to serrated dark green leaves on erect branches. Sex: Female. \$2.75

AZALEAS. The Azaleas are divided into two main groups Evergreens which include the Indicas, Kurumes and Gumpas and the deciduous varieties Mollis and Occidentalis. Botanically they are within the Rhododendron family and require similar conditions. When planted in groups in semi-shade they are at their best, though many varieties will grow well in full sun. Moist but well drained loamy soil enriched with peat or humus is recommended. Avoid lime.

AZALEA GUMPO. LILLIPUTIAN AZALEA. This group is the smallest of the evergreen azaleas seldom more than a foot high, and are ideal for rockeries where the surroundings set off their closely tufted foliage and large open trumpets. 4 for \$7.00

- PALE PINK.** E. 1ft Single pale-pink, deeper markings. Early summer. \$2.00
- PINK.** E. 1ft. Single soft-pink. Early summer. \$2.00
- SALMON.** E. 1ft. Single salmon-pink. Early summer. \$2.00
- WHITE.** E. 1ft. Single clear white Early summer. \$2.00

AZALEA INDICA AND KURUME. INDIAN AND JAPANESE AZALEAS. These are amongst the most beautiful of the many evergreen shrubs grown and no other group of dwarf shrubs can equal them for brilliant massed floral effects throughout the Spring months when they explode into a riot of colour. Ideal for massed plantings but are equally satisfactory as specimen plants or in tubs. 12 for \$21.00

- ADDY WERY.** E. 2ft Single blood red, orange bronze flush. Kurume. \$2.00
- ALBERT ELIZABETH.** E. 30in. Double peony, dawn pink margined rose, frilled. \$2.00
- AVENIR.** E. 30in. Very large double salmon pink with orange-red tonings. \$2.00
- BAYOU.** E. 30ins. Single pastel pink. (Early). \$2.00
- BLAUW'S PINK.** E. 2ft. Double salmon pink hose-in-hose. Kurume \$2.00
- BLUSHING BRIDE.** E. 30in. Double soft blush pink, frilled petals. \$2.00
- COCADE.** E. 30in. Single oriental red flowers. \$2.00
- COMPESSE DE KERCHOVE.** E. 3ft Large double soft clear salmon pink, lightly muted white towards tips of crinkled petals. Long flowering. \$2.00
- CONSTANCE.** E. 3ft. Semi-double lilac shot pink flowers. \$2.00
- DAPHNE.** E. 30in. Double milky white flowers, pale green throat. \$2.00
- DOROTHY GISH.** E. 3ft. Double rich salmon orange hose-in-hose flowers. \$2.00

ELLAMERE. E. 30in. Large semi-double tangerine red.	\$2.00
ELSA KARGA. E. 3ft. Double deep Spanish red. Prolific flowerer over a long period.	\$2.00
EMPRESS OF INDIA. E. 30in. Double salmon rose blotched white.	\$2.00
FIELDER'S WHITE. E. 3ft. Single large white flower tinted lime green.	\$2.00
FIRE DANCE. E. 3ft. Large double frilled rose red. long flowering.	\$2.00
GARDENIA SUPERBA. E. 3ft. Double white.	\$2.00
GERHARD NICOLAI. E. 2ft. Large double pink flowers with frilled petals. Prolific flowerer.	\$2.00
GLORIA. E. 30in. Double frilled salmon darkening on margin.	\$2.00
GRETEL. E. 3ft. Double, base colour white with $\frac{1}{4}$ -inch margins of fluorescent china rose.	\$2.00
HINO CRIMSON. E. 2ft. Single brilliant deep red. Kurume.	\$2.00
JAMES BELTON. E. 3ft. Large single pale pink fused lilac.	\$2.00
LEOPOLD ASTRID. E. 30in. Double white blooms stained Delft rose deeper towards frilled edges.	\$2.00
LITTLE BEAUTY. E. 30ins. Bengal rose, fringed hose in hose flowers.	\$2.00
MODELE. E. 3ft. Single crimson lake.	\$2.00
MRS. ALFRED SANDERS. E. 3ft. Large double pale cherry red.	\$2.00
ORCHID PINK. E. 30in. Large double ruffled pale cyclamen flowers fading to silvery orchid-pink.	\$2.00
PAUL SCHAME. E. 2ft. Double bright salmon red.	\$2.00
PINK RUFFLES. E. 30in. Large double clear pink with frilled petals.	\$2.00
PURPLE SPLENDOR. E. 30in. Double rich purple deeply frilled.	\$2.00
RED POPPY. E. 30ins. Single to semi-double. Dark red. Early.	\$2.00
RED RUFFLES. E. 30in. Large double deep red flowers, frilly petals.	\$2.00
ROSEBUD. E. 2ft. Tight rosettes of double rosy-pink	\$2.00
RUTH KIRK. E. 3ft. Large single blooms, petals tipped white, as flowers develop waxy white marbling supercedes rich pink self colour.	\$2.00
SAIDEE KIRK. E. 3ft. Clusters of double delicate shell pink.	\$2.00
SALMONEA. (Splendens). E. 4ft. Single rosy salmon.	\$2.00
SCARLET PRINCE. E. 30in. Fiery crimson scarlet, hose-in-hose. Kurume.	\$2.00
SILVER ANNIVERSARY. E. 3ft. Light pink hose-in-hose flowers with a silvery tip to each petal. Bushy habit.	\$2.00
SWEETHEART SUPREME. E. 3ft. Double deep rose frilled petals.	\$2.00
SWEET NELLIE. E. 30in. Scented carmine red hose-in-hose.	\$2.00
TEMPERANCE. E. 3ft. Double clear lavender	\$2.00
VIOLACEA MULTIFLORA. E. 30in. Double deep magenta, frilly petals.	\$2.00
WHITEHOUSE. E. 4ft. Very large showy single white clusters of white button-like flowers.	\$2.00
WILLIAM WYLAM. E. 4ft. Large single glowing orchid pink.	\$2.00

DECIDUOUS AZALEAS. Under this heading come the well known mollis and occidentalis varieties. Both require a cool moist root run.

ANTHONY KOSTER. Bright orange yellow. \$3.00

OCCIDENTALIS DELICATISSIMA. Fragrant pale pink, deeper edge, orange throat. \$3.00

FIRST RELEASE NAMED VARIETIES ILAM HYBRID AZALEAS

At the same time as the "Exbury" Azaleas were being developed in England, Edgar Stead of Christchurch, New Zealand, was experimenting on the same lines and developed a similar strain. Dr. Yeates, the well known Palmerston North horticulturist, carried on the work and has now named about 20 selected forms. These all have big heads of intense colour, the individual flowers are large and frilled. We have much pleasure in offering 11 varieties from this collection. \$5.00 each; 6 plants for \$25.00

CARMEN. Pale salmon with golden flare. Early

JASPER. Pure vermilion red. Frilled. Mid-season.

LOUIS WILLIAMS. Delicate soft pink suffused cream. Large heads, frilled florets, compact growth. Mid-season.

MARTIE. Dusky red. Frilled. Late.

MELFORD FLAME: Fiery Indian orange. Frilled. Large compact head. Mid-season.

MELFORD GOLD. Golden orange, overlaid bronze. Mid-season.

MELFORD LEMON. Glowing saffron yellow, apricot flare. Large florets. Mid-season.

MELFORD YELLOW. Clear lemon yellow, orange flare. Frilled. Mid-season to late.

MING: Brilliant tangerine orange. Large florets. Early to mid-season.

YELLOW BEAUTY. Deep golden yellow with apricot flare. Large compact heads. Early to mid-season.

YELLOW GIANT. Vivid buttercup yellow, deeper flare. Florets and heads very large. Mid-season to late.

AZARA. Chilean evergreen shrubs and small trees, suitable as specimens, backgrounds or for larger shrubberies. Will stand a fair amount of shade.

- **INTEGRIFOLIA VARIEGATA.** E. 5ft. Compact slow growing shrub with attractive round yellow margined leaves touched with pink and red. Ideal for training against a wall or fence. Chrome yellow flowers in Spring. \$4.00

LANCEOLATA. E. 12ft. Fragrant yellow flowers, drooping branches. \$2.00

MICROPHYLLA. E. 12ft Greenish yellow vanilla scented flowers, spring. \$2.00

- **MICROPHYLLA VARIEGATA.** E. 8ft. Graceful slow growing small tree with dainty foliage attractively variegated creamy-yellow. Yellow vanilla scented flowers in Spring. \$4.00

MAIL ORDER PLANTS ARE OUR BUSINESS

BAMBOO. These are giant grasses and care should be taken when using selective weedkillers designed to destroy couch or other grasses as they will kill bamboo. Flowering times vary from five to sixty years, follow-flowering some varieties may die. Bamboos prefer well drained soil and a position sheltered from strong wind.

In our listing we have divided the bamboo into two groups:—

(1) CLUMP FORMING OR NON SUCKERING VARIETIES.

With these the underground stem is very short and the size of the clump increases slowly.

ARUNDINARIA FALCATA. (B. GRACILIS). Slender canes up to 10 feet in height, numerous graceful branches at every node. Leaves $\frac{1}{2}$ in. to 1 in. wide and up to 6 in. long. \$4.00

ARUNDINARIA FASTUOSA. Handsome, stiff, erect habit. 6 to 8 ft canes useful as stakes. Hardy, vigorous. \$4.00

ARUNDINARIA NITIDA. Straight dark flush purple stems up to 10 feet in height. Graceful habit. Thrives best in light shade and is an excellent tub plant. \$4.00

BAMBUSA GRACILLIMA. Slender stems $\frac{1}{8}$ inch diameter, small leaves graceful habit growing to 4 feet in height \$4.00

BAMBUSA MULTIPLEX ALPHONSE KARR. Canes bright yellow striped green up to 12 ft. in height. Leaves $\frac{1}{2}$ in. wide and up to 4 in. long. \$4.00

BAMBUSA VENTRICOSA. The thick walled, zig zag, canes up to 20 ft. in height and 1 in. in diameter form a large clump with dense foliage. \$4.00

BAMBUSA WANG TSAI. Slender stems $\frac{3}{8}$ inch thick growing to 6 feet with 4 inch leaves. Upright habit. In full sun stems become orange but in shade are cream coloured. \$4.00

PHYLLOSTACHYS NIGRA — BLACK BAMBOO — Beautiful clump forming, moderately invasive green canes, 10 to 12 feet in height, become mottled and finally jet black. Graceful, arching habit. Prefers a sunny situation. Usually clump forming but will sometimes send out runners. \$4.00

(2) SUCKERING VARIETIES. These consist of an underground solid stem that mainly grows and branches in a horizontal direction from which aerial stems arise. For ornamental plantings these should always be planted in pots, tubs, or surrounded by a concrete wall 4 inches thick and at least 2 feet deep.

6 for \$10.50

ARUNDINARIA AURICOMA Slender canes up to 4 feet in height. Leaves variegated light green and bright golden yellow. \$2.00

ARUNDINARIA FORTUNEI. (B. VARIEGATA). Dwarf bushy habit with very slender canes up to 2 feet in height. Leaves are up to 8 inches long, dark green striped white. \$2.00

ARUNDINARIA PYGMAEA. Very slender canes up to 1 foot in height with small bright green leaves. Makes a dainty container specimen. Excellent ground cover plant for restricted area. \$2.00

SUBSTITUTES WILL BE SUPPLIED ON REQUEST

ARUNDINARIA VAGANS. Dwarf, creeping. Bright green foliage. Canes 18ins. to 30ins. Excellent ground cover even in dense shade. \$2.00

SASA NIPPONICA. Forms a dense, mid green clump, excellent for ground cover. Green canes up to 3 feet and $\frac{1}{2}$ inch in diameter. \$2.00

SASA VEITCHII. Small, dense ground cover 6 to 12 inches in height. Deep purplish-green maturing dull purple. Large green leaves, in autumn, wither and become whitish on margin giving an attractive variegated effect. \$2.00

SHIBATAEA KUMASASA. Dwarf compact habit. Canes 18 inches high, pale green maturing dull brown. Forms a dense leafy clump. Prefers moist situations. \$2.00

BANKSIA. AUSTRALIAN HONEYSUCKLE TREE. These Australian evergreen shrubs and small trees are essentially for open, hot and dry places. They will not succeed in cold wet conditions. A sunny lime free north-facing slope or bank preferably with poorish soil is ideal. They produce spikes of amber, copper, reddish and honey-coloured flower-cones for long periods in the late autumn and winter.

COLLINA. E. 10ft. **HILL BANKSIA.** Honey coloured flowers, bushy habit. \$2.40

ERICIFOLIA. E. 10ft. **HEATH BANKSIA.** 10-inch orange bronze winter. \$2.40

GRANDIS. E. 15ft. **GREAT-CONED BANKSIA.** Large yellow-green, spring. \$2.75

INTEGRIFOLIA. E. 20ft. **COAST HONEYSUCKLE TREE.** Greenish yellow. \$2.40

SERRATA. E. 15ft. **REDWOOD HONEYSUCKLE TREE.** Huge pale yellow. \$2.40

SPINULOSA. E. 6ft. Bright reddish amber cones. Compact habit. \$2.75

BAUERA SESSILIFLORA. E. 4ft. Dense small growing evergreen shrub with light magenta flowers late winter. Dislikes lime. \$2.00

BEAUFORTIA SPARSA. E. 6ft.

West Australian evergreen shrubs suitable for open sunny situations. Orange scarlet bottle brush flowers, January to March. \$2.25

BELEPERONE. LOBSTER PLANT. Small Mexican shrub requiring a warm frost free situation. Flowers produced in curious drooping spikes, about six inches in length with attractive overlapping bracts for most of the year.

CHANTLERII. E. 3ft. Greenish white and yellow. \$1.65

GUTTATA. E. 3ft. Pink and brown. \$1.65

BERBERIS. ORNAMENTAL BARBERRY. Capable of withstanding any kind of horticultural and climatic conditions, including wet, cold winters and poor soil. Very useful as hedges. Prune during winter months.

ATROPURPUREA. D. 5ft. Deep bronze leaves turn crimson. \$1.80

ATROSUPERBA. D. 6ft. Rich blackish-red foliage turning orange-scarlet. \$1.80

AUTUMN CHEER. D. 4ft. Masses of brilliant red berries. \$1.80

KOBOLD. D. 18in. Compact global habit with reddish-brown young foliage turning glossy green and then orange-red in autumn. Red berries. \$2.00

LITTLE FAVOURITE. D. 2ft. Purplish-red foliage, compact habit. \$2.00

ROSY GLOW. D. 3ft. The variegated spring foliage ranges from silvery cream and light pink to rose and deep brilliant red. \$2.00

BERZELIA LANUGINOSA. E. 6ft. An erect South African shrub which in the spring and early summer bears its flowers in the form of white buttons, in clusters near the ends of the branches. Soft, feathery foliage. Easy to grow, but prefers a loose, free soil, and good drainage is essential. \$2.00

BESCHORNERIA YUCCOIDES. E. 6ft.

A striking Mexican plant related to the Agave. Plant in good well drained loam in full sun. Six-foot long flower stems with racemes of bright green blooms and red bracts. \$3.00

BETULA. BIRCH. Hardy, quick growing graceful trees diverse in habit and form that will survive adverse climatic and soil conditions other than wet feet.

PAPYRIFERA. D. 20ft. **PAPER BIRCH.** Outstanding for its peeling paper bark and largish leaves. Pale green foliage turns brilliant yellow in autumn. \$3.00

PAP. HUMILIS. D. 20ft. (**NEOALASKANA**) **YUKON BIRCH.** Attractive peeling reddish-brown bark. The stems are resinous and glandular. \$5.00

PENDULA. D. 25ft. **SILVER BIRCH.** Ideal as specimen plants in groups or as avenues. Yellow autumn colouring. 6-8ft. specimens \$2.80 each. Quantities of 6 or more less 10%. Quantities of 12 or more less 20%.

SILVER BIRCH CLUMPS. Clumps dividing into three or four branches at ground level. \$5.00

PENDULA DALECARLICA. D. 20ft. (**Laciniata**). **SWEDISH BIRCH.** A graceful tree with pendulous branches and the leaves are deeply lobed. \$5.00

● **PENDULA GREEN PYRAMID.** D. 20ft. A form of 'SILVER BIRCH' specially selected for pyramidal shape and graceful pendulous habit. \$4.00

PENDULA PURPUREA. D. 15ft. Bronzy purple leaved form of the Silver Birch. Slender graceful habit. Gives a valuable contrast when grown among green and golden foliaged trees. \$5.00

● **PENDULA WHITE BARK.** D. 20ft. A form of 'SILVER BIRCH' specially selected for the white bark produced at an early age. Grafted plants. \$4.00

PENDULA YOUNGII. D. 15ft. Weeping Silver Birch. A graceful small tree with the fine branches weeping to ground level. Plants grafted at ground level and trained to 5-6ft. \$5.75

POPULIFOLIA. D. 20ft. GREY BIRCH. Long pointed leaves. \$3.00

BORONIA. Dwarf Australian shrubs having small flowers carried in profusion. Require light soil rich with leaf mould, a sunny situation and no lime. Prune after flowering. Boronias resent vigorous cultivation, weed carefully by hand.

DENTICULATA. E. 3ft. Dainty star-shaped cyclamen mauve flowers. \$2.00

FLORIBUNDA. E. 4ft. Large pink flowers in clusters. Reddish stems. \$2.20

HETEROPHYLLA. E. 3ft RED BORONIA. Bright rich rosy red flowers. \$2.20

MEGASTIGMA. E 4ft. BROWN BORONIA Purplish brown aromatic flowers. August-September. \$2.00

● **M. BURGUNDY.** E. 3ft. Reddish brown aromatic flowers. \$2.15

M. CHANDLERI. E. 3ft. A selected form of Megastigma with fragrant burgundy red flowers. \$2.20

M. LUTEA. E. 3ft. YELLOW BORONIA. Perfumed green yellow. \$2.00

● **THUJONA PINNATA.** E. 2ft. Light cyclamen pink starry flowers. Bushy habit. \$2.15

BOUVARDIA HUMBOLDTII. E. 3ft.

Small flowering shrub to be grown in a warm corner sheltered from frosts. Prune during winter. Gloriously scented snow white flowers during autumn. \$1.75

BRUNFELSIA CALYCINA EXIMIA. E. 3ft.

YESTERDAY, TODAY AND TO-MORROW. Compact shrub from Brazil named because the fragrant flowers change colour with the hours. Deep violet, lavender and white. Given plenty of moisture in sun or part shade they bloom for a long period in spring and summer \$2.00

BUDDLEIA. BUTTERFLY BUSH.

Colourful, fragrant and quick growing, these new hybrid buddleias are ideal for providing quick ornamental shelter for the more tender plants. They respond to good soil but the hardest of conditions will not deter them. Attractive to butterflies. Summer flowering. Prune hard after flowering. 6 plants for \$9.00

BLACK NIGHT. E. 10ft. Rich deep purplish-blue flowers. \$1.65

EMPIRE BLUE. E. 10ft. Bright true blue flowers. \$1.65

FASCINATION. E. 10ft. Large trusses of soft orchid pink flowers. \$1.65

FLAMING VIOLET. E. 10ft. Large spikes of flaming violet. \$1.65

GOLDEN GLOW. E. 10ft. Orange and yellow ball-like flowers tinted pale mauve. \$1.65

PURPLE PRINCE. E. 10ft. Very large spikes of imperial purple. \$1.65

ROYAL RED. E. 10ft. Large purple magenta spikes. \$1.65

WHITE CLOUD. E. 8ft. Compact growing feathery white flowers. \$1.65

BUXUS SEMPERVIRENS ARGENTEA. E. 12ins. Dwarf English Box.

Very hardy, frost, drought and wind resistant. Will thrive in sun or shade. Ideal for edgings, rockeries and topiary work. The small leaves are attractively edged with white. \$2.00

CALLIANDRA. (INGA). Prefer a hot dry position with good drainage. The rich deep green foliage is fine and fernlike.

PORTORICENSIS. E. 6ft. **SNOWFLAKE ACACIA.** Fragrant white powder puff flowers. \$2.00

TWEEDII. E. 5ft. **BRAZILIAN FLAME BUSH.** Vivid scarlet stamens. \$2.00

CALLICARPA DICHOTOMA. D. 6ft. **CHINESE BEAUTY BERRY.**

Shrubs grown for their attractive berries. Fruit quite young but better crops are produced when more than one bush is planted. They are hardy and may be planted in any free loose soil in an open sunny situation. Deep lilac purple berries, summer and autumn. \$2.00

CALLISTEMON. BOTTLE BRUSH. These evergreen shrubs prefer a sunny hot position and will withstand dry and poor soil conditions. Bottle Brush flowers in summer. Prune after flowering.

CITRINUS SPLENDENS. E. 10ft. Fiery vermillion, each stamen tipped gold \$2.30

COMBOYENSIS PROSTRATA. E. 1ft. Spreading weeping habit. Good ground cover. Young growth bronzy-pink. Flowers crimson, 3in. long, $\frac{3}{4}$ in. wide. \$2.30

ENDEAVOUR. E. 8ft. Bright pink new growth is an ideal foil for the profusion of clear crimson brushes in Autumn and Spring. Will trim to 4 ft. \$2.30

RED CLUSTER. E. 8ft. Masses of deep red bottlebrushes. \$2.30

SALIGNUS. E. 8ft. Pale yellow flowers. \$2.00

VIMINALIS CAPTAIN COOK E. 4ft. Scarlet brushes. Compact bushy habit, new growth an attractive reddish-pink. Named as the Australian 1970 "SHRUB OF THE YEAR." \$2.30

CALLUNA VULGARIS. HEATHER OR LING. SCOTCH HEATHER.

These hardy heathers are dwarf, ranging in height from 6 inches to 2 feet. Ideally suited for rockeries, small borders, miniature gardens, edgings and for coastal planting. Prune hard after flowering. 6 plants for \$10.00

ALBA PLENA. E. 2ft. Double white flowers, early autumn. \$1.80

ARGENTEA. E. 1ft. Spring growth has silvery tips, flowers soft mauve. \$1.80

AUREA. E. 1ft. Golden foliage in summer, bronze in winter. \$1.80

BEOLEY GOLD. E. 1ft. Bright yellow foliage throughout most of the year. \$1.80

BLAZEAWAY E. 18in. A magnificent foliage plant turning shades of gold, orange flame and red in winter. Flowers light mauve in summer. \$1.80

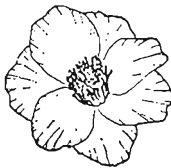

COUNTY WICKLOW. E. 2ft. (CAMLA). Low-growing compact, dainty sprays of double shell pink flowers. \$1.80

- CUPREA.** E. 2ft. Yellow foliage changing coppery red in winter. Flowers pink. \$1.80
- FOXII NANA.** E. 6in. Compact cushion, deep green, lavender purple. \$1.80
- GOLDEN FEATHER.** E. 15in. Feathery golden foliage changing to a soft orange in Winter. \$1.80
- GOLD HAZE.** E. 12in. Dense bright golden foliage throughout the year. White flowers. \$1.80
- GOLDSWORTH CRIMSON.** E. 2ft. Deep crimson flowers, summer. \$1.80
- J. H. HAMILTON.** E. 1ft. Rosettes of bright double pink flowers. \$1.80
- MULTICOLOR.** E. 6in. Foliage variety with many shades of orange, yellow and bronze with red tips. Prostrate habit. \$1.80
- PETER SPARKES.** E. 18in. Large racemes of double deep pink flowers in summer. Good picking variety. \$1.80
- SUNSET.** E. 1ft. Foliage bright orange-red. \$1.80
- TIB.** E. 18in. Fully double flowers of rosy crimson. \$1.80

CALYTHRIX SULLIVANII. E. 4ft. **FRINGE MYRTLE.**

An Australian shrub somewhat similar to the heaths with miniature fragrant foliage. Requires a lime free open soil and a sunny situation. Starry pinkish-white flowers in spring. \$2.00

CAMELLIAS. There are thousands of varieties in all shapes and sizes, ranging in colour from icy-white through the pinks to the darkest of reds in a multiplicity of forms. Our list represents a good cross section of this field of endeavour. Any of these offered may be purchased with firm confidence. Camellias respond to a well-drained damp soil rich in humus and free from lime. However, a too acid soil retards their growth. (PH or 5.5 to 6.5 is ideal). Blood and bone is a safe form of feeding and this can be added to; compost, peat, old pine needles or decayed sawdust, used as a mulch. They will grow in full sun or semi-shade but a semi-sheltered situation will avoid damage to the delicately textured flowers.

- MINE-NO-YUKI** Large peony form. White. \$2.50
- NAVAJO.** Large semi-double. Rose red fading to white in centre. \$2.50
- PALE MOONLIGHT.** Semi-double with upright petals. Pale orchid pink. \$2.50
- PLANTATION PINK.** Large single. Bright pink \$2.50
- SHOWA-NO-SAKAE.** Semi-double to rose form. Soft pink, sometimes marbled white. \$2.50
- SHOWA SUPREME.** Large peony form. Soft pink \$2.50
- SPARKLING BURGUNDY.** Large peony form with intermingled stamens and petaloids. Ruby rose overlaid with sheen of lavender. \$2.50

CAREX (SEDGE). Excellent foliage grasses for rockeries or pebble gardens.

- COMANS.** E. 1ft. Tussock with attractive reddish-brown foliage.
\$1.50
- MORROWII VARIEGATA.** E. 1ft. Dark green leaves edged white.
\$1.80

CARYOPTERIS CLANDONENSIS. D. 3ft. BLUE SPIRAEA.

Forms a neatly rounded bush suitable for a sunny mixed border. Hardy. Greyish green foliage, powdery blue flowers from late January. \$1.60

CASSIA CORYMBOSA JOHN BALL. E. 6ft. BUTTERCUP TREE.

Prefers an open sandy soil in a sunny well-drained situation. Large clusters of golden yellow flowers during autumn and winter. \$2.00

CASTANEA SATIVA. D. 30ft. SPANISH CHESTNUT.

Fast growing shade tree with widely spreading branches. Nuts ripen in winter. \$3.00

CASUARINA. AUSTRALIAN SHEOKE. Long feathery needle-like drooping branches (see also Hedge and Shelter Section).

CUNNINGHAMIANA. E. 25ft. RIVER SHEOKE. Most conditions, wet or dry. Recommended for planting along streams. \$1.65

GLAUCA E. 20ft. SWAMP SHEOKE. Will thrive in salty marsh soils or near the sea coast. \$1.65

CATALPA. Forms a round headed shapely tree suitable for lawn specimens or avenue planting. Cool moist loamy soil in a sunny spot is ideal.

BIGNONIOIDES D. 20ft. Handsome pale green leaves. White flowers marked yellow and purple. Spring. \$2.25

B. AUREA. D. 12ft. Beautiful butter yellow foliage. \$4.25

CEANOTHUS. CALIFORNIAN LILAC. These popular hardy Californian native shrubs prefer poor dry soil but will thrive in any type of soil provided the drainage is good. Prune after flowering. 6 for \$12.00

EMILY BROWN. E. 3ft. Low spreading bush. Violet blue flowers. Dark green foliage \$2.15

GLORIOSUS. E. 1ft. Creeping ground cover, lavender blue flowers in spring. \$2.15

HURRICANE POINT. E. 18ins. Light blue flowers in clusters. Rapid growing, spreading habit. \$2.15

JOYCE COULTER. E. 3ft. Spreading habit. Dark blue flowers, early spring. \$2.15

JULIA PHELPS. E. 5ft. Deep cobalt-blue flowers in spring. Compact habit. \$2.15

LOUIS EDMUNDS. E. 5ft. Sea blue flowers in compact cylindrical clusters. \$2.15

MOUNTAIN HAZE. E. 4ft. Covered with small, soft blue flowers April-May. Will stand pruning. \$2.15

PAPILLOSUS ROWEANUS. E. 8ft. Intense blue flowers from early spring. \$2.15

RAMULOSUS. E. 4ft. A spreading shrub with long arching branches. Honey scented lavender flowers borne in profuse clusters Aug. and Sep. \$2.15

RIGIDUS SNOWBALL. E. 4ft. Masses of clear white flowers produced on a spreading rounded bush. Distinctive wedge shaped leaves. \$2.15

CERATOPETALUM GUMMIFERUM. E. 20ft. SYDNEY CHRISTMAS BUSH.

Requires good soil enriched with manure or compost. Small creamy white flower bracts in October enlarge and change through pink, flame and then bright red by Christmas. Excellent for cutting. \$2.50

CERATOSTIGMA WILLMOTTIANUM. D. 4ft. CHINESE PLUMBAGO.

Small, hardy, deciduous, is one of the finest of the blue flowering garden shrubs. Masses of bright gentian blue phlox-like flowers. Summer. Evergreen in some warmer districts. \$1.80

CERCIS. Small growing hardy deciduous trees.

CHINENSIS. D. 15ft. CHINESE REDBUD. Bushy habit, deep purplish pink flowers. \$2.25

- **CH. AVONDALE.** D. 12ft. A form of the Chinese Redbud selected for the regularity with which it produces a profusion of deep purple flowers at an early age. \$3.25

SILICUASTRUM. D. 20ft. JUDAS TREE. Pea shape bright purplish rose flowers. \$2.25

CHAENOMELES. (CYDONIA, JAPONICA). FLOWERING QUINCE. These hardy deciduous shrubs will stand any climate in New Zealand. Perfumed green fruit ripening yellow in Autumn following flowering, make excellent jelly. (Good fruiting varieties are marked *). Plant in sunny position in garden loam enriched with leaf mould. Height can be governed by careful pruning after flowering. 6 plants for \$12.00

AFTERGLOW. D. Double snow white tinged rose pink. \$2.20

ALBA. D. Single white, vigorous upright habit. \$2.20

CAMEO. D. Double soft apricot pink, compact bushy habit. \$2.20

CARDINAL. D. Very large brilliant deep red flowers. Tall bushy. \$2.20

CHOCHURAGAKI. D. Semi-double bright vermillion. Petals ruffled. \$2.20

CLARKE'S GIANT RED. D. Deep bright red, golden stamens, free flowering. \$2.20

- * **CRIMSON AND GOLD.** D. Semi-double crimson flowers, dwarf habit. \$2.20

CYNTHIA. D. Semi-double peach pink. \$2.20

FALCONET CHARLOTTE. D. Large double rose pink to bright salmon pink. Winter and early spring. \$2.20

JULIET. D. Soft coral pink. \$2.20

MACROCARPA. D. Brilliant deep pink. \$2.20

MANDARIN. D. Bright glowing mandarin red. \$2.20

MINERVA. D. Very large vivid rose deepening rose-red. \$2.20

ORANGE FLAME. D. Large single bright tangerine orange. \$2.20

PINK LADY. D. Large single clear pink. \$2.20

ROWALLANE. D. Large rosy-crimson, yellow stamens. \$2.20

SNOW. D. Large double snow white flowers, compact habit. \$2.20

SUNSET GOLD. D. Single clear rose pink. Mid-season. \$2.20

CHIMONANTHUS. WINTERSWEET or ALLSPICE. Deciduous shrubs, twiggy habit; fragrant yellowish flowers inner petals marked with purple, are produced in clusters during mid-winter on bare stems.

PRAECOX. D. 8ft. Waxy pale yellow fragrant flowers. \$2.25

PRAECOX LUTEUS. D. 6ft. large pure sulphur yellow flowers. \$3.50

CHOISYA TERNATA. E. 6ft. **MEXICAN ORANGE BLOSSOM.**

A dense globular evergreen shrub with glossy green foliage; will thrive under most conditions in full sun or dappled shade. Valuable shrub for seaside. Foliage untouched by animals. Snowy white sweetly scented flowers in spring. \$1.80

CINNAMOMUM CAMPHORA. E. 12ft. (**CAMPOR LAUREL**).

An excellent specimen tree suitable for the larger garden with a spreading habit. Soft lemon green fragrant foliage. \$2.50

CISTUS. SUN ROSE. Evergreen flowering shrubs especially useful for growing under adverse conditions on poor or stony soils. Resistant to drought. Prune hard in winter. 6 for \$10.00

FORMOSUS. E. 3ft. Yellow flowers with crimson spots. Compact. \$1.75

LUSITANICUS. E. 3ft. White flowers, maroon zone yellow patch. \$1.75

PURPUREUS BRILLIANCY. E. 4ft. Spiraea-red flowers with darker blotch. \$1.75

SALVIIFOLIUS. E. 2ft. White flowers. Yellow basal stain. \$1.75

SUNSET. E. 3ft. Large cerise pink flowers. \$1.75

CLERODENDRON UGANDENSE. E. 5ft. **BLUE BUTTERFLY BUSH.**

Plant in a sunny well drained position. Will stand dry conditions. Two-toned pale and dark blue flowers in summer. \$1.80

CLETHRA ARBOREA. E. 15ft. **LILY OF THE VALLEY TREE.**

Panicles of small, white, pendant, cup-shaped fragrant flowers resembling Lily of the Valley in late summer and early autumn. \$2.25

COLEONEMA. PINK DIOSMA. Erect growing, evergreen shrub with long slender branches and narrow leaves. Prune after flowering (in winter and early spring). Plant in a warm, dry, well-drained position.

PULCHRUM. E. 5ft. Tiny, starry bright pink flowers. \$2.00

PULCHRUM RUBRUM. E. 5ft. Tiny starry deep cerise pink to red. \$2.00

CONVOLVULUS CNEORUM. E. 2ft. (**IPOMAEA**).

Plant in an open, sunny well-drained position. White flowers with pale pink stripe on reverse. Foliage silvery-grey. \$1.80

MAURITANICUS. E. Prostrate ground cover. Blue flowers. Summer. \$1.50

CORNUS. DOGWOOD. Hardy ornamental shrubs or small trees with striking white, creamy white and pink bracts in spring and brilliant autumn foliage. They are easily grown under most conditions and will stand shade or sun and will thrive under other trees.

ALTERNIFOLIA ARGENTEA. D. 8ft. Silver variegated shrub. Bushy habit. Regular creamy-white margin to leaves. \$4.00

BAILEYI. D. 5ft. **REDSTEM DOGWOOD.** Pearly-white berries and attractively coloured leaves in autumn. \$2.00

CAPITATA. E. 15ft. **HIMALAYAN STRAWBERRY.** A small round headed tree with large creamy-yellow flower bracts in early summer then strawberry-like fruits. \$2.00

FLORIDA. D. 10ft. White flower bracts in summer, bright red berries early winter. Brilliant autumn foliage. \$2.00

KOUSA. D. 15ft. Creamy-white flower bracts in spring, followed by strawberry-like fruits. \$2.50

MAS AUREA. D. 8ft. Yellow leaved form of the "Cornelian" cherry forming a large shrub. Small yellow flowers in late winter followed by bright red cherry-like fruit. \$3.00

CORONILLA GLAUCA VARIEGATA. E. 4ft.

Charming evergreen shrub which is seldom seen without its long-stalked coronets of vivid canary-yellow daffodil-scented flowers. Plant in a sheltered position, needs support. Blue-green leaves splashed with rich creamy tints. \$2.00

CORTADERIA. Highly ornamental perennial grasses which are hardy and will thrive under most soil conditions. (See also Native Section) 6 plants for \$10.00

ARGENTEA (PAMPAS GRASS). Silvery white plumes. \$1.75

● **GOLD BAND.** E. 30ins. Leaves attractively margined golden-yellow. Graceful small silvery plumes 5ft. in height. \$2.50

SELLOWIANA (PINK PAMPAS). Pinkish brown plumes. \$1.75

CORYLOPSIS SPICATA. D. 6ft. **WINTERHAZEL.**

Acid loving plants which thrive when associated with Rhododendrons and Magnolias. Do not allow to dry out during summer. Long drooping racemes of lemon yellow flowers. Early spring. \$2.50

CORYLUS AVELLANA. **ORNAMENTAL HAZELNUTS** (see also fruit tree section).

Hardy deciduous shrubs which will thrive in most situations including heavy clay ground and dense shade.

AVELLANA PURPUREA. D. 6ft. Purple leaved form. Attractive rich purple, heavily-veined foliage in spring. \$3.50

COTINUS. (RHUS). These hardy deciduous shrubs will thrive in most situations, but prefer a rather open position in full sun. Prune fairly severely during winter months.

AMERICANUS. D. 10ft. Leaves turn shades of yellow, orange and scarlet in autumn. \$3.30

COGGYGRIA FOLIIS PURPUREIS. D. 8ft. **PURPLE SMOKE BUSH.** Round deep rich purple leaves, deepening in colour in autumn. \$3.30

C. ROYAL PURPLE. D. 6ft. Bold paddle-shaped deep purple leaves with waxy bloom. \$3.50

COTONEASTERS. (ROCK SPRAY). These adaptable shrubs have small rather insignificant flowers followed by a crop of glossy berries in late summer, autumn and winter. All Cotoneasters are hardy, thriving in average well drained soils. May be trimmed.

6 plants for \$11.00

ADPRESSUS. E. 1ft. Spreading prostrate shrub; small, deep green leaves turning scarlet in autumn. White flowers followed by bright red berries. \$2.00

AUTUMN FIRE. (HERBST FEUER). E. 2ft. Creeping shrub of prostrate habit. Ideal ground cover. Red berries in abundance. Brilliant autumn colouring. \$2.00

CONGESTUS. E. 18in. Creeping plant of dense habit, large red berries. \$2.00

CORNUBIA. E. 10ft. Tall growing, open upright vigorous habit. Very large sealing-wax red berries. \$2.00

DAMMERII. E. 1ft. Very prostrate with long trailing shoots. Sealing-wax red berries. Excellent ground cover. \$2.00

DAMMERII SKOGHOLM. E. 15in. Low spreading habit. Arching branches. Bright red berries. \$2.00

HARROVIANUS. E. 8ft. Forms handsome rounded specimen with arching branches. White flowers followed by bunches of scarlet red berries. \$2.00

HORIZONTALIS E. 2ft. Prostrate habit. Sprays of glowing crimson berries in autumn combined with brilliant red leaves. Ideal for training against walls. \$2.00

H. SUPERBA. E. 2ft. Flat growing shrub, masses of crimson berries. \$2.00

H. VARIEGATA. E. 2ft. Prostrate growing attractive silvery variegated foliage, angular branches hugging ground. Red colourings in autumn. \$2.00

THYMIFOLIA. E. 2ft. Dwarf form with close congested growth. Bright red berries. \$2.00

CROTALARIA AGATIFLORA (LABURNIFOLIA). E. 6ft. QUEENSLAND BIRD FLOWER.

A unique, sub-tropical shrub prefers a hot, dry situation. Prune four to five times a year for successive crops of flowers. Large greenish yellow flowers during summer. \$2.00

CYTISUS. BROOM. The ornamental brooms have earned the reputation of being the hardiest and easiest of all shrubs to grow. Given a well-drained soil, no matter how poor, and full sun they turn on a show of blossom for weeks from late spring. Cut back after flowering. 6 plants for \$9.50

ALBUS. E. 5ft. Grey green foliage, sprays of white flowers. \$1.70

BEANEI. E. 1ft. An outstanding prostrate growing dwarf, spreading to four feet across. Ideal for banks. Masses of yellow flowers in spring. \$1.70

BURKWOODII. E. 6ft. Brilliant Venetian red shading to pink, touch of yellow. Late flowering. \$1.70

CORNISH CREAM. E. 7ft. Creamy white Upright. Free flowering. \$1.70

- CRIMSON KING.** E. 6ft. Intense crimson flowers. Vigorous. \$1.70
DONARD'S SEEDLING. E. 5ft. Soft rich tones of pink, red and orange. Spreading habit. \$1.70
GEOFFREY SKIPWORTH. E. 5ft. Graceful arching sprays of pink. Early. \$1.70
KILLARNEY SALMON. E. 6ft. Shade of reddish salmon. Vigorous. \$1.70
LILAC TIME. E. 4ft. Small, dainty, lilac-pink. Graceful dwarf. \$1.70
LORD LAMBOURNE. E. 6ft. Flowers have dark crimson wings and yellow standards tipped with pink. \$1.70
PRAECOX. E. 4ft. Sulphur yellow. Dwarf habit; semi-weeping. \$1.70
PRAECOX ALL GOLD. E. 4ft. Small golden yellow flowers. Slender semi-weeping branches. Dwarf habit. \$1.70
PRAECOX GOLD SPEAR. E 2-3ft. Of finer growth than C. praecox, upright dwarf habit, but equally floriferous. Masses of very bright dainty flowers. Ideal for rock gardens and borders. \$1.70

DAMPIERA DIVERSIFOLIA. E. An attractive Australian trailing plant with deep sky-blue flowers over a long period. Prefers a warm, sunny, well drained situation. \$1.75

DAPHNE. Daphnes prefer a cool well-drained soil with peat or leaf mould added. Flowers of sulphur or aluminium sulphate will help neutralise alkalinity.

- BURKWOODII SOMERSET.** D. 4ft. Compact shrub, pale pink starry scented flowers in spring. \$2.00
BURKWOODII VARIEGATA. D. 4ft. Dark green leaves thinly margined with cream. Pale pink starry scented flowers. \$2.00
CNEORUM EXIMIA. E. 9ins. A more prostrate form. Flower buds crimson open rich rose-pink. \$2.50
CNEORUM MAJOR. E. 1ft. GARLAND FLOWER. A miniature shrub ideal for rock gardens or front borders, sweet scented rose pink flowers. \$2.25
CNEORUM MAJOR VARIEGATA. E. 1ft. Miniature shrub, dark green leaves attractively margined cream, sweet scented rose pink flowers. \$2.50
COLLINA. E. 1ft. Deep green foliage terminating in a cluster of fragrant rosy-purple flowers in spring. Excellent rock garden shrub. \$2.50
GENKWA. D. 2ft. Erect slender branches on which are borne clear lilac-blue slightly perfumed flowers during late September. A semi-shady position is preferable in hot climates. \$3.00
ODORA LEUCANTHE. E. 3ft. UPRIGHT DAPHNE. The strongly-scented pink to red buds open to white blush pink. Erect habit. \$2.25
ODORA RUBRA. E. 3ft. Bright pink to red buds open white blush pink; highly perfumed. Spreading habit. \$2.25

DAVIDIA INVOLUCRATA. D. 15ft. DOVE OR GHOST TREE. This rare Chinese tree requires a cool, moist root run and prefers association with other deciduous trees. The mulberry-shaped leaves are coarsely toothed, bright green above and white felted beneath emitting fragrance when crushed. The 1in.-wide bunches of red and white stamens are supported opposite drooping creamy white bracts. \$4.00

DESFONTAINEA SPINOSA. E. 5ft.

The holly-like leaves of this hardy evergreen shrub are a deep shining green. Prefers a cool, moist root run with plenty of humus in the soil. In the warmer districts plant in partial shade. Brilliant scarlet vermilion waxy trumpets with yellow tips. Summer. \$3.50

DEUTZIA. These deciduous shrubs are very hardy, will thrive throughout New Zealand and are not particular to soil or position. The older flowering stems should be pruned out after flowering.

CANDIDISSIMA. D. 5ft Large double white flowers in spring. \$1.75

MONT ROSE. D. 5ft Drooping panicles of single blush pink flowers on slender branches. Spring. \$1.75

PRIDE OF ROCHESTER. D. 5ft. Large blush pink flowers change to white in late spring. \$1.75

DIOSMA ERICOIDES. E. 4ft. **BREATH OF HEAVEN.**

This evergreen low growing shrub prefers a well-drained sunny position and if required lends itself to close trimming. Sweet scented heath-like foliage. Star-like white flowers, late winter and spring. \$2.00

DRACAENA TERMINALIS. E. 6ft. This cabbage tree-like shrub was originally brought to New Zealand by the Maoris. Erect slender stems and attractive deep green, $\frac{2}{3}$ inch wide, 2 feet long leaves. \$3.00**DRYANDRA.** A member of the Protea family they prefer a sunny, well drained situation and will thrive in conditions where the soil is poor. If in a windy position stake when young.

FORMOSA. E. 8ft. Large bronze gold flowers in winter. With their long keeping qualities are valued for decorative work. \$2.00

PRÆMORSA. E. 6ft. Large lemon-yellow flowers. Holly-like foliage. \$2.00

EDGEWORTHIA. **YELLOW DAPHNE.** Though easy to grow in any soil prefers one rich in leaf mould or compost as preferred by Azaleas and Rhododendrons.

PAPYRIFERA GRANDIFOLIA. D. 4ft. Very large heads of golden yellow flowers. Late winter. \$2.00

EMBOTHRIUM. **CHILEAN FIRE BUSH.** Prefer a loose, well drained soil with leaf mould or peat added. Avoid lime fertilisers and animal manure.

COCCINEUM. E. 15ft. Brilliant orange-scarlet honeysuckle-like flowers, early spring. \$2.50

C. LONGIFOLIUM. E. 20ft. Catherine wheel-like blossom of orange-vermilion; early spring. \$2.50

PINNATUM. E. 20ft.—Fern leaf Waratah—Large flat topped tree, brilliant red Waratah-like flowers. Attractive foliage. \$3.50

ENKIANTHUS. Requires a lime free acid soil with a cool root run. Enrich soil with leaf mould or peat.

CAMPANULATUS. D. 6ft. Pale cream with red veins, lily of the valley like flowers in spring. Autumn foliage gold and scarlet. \$2.75

PERULATUS. D. 4ft. Small pure white flowers during spring. Rich autumn shades of red and brown. \$2.75

EPACRIS. E. 4ft. AUSTRALIAN FUSCHIA. Require a warm, well drained situation in poor or stony soil. Useful, long lasting cut flowers. Prune after flowering.

IMPRESSA. E. 3ft. Pink tubular flowers. \$2.00

LONGIFLORA. E. 4ft. One inch long flower tubes red with white tips, late winter and spring. \$2.00

ERICA. HEATH. Have a preference for acid soils rich in leaf mould, sunny situation and an annual mulch of compost, bush mould or peat. As they are surface rooting do not cultivate too near the roots. The European varieties are extremely hardy and can be grown without difficulty in the coldest parts. The flowering times are given as a guide but could vary from season to season and in different districts.

CANALICULATA. E. 5ft. Small pale mauve-pink bells, black anthers. May-August. \$2.00

CARNEA AUREA. E. 9in. Deep pink flowers with foliage bright gold in spring and early summer. August-October. \$2.00

CARNEA SPRINGWOOD WHITE. E. 9in. Trailing habit; pure white flowers. July-September. \$1.70

CARNEA VIVELLI. E. 9in. Dark carmine red flowers. Foliage bronze in winter, dark green summer. August-September. \$1.70

CERINTHOIDES. E. 2ft. South African species, longer lived than most varieties. Small greyish-green leaves, 3-inch clusters of 1-inch long hairy tubular brilliant orange scarlet flowers. October-January. \$2.25

CINEREA ATROPURPUREA. E. 1ft. Bright purple crimson flowers, dark foliage. January-February. \$1.70

CINEREA GOLDEN DROP. E. 6in. Golden copper foliage in summer turning strikingly rusty red in winter. Prostrate habit. Pink flowers. January-February. \$2.25

CINEREA STARTLER. E. 9in. Bright glowing pink. January-March. \$1.70

CONCINNA. E. 4ft. Reddish purple tubular. February-April. \$2.00

CRUENTA. E. 3ft. Long tubular orange scarlet flowers produced for most of the year. \$2.00

GILVA. E. 3ft. Translucent white, green markings at tips. December-March. \$2.00

HYBRIDA. E. 3ft. Lupin-like spikes of tubular scarlet. August-October. \$2.00

INTERMEDIA. E. 4ft. Tubular ivory white bells, almost year round. \$2.00

LINNAEOIDES. E. 3ft. Long tubular purplish rose. Aug.-Oct. \$2.00

MAMMOSA COCCINEA. E. 4ft. Tubular orange-scarlet flowers on long spikes. January-March. \$2.00

MEDITERRANEA ROSSLARE. E. 3ft. Low compact habit. Small lavender-pink bells. August-October. \$2.00

MULTIFLORA DAVIESII. E. 3ft. Delicate lavender. Oct.-Nov. \$2.00

PARKERII. E. 4ft. Clear waxy satin pink tubular flowers for most of the year. \$2.00

PRATTII. E. 3ft. Small pinkish purple bells. Aug.-Sept. \$2.00

- RUBENS.** E. 2ft. Tiny deep rose pink bells. June-August. \$2.00
- SILVER BEADS.** E. 18in. Glistening pure white flowers on long spikes throughout winter. Highly recommended as cut flower. \$1.70
- VAGANS MRS. MAXWELL.** E. 2ft. Deep rose cerise borne on long spikes. February-April \$1.70
- VENTRICOSA GLOBOSA.** E. 1ft. Waxy globe like pale pink flowers with lighter flared top. November-January. \$2.00
- WILMOREI.** E. 2ft. Tubular pink bells suffused coral-red and tipped white. June-Sept. \$2.00

ERIOSTEMON MYOPOROIDES. E. 5ft. AUSTRALIAN WAX FLOWER.

Compact growing evergreen shrub which may be pruned to any desired shade immediately flowering has ceased. The leaves when crushed have a strong scent reminiscent of currant plant leaves. Easily grown but prefers a loose rather peaty or acid soil in an open or partially shaded situation. Masses of pale pink buds opening to pinkish-white star shaped flowers. Late winter-early summer. \$2.00

PROFUSION. E. 4ft. A form selected for its profuse flowering and compact growth. \$2.20

ERYTHRINA. CORAL TREE. Plant in a warm, sunny well-drained situation. May be cut back to ground level at the beginning of winter.

BLAKEII. D. 6ft. Spectacular spikes of pea-shaped rich deep crimson flowers; summer. \$2.50

CRISTA-GALLI. D. 10ft. Large spikes of showy pea-shaped crimson flowers; summer. \$2.00

ESCALLONIA APPLE BLOSSOM. E. 4ft.

Hardy evergreen shrub that will thrive under most conditions. Cut back after flowering. (See Hedge and Shelter Section). Dwarf compact habit. Delicate pink blossom, late summer and autumn. \$1.75

EUCALYPTUS. THE AUSTRALIAN GUMS. Most decorative, having varying shades of flowers, attractive foliage and trunks. Plant in average soil with good drainage in a warm position. 6 plants for \$10.00

CINEREA. E. 20ft. SILVER DOLLAR GUM. Striking silvery blue foliage. Cream flowers. \$1.75

FICIFOLIA. E. 20ft. CRIMSON GUM. Unflowered seedlings, seed collected from selected specimens. Flowers range in colour from crimson, scarlet, pink and orange. January-February. \$1.75

LEUCOXYLON ROSEA. E. 25ft. Delicate pink flowers in late autumn and winter. Attractive to birds. \$1.75

NICHOLI. E. 15ft. Beautiful foliaged gum with a graceful weeping habit. Fine narrow leaves coated with purple sheen. Hardy \$1.75

EUGENIA. (LILLY-PILLY). Quick-growing evergreen trees, attractive to birds, which are ideal for coastal districts. Prefer a sunny well-drained position but will grow in most soils.

MYRTIFOLIA. E. 20ft. White flowers then large rosy-purple berries in autumn persisting into winter. Glossy bronze young foliage. \$1.80

SMITHII. E. 15ft. Snow white flowers November-December, followed by white, mauve or pinkish-mauve berries. Round headed small trees. \$1.80

EUONYMUS. This family of ornamentals ranges from rock plants to sizeable shrubs. All are easy to grow in almost any situation and can be safely pruned.

FORTUNEI MINIMUS. E. 2in. Miniature Japanese ground-cover plant. Rounded dull green leaves, veins picked out in paler shade. \$1.75

FORTUNEI GRACILIS. (SILVER QUEEN). E. 1ft. Semi-trailing plant, green and cream variegated foliage. \$1.80

JAPONICUS OVATUS AUREUS. E. 6ft. Leaves suffused and blotched yellow. Slow and compact habit. \$1.80

JAPONICUS VARIEGATUS. E. 10ft. Bright glossy golden yellow margined leaves. \$1.80

PHELLOMANUS. D. 8ft. Orange berries enclosed in deep red seed-coat. Coloured autumn foliage. \$2.20

EUPHORBIA. Plant in a well-sheltered frost free position. Prune in winter.

PULCHERRIMA. E. 6ft. (POINSETTIA). Large flower-like bracts of distinctive red in autumn and early winter. \$2.00

SPLENDENS. E. 3ft. Succulent growth bears clusters of small, blood-red flower bracts touched gold in the centre. Flowers practically year round. Suitable for planting against a trellis or wall. \$2.00

VENETA. (WULFENII). E. 3ft. Narrow bluish-green leaves. Greenish-yellow flowers in winter. \$1.75

EURYOPS PECTINATUS. E. 3ft. Grey-downey leaves deeply lobed. Rich yellow daisy-like flowers Oct.-Dec. Plant in a warm sunny position with good drainage. Prune hard after flowering. \$1.75

EUTAXIA DIFFUSA. E. 3ft. An attractive Australian shrub with masses of yellowish-brown pea shaped flowers over a long period. Plant in full sun and good drainage. \$2.00

EXOCHORDA RACEMOSA. D. 10ft. PEARL BUSH.

Rounded bushy shrub, plant in a moist loamy soil in full sun. Large panicles of snow-white flowers in Spring. \$2.20

PAN AM
Clipper Cargo

carries all of
Duncan & Davies
export orders.

FAGUS. BEECH. Hardy deciduous trees for specimen planting. They prefer a loamy alkaline soil and a cool moist but well-drained root run.

SYLVATICA. D. 30ft. **ENGLISH BEECH.** Soft dark glossy foliage. \$4.00

S. ATROPUNICEUS. D. 25ft. **COPPER BEECH.** Rich coppery purple foliage during Spring and Summer. \$7.00

● **S. PENDULA.** D. 15ft. —**WEeping BEECH**—A spectacular weeping tree. Some of the primary branches are horizontal and others almost perpendicular to the main trunk. Draped with long hanging branchlets. \$15.00

S. RIVERSII. D. 25ft **RIVER'S COPPER BEECH.** The large smooth broad leaves are an unusual blackish red in colour during growing season. \$7.00

● **S. TRICOLOR.** D. 20ft. The dark purple leaves are attractively edged with an irregular pink border. \$10.00

S. ZLATIA. D. 10ft. **GOLDEN BEECH.** Golden yellow foliage in full sun. Slow growing. \$7.00

FATSIA JAPONICA. E. 6ft.

A fast growing Japanese shrub with large decorative glossy dark green leaves. Will grow in shade. First rate as an indoor or tub plant. Large specimens \$3.25

● **FEIJOA SELLOWIANA VARIEGATA.** E. 6ft. An ornamental Feijoa with the leaves attractively margined cream. The flowers in Spring have white petals and prominent brilliant scarlet stamens. \$5.00

FELICIA ANGUSTIFOLIA. E. 2ft. **KINGFISHER DAISY**

Small growing South African shrub with amethyst violet blue daisy-like flowers in Spring. Plant in a sunny well-drained position. Prune after flowering. \$1.75

FESTUCA COXII. E. 9in. **BLUE GRASS.**

An attractive small growing ornamental grass with blue grey foliage. Ideal for the rockery or pebble garden. \$1.50 ea., 6 for \$6.50, 12 for \$10.00

FICUS MACROPHYLLA. E. 20ft. **MORETON BAY FIG TREE.**

Large leathery leaves with a bronzy sheen, topmost leaf before unfolding is enveloped with vivid reddish sheath. Ideal as indoor or tub plant. Excellent shade tree for parks and grounds in frost free districts. \$2.25

FORSYTHIA. GOLDEN BELLS. Extremely hardy easily grown deciduous shrub producing a mass of bell-shaped flowers in Spring before leaves appear.

ARNOLD DWARF. D. 2ft. A dwarf form with deep green foliage with a 4ft spread, Golden yellow flowers. \$1.80

BEATRIX FARRAND. D. 8ft. Large golden blossoms with deeper orange marking in throat. \$1.80

BRONXENSIS. D. 3ft. Clear pale yellow flowers, dark green foliage. \$1.80

KARL SAX. D. 5ft. Large deep golden yellow flowers. Compact. \$1.80

TETRA GOLD. D. 3ft. Large deep yellow flowers. Compact bushy growth. \$1.80

FRAXINUS. ASH. Hardy deciduous trees ideal for planting as specimens for shade and one of the finest trees for parks, streets and avenue planting.

EXCELSIOR. D. 30ft. **ENGLISH ASH.** Attractive spring foliage with brilliant autumn colours in cooler districts. \$2.50

EXCELSIOR AUREA. D. 20ft. **GOLDEN ASH.** Pale yellowish-green foliage in Spring turning rich golden yellow in Autumn. In Winter the black buds stand out on the yellow twigs. \$3.25

EXCELSIOR AUREA PENDULA. D. **WEeping GOLDEN ASH.** Half the branches ascend and the others descend forming a round-headed tree. Branches orange yellow in colour with autumn foliage rich golden yellow. Plants grafted at ground level and can be trained to desired height. \$7.50 or 6-7ft Standards \$12.00

EXCELSIOR GOLDEN GLOW. D. 20ft. Attractive light green foliage in Spring, turning buttery yellow in autumn. \$3.25

OXYGARPA RAYWOODII. D. 20ft. **CLARET ASH.** Attractive pale green foliage in Spring, turning rich wine shade in early Autumn. \$3.25

VELUTINA. D. 20ft. **ARIZONA ASH.** Leaves and shoots densely clothed with grey, velvety down. \$2.50

VELUTINA GLABRA. D. 15ft. **MODESTO ASH.** Small, round-headed tree with slender greyish-green velvety leaflets giving lacy texture. Suitable for dry areas. \$3.25

FREMONTIA CALIFORNICA. E. 6ft.

Plant in full sun in well-drained light gravelly or sandy soil. Stake well. Small palmate grey green leaves. Two to three-inch coppery-orange yellow flowers from late Spring until late Summer. \$2.25

GARDENIA FLORIDA. E. 3ft.

Only successful out of doors in almost frost free districts in sunny sheltered situation. Sweetly scented double waxy milky white flowers. Leaves glossy deep green. \$2.25

GARRYA. Attractive hardy winter flowering evergreen shrub with silvery yellow catkins. Suitable for seaside planting.

ELLIPTICA. E. 8ft. Cutting grown from selected male plants. Six-inch long silvery yellow catkins in late Winter and early Spring. \$2.50

JAMES ROOF. E. 8ft. A selected form with masses of nine-inch long silvery yellow catkins and attractive foliage. \$2.50

● **GLEDITSIA.** **HONEY LOCUST.** Beautiful foliage trees with pinnate leaves resembling the "Mimosas". Rapid growing and not particular as to soil and will succeed in a wide range of climates. Ideal as a street or park tree.

MORaine. D. 20ft. Beautiful vase-shaped tree recommended as a street tree. \$10.00

RUBY LACE. D. 15ft. Brilliant ruby-red foliage. New growth intense in colour darkening to bronze-green as they mature. Usually the tree continues to grow throughout summer creating a beautiful contrast between young and mature foliage. \$10.00

SUNBURST. D. 15ft. Has a symmetrical spreading habit and forms a golden yellow crown of graceful delicate foliage. Twisted sickle shaped seed pods. \$10.00

GORDONIA AXILLARIS. E. 15ft.

Beautiful large single creamy white flowers, central orange yellow stamens April till September. Prefers an acid moist peaty soil.
\$2.75

GREVILLEA. AUSTRALIAN SPIDER FLOWER. Australian evergreens belonging to the Protea family, plant in an open, sunny, well drained situation. Slightly acid soil preferable. "Spider" describes curious shape of waxy clustered curly flowers with long bobbed styles.

ALPESTRIS. E. 4ft. Red and yellow. \$2.15

ALPINA DALLACHIANA. E. 3ft. Red and white flowers for six months from spring. Compact habit. \$2.15

CORAL. E. 1ft. Clear pink Sep.-Nov. Compact dwarf spreading \$2.15

ERICIFOLIA. E. 4ft. Red with white lip in winter. \$2.15

ERICIFOLIA KING'S GLOW. E. 4ft. Clusters of spidery red with white lip in winter. Attractive green and cream variegated foliage, compact low growing habit. \$2.30

ERICIFOLIA PROSTRATA. E. 2ft. Red tipped pink late winter and spring. Dense low growing habit. \$2.15

FASCICULATA. E. 2ft. Tangerine red flowers long flowering from early spring. Dwarf growing trailing habit. \$2.15

GLEN PEARL. E. 5ft. Bright pink shaded orange July-December. Open. \$2.15

GLEN SANDRA. E. 5ft. Geranium-like flowers; late winter and spring. Open upright habit. \$2.15

JUNIPERINA. E. 4ft. Deep red flowers in spring. Dark green needle-like foliage. \$2.15

JUNIPERINA PIPPA. E. 4ft. Apricot orange flowers in spring. Spreading. \$2.15

LAVENDULACEA BLACK RANGE. E. 3ft. Brilliant deep red flowers September-November. Small greyish green lavender-like leaves. Semi-prostrate habit. \$2.30

LAVANDULACEA MERINO. E. 1ft. Soft pink flowers in late winter and spring against silvery green woolly foliage. With spreading habit. \$2.30

LAVANDULACEA RED CLOUD. E. 3ft. Fine greyish silvery foliage makes ideal foil for brilliant red flowers in mid-winter. Compact habit. \$2.30

OBTUSIFOLIA. E. 1ft. Red flowers. Excellent ground cover. \$2.15

OLEOIDES DIMORPHA. E. 5ft. Deep fiery-red Oct-Nov. Erect. \$2.15

OLYMPIC FLAME. E. 4ft. Brilliant flame red touched cream. Upright. \$2.15

POORINDA CANBERRA GEM. E. 6ft. Rich coral red. Dark green foliage. \$2.15

PROSTRATA AUREA. E. 1ft. Golden sulphur yellow flowers spring and summer. Bright green foliage; low spreading habit. \$2.15

ROBUSTA. E. 20ft. SILKY OAK. Fiery-orange flowers in summer. Bold deep-green fern-like foliage \$2.30

ROSMARINIFOLIA JENKINSII. E. 5ft. Rich red Aug.-Nov. \$2.15

SULPHUREA. E. 5ft. Pale sulphur-yellow October-November. Fine needle foliage. \$2.15

GUNNERA TINCTORIA. E. 6ft.

Spreading specimen with a crown of foliage up to 8ft. across with bold, large, rough, rhubarb-like leaves two to four feet in diameter. Requires moist soil; is ideal for planting along streams. \$2.00

HAMAMELIS. WITCH HAZEL. A useful winter flowering shrub very suitable for cold districts but will grow in warmer climates and semi-shade. Peat should be added to soil. Greyish green hazel-like leaves change to rich golden yellow before falling.

MOLLIS. D. 10ft. Rich golden yellow flowers, fragrant, Aug.-Oct. \$3.50

M. BREVIPETALA. D. 10ft. Cadmium-orange flowers in a reddish brown calyx, fragrant, August-October. \$3.50

HELICOTRICHON SEMPERVIRENS. E. 18ins. An attractive ornamental grass with stiff, blue-grey foliage. \$1.50

HELXINE SOLEIROLII. BABY'S TEARS. An attractive and useful ground cover for damp and shady conditions. Dainty green leaves form a dense carpet. \$1.50
6 plants for \$5.00

HIBISCUS. Sub-tropical Chinese evergreen shrubs, plant in sunny well-drained sheltered position. Protect from frosts over 6 degrees. Prune back heavily in early spring before new growth commences. Flowering commences in November and continues right through growing season. 6 plants for \$10.00

AGNES GAULT. E. 8ft. Very large glowing rose pink single flowers. \$1.75

CALIFORNIAN GOLD. E. 6ft. Large single golden yellow flowers with garnet-like eye. \$1.75

CROWN OF BOHEMIA. E. 6ft. Double rich saffron-yellow nearing apricot, rosy throat. \$1.75

D. J. O'BRIEN. E. 6ft. Large double tangerine flowers with strawberry-red throat. \$1.75

MRS. HORTON. E. 6ft. Large double shining China rose. \$1.75

ROSA SINENSIS. E. 8ft. Bright single red. \$1.75

SIMMOND'S RED. E. 6ft. Large single glowing orange red. \$1.75

TAHITI QUEEN. E. 8ft. Fully double rosy-coral pink. \$1.75

HIBISCUS SYRIACUS. ROSE OF SHARON. These deciduous Hibiscus are most suitable for the colder climates, thrive in good average soil and have a long flowering period from January through till winter.

COELESTIS. D. 6ft. Single light violet, reddish at base of petals. \$2.00

MONSTROSUS. D. 5ft. Single white, maroon centre. \$2.00

RUBIS. D. 6ft. Single red. \$2.00

SNOWDRIFT. D. 5ft. Single, pure white. \$2.00

SPECIOSA D. 5ft. White, red centre. \$2.00

VIOLET CLARE. D. 6ft. Double, violet blue. \$2.00

WOODBIDGE. D. 5ft. Single mauve red. \$2.00

HOSTA—PLANTAIN LILY—This member of the Lily family is of great value as a ground cover in woodland and semi-shade conditions. Prefers cool, moist conditions. The lily-like tubular flowers are produced on spikes which stand above the foliage.

SIEBOLDIANA. Flowers whitish, tinged with purple and green, on spikes up to 30 inches. Very large glaucous-green foliage. \$1.50

HYDRANGEA MACROPHYLLA VARIETIES. (COMMON HYDRANGEA). One of the best known and showiest of summer flowering shrubs, practically deciduous in cold climates. They appreciate protection from hot afternoon sunshine and prefer peaty soils with cool root conditions. An abundance of water is essential during the flowering season. Plants should be cut back to about half the length of each stem just above a strong pair of buds in winter. The depth of colour in Hydrangeas is influenced by nature of the soil. Acid soils favour blue shades, while alkaline soils favour pink and red shades. Usually the deeper the reds or pinks, the deeper the corresponding blues will be produced in acid soils. To encourage reds and pinks lime should be added to the soil and for blues sulphate of iron, alum or flowers of sulphur may be used.

DWARF GROWING HORTENSIAS

\$1.50 each or 6 for \$8.00

ADMIRATION. Deep rose pink.	\$1.50
GENERAL PATTON. Bright red.	\$1.50
MONTGOMERY. Deep red.	\$1.50

TODI. Fine dark pink.	\$1.50

HYDRANGEA (continued)

LACECAP VARIETIES which produce large flattened corymbs of fertile flowers around which are a ring of coloured ray florets.

BLUEWAVE. Blue fertile flowers. Ray florets vary from pink to blue. Compact habit. \$1.75

VARIEGATA. Leaves attractively variegated green, grey and cream. Flowers blue. Florets creamy-white. Upright habit. \$1.75

VEITCHII. Large blue flowers. Florets white fading to pink. Upright habit. \$1.75

HYDRANGEA PANICULATA GRANDIFLORA. D. 8ft. **PEEGEE HYDRANGEA.**

Quite different from the usual Hydrangeas, the big heads of showy, double white flowers blend into pink and bronzy shades as flowers mature in late summer to autumn. \$2.00

HYDRANGEA QUERCIFOLIA. D. 6ft. **OAK LEAF HYDRANGEA.**

Named from its handsome deep lobed leaves with autumn colour of deep orange red. Prominent flat heads of creamy white flowers are borne in great numbers in late spring and early summer. \$2.00

HYMENOSPORUM FLAVUM. E. 15ft. (**AUSTRALIAN FRANGIPANI**).

Grows rapidly in warm climates forming a shapely tree with deep green slender pointed leaves. Sweetly fragrant creamy yellow flowers in summer followed by winged seed. \$2.25

HYPERICUM. Low growing, hardy and evergreen twiggy shrubs, will grow in sun or shade. Prune hard in winter.

HIDCOTE GOLD. E 4ft. Rich golden flowers from spring for long season. \$1.85

LESCHENAUTII. E. 5ft. Large golden cup shaped flowers from spring into the winter months. \$1.85

MOSERIANUM TRICOLOR. E. 1ft. Yellow flowers in summer. Green leaves variegated with white and edged pink. \$1.85

SUN GOLD. E. 2ft. Large golden yellow flowers over long period. Arching. \$1.85

IDESIA POLYCARPA. D. 20ft. **WONDER TREE.** Handsome specimen tree with large heart shaped leaves colouring well in autumn. Fragrant greenish flowers in spring are followed on the female tree by long racemes of bright red berries. To ensure berries, both male and female trees should be planted.

POLYCARPA. Seedling grown plants. \$2.50

POLYCARPA FEMALE. Grafted plants selected for their berry-bearing capacity. \$4.00

POLYCARPA MALE. Grafted plants selected for cross-pollinating. \$4.00

ILEX AQUIFOLIUM. E. 8ft. **ENGLISH HOLLY.**

Very hardy trees which are happy in sun or shade, wet or dry. Dark glossy green spiny foliage. Red berries in autumn remain on plant through winter. \$2.00

JACARANDA MIMOSIFOLIA. E. 15ft.

For warmer climates, fine fern-like foliage and masses of lavender tubular flowers in summer make this one of the most beautiful trees. \$2.25

KALMIA LATIFOLIA. E. 6ft. CALICO BUSH.

Glossy green leaves in spring show up the clusters of China rose buds and frosty pink flowers. Requires cool root run and an acid soil. \$3.50

KOELREUTERIA. PRIDE OF CHINA. Hardy deciduous trees native of East Asia grown for their handsome foliage, autumn colour and panicles of yellow flowers, an impressive sight in full bloom.

BIPINNATA. D. 12ft. Bright yellow flowers with purple spot at base. Purple seed pods. \$2.75

PANICULATA. D. 15ft. Long panicles bright yellow flowers followed by lantern-like seed pods. \$2.75

KOLKOWITZIA AMABILIS. D. 8ft. BEAUTYBUSH.

In spring every branch transformed into plumes of lovely bell-shaped light pink blossom, mottled orange yellow. Hardy shrub thrives in sun or shade, needs little attention. \$2.00

LABURNUM VOSSII. D. 12ft. LONG CLUSTER GOLDEN CHAIN.

Very long drooping sprays, bright yellow pea-shaped flowers; spring. Prefers cool, moist, well-drained conditions. \$2.25

LAGUNARIA PATERSONII. E. 15ft.

Rosy-pink to mauve-pink bell-shaped flowers summer. Leaves are oval, greyish green. Drought resistant when established, will tolerate poor sandy soils. Suitable for planting near sea. \$2.00

LANTANA. Slightly frost-tender evergreen shrubs suitable for dry sunny, well-drained positions. Prune hard during late winter or early spring.

GOLCONDA. E. 2ft. Coppery-orange to red flowers through summer and autumn. \$1.65

MONTEVIDENSIS. E. 5ft. Verbena-like lavender pink over long period. \$1.65

SPREADING SUNSHINE. E. 1ft. Prostrate habit. Bright yellow. \$1.65

SOURCE D'OR. E. 2ft. Nankeen yellow. \$1.65

LAURUS NOBILIS. E. 12ft. SWEET BAY.

A very hardy aromatic foliaged tree, drought resistant and useful as a tub plant. The leaves are used in cooking for flavouring. \$2.50

LAVANDULA. LAVENDER. Hardy evergreen shrubs valued for fragrance and long flowering period. Suitable for borders; full sun; average soil. Prune hard after flowering.

DWARF ENGLISH. E. 1ft. Silvery grey foliage. Lavender-blue flowers throughout summer. Compact habit. \$1.85

HIDCOTE. E. 1ft. Very deep purplish blue flowers. Silvery foliage. Dwarf compact habit. \$1.85

LEUCADENDRON. A valuable group of South African shrubs related to the Protea family. Prefer warm sunny position, slightly acid well-drained soil. Avoid lime and fresh manures. Suitable for most coastal towns, will stand considerable amount of salt spray. Most varieties are winter and spring flowering, very useful for floral decorations.

ADSCENDENS DWARF. E. 2ft. Deep red bracts.	\$2.75
ADSCENDENS RED. E. 4ft. Very deep red flower bracts.	\$2.75
ADSCENDENS YELLOW. E. 4ft. Bright yellow flower bracts.	\$2.75
DAPHNOIDES WINTER GOLD. E. 5ft. Broad Citrus yellow flower bracts.	\$3.00
DECORUM ROYAL GOLD. E. 5ft. Bright butter yellow broad tapering bracts three inches across.	\$3.00
DISCOLOR. E. 4ft. Yellow flower bracts tinged with red. Small red central cone.	\$2.75
INCISUM DWARF. E. 2ft. Cream flower bracts. Free flowering. Dwarf spreading growth.	\$2.75
SALICIFOLIUM (STRICTUM). E. 6ft. The narrow leaves at branch tips turn golden yellow in spring.	\$2.50
XANTHOCONUS RED TIP. E. 6ft. Small bright red cones. Ideal for cutting.	\$2.50

LEUCOSPERMUM. The most outstanding of South African shrubs related to the Protea family, are easily grown in most gardens but require lime-free soil, perfect drainage, full sun and freedom from frosts over 4 to 5 degrees Celcius (8-10°F). The Waratah-like flowers in a variety of shades are produced in spring and early summer and will last up to four weeks when picked. The varieties we offer, named by us are cutting grown and selected to give a comprehensive range of form and colour. The names used in brackets are those which we have used in earlier catalogues.

AURORA. E. 3ft. Apricot yellow to buff flowers. Compact habit.	\$3.00
ELDORADO. E. 6ft. (BOLUSII). Apricot yellow to buff yellow.	\$3.00
FANTASY. E. 4ft. (TOTTUM). Salmon deepening to pink.	\$3.00
FIREBALL. E. 4ft. (NUTANS RED). Bright orange red dome shaped.	\$3.00
HONEYGLOW. E. 5ft. (ATTENUATUM). Buttercup yellow deepening to golden yellow flowers.	\$3.00
METEOR. E. 4ft. Coral orange-red deepening to fiery orange-red.	\$3.00
● MOONGLOW. E. 5ft. Clear yellow. Compact.	\$5.00
REFLEXUM. E. 10ft. Orange red flowers. Dove grey foliage.	\$3.00

No extra charges for packing or freight but for orders under \$3 add 50c surcharge

LHOTSKYA ALPESTRIS. E. 4ft. AUSTRALIAN SNOW MYRTLE. Smothered with pink buds and small star-like white flowers along the branches Spring-summer. Prefers a light soil in a sunny position. \$2.50

LIGUSTRUM. The Privets are very hardy and will thrive under adverse conditions. May be trimmed or pruned heavily if so desired.

ARGENTEUM. E. 6ft. The leaves are attractively edged with silver. \$1.75

AUREUM MARGINATUM E. 6ft. The leaves are margined with glowing golden yellow. \$1.75

LUCIDUM TRICOLOR. E. 10ft. Large green pointed leaves bordered with pink when young, later changing creamy white. \$2.25

LIPPIA CITRIODORA. D. 5ft. (Aloysia Citriodora) LEMON SCENTED VERBENA. Small lilac-pink flowers Aromatic foliage. \$1.80

LIPPIA NODIFLORA. D. 1ft.

Low spreading ground cover. Panicles of pale purple flowers in summer. \$1.50 each 6 plants for \$8.00

LIQUIDAMBAR. Deciduous trees grown as specimens or avenue planting, notable for autumn colouring foliage. Prefer cool, moist root run and some protection from strong winds.

FORMOSANA MONTICOLA. D. 20ft. Satiny bronze foliage in spring, passing through reds, orange and yellows in autumn. \$3.50

STYRACIFLUA. D. 20ft Late autumn leaves change from yellow, orange to reds and purple-reds. These seedling grown plants will vary in colouring capacity from tree to tree. \$2.50

S. BURGUNDY. D. 15ft. Grafted plants of selected form notable for early appearance of new leaves in spring and Burgundy-coloured long lasting leaves in late autumn. \$3.50

S. FESTERI. D. 20ft. Grafted plants, selected smooth-barked form with great depth of long lasting autumn and winter colour. \$3.50

S. FESTIVAL. D. 20ft. Grafted plants; selected form with tall pyramidal head of maple-shaped leaves, deep rich green in summer, turning brilliant orange-red in autumn. \$3.50

● **S. GOLDEN TREASURE.** D. 13ft. This new introduction from Australia has aroused keen interest amongst gardeners throughout the world. The leaves are edged gold and in Autumn change to cream and then white. The dark greens turn burgundy and the lighter greens orange to pink. \$8.50

S. PALO ALTO. D. 15ft. Grafted plants of selected variety; makes stately pyramidal tree. Rich green summer foliage changing to striking red orange autumn colours. \$3.50

LIRIODENDRON TULIPIFERA. D. 25ft. TULIP TREE.

A tall pyramidal North American tree with uniquely notched five-inch leaves of bluish-green, changing to yellow in autumn. Tulip-like fragrant flowers yellow green and orange in late spring. Prefers a deep fairly rich loam soil. \$2.50

T. AUREO-MARGINATUM. D. 15ft. Grafted plants of smaller growing form. Leaves are substantially variegated with yellow. \$5.00

T. FASTIGIATA. D. 15ft. Grafted plants, selected form. Habit resembles Lombardy poplar. Ideal for avenue, street or specimen planting. \$4.00

LOMATIA FERRUGINEA. E. 8ft.

Beautiful fern-like foliage, clusters of buff and red claw-like flowers summer. Prefers lime free soil. \$2.80

LOPHOMYRTUS. See New Zealand Trees, Shrubs and Plants section.

LOROPETALUM CHINENSE. E. 6ft. FRINGE FLOWER.

Slow growing shade loving Chinese shrub, flowers while still small. Graceful white flowers, strap-shaped petals, appear late winter, early spring. Prefers soil rich in humus. \$2.25

LUCULIA. One of the best winter and spring flowering shrubs. Prefer a well drained warm situation protected from winds and frosts.

GRATISSIMA. E. 6ft. Bright pink sweetly scented. \$2.20

GRANDIFLORA. E. 6ft. Very large, strongly perfumed white flowers. \$2.20

LUZULA NIVEA. E. 30ins. An unusual ornamental grass with greyish-green shining leaves with silky grey hairs. \$1.50

MAGNOLIA. Hardy deciduous and evergreen flowering trees and shrubs suitable for most New Zealand conditions; must have adequate moisture, good drainage and shelter from damaging winds. Soil should be slightly acid and fortified with leafmould or peat. Avoid lime.

CAMPBELLII. D. 20ft. Very large, pinkish white inside, deep rose outside; late winter. \$5.50

C. CHARLES RAFFILL. D. 20ft. Very large rose colour. Late winter/early spring. \$6.00

DAWSONIANA. D. 20ft. Ivory tinged light Persian-rose. Green leathery leaves veined light magenta-purple. Spring. \$5.00

GRANDIFLORA. E. 20ft. Large pearly white, fragrant. Dark green foliage. \$4.00

GRANDIFLORA FERRUGINEA. E. 15ft. Large fragrant pearly white. Dark green leaves underside covered with russet felt. \$4.00

● **GRANDIFLORA GOLIATH.** E. 15ft. Very large globular creamy white flowers produced at an early age. \$6.00

● **GRANDIFLORA RUSSET.** E. 15ft. Large, fragrant, creamy-white flowers 8-10in across when fully open. Will often flower the first spring. Dark green leaves attractive rich russet suede beneath. \$6.00

● **GRANDIFLORA ST. MARY.** E. 12ft. Compact growing form with bright glistening green leaves, bronze beneath. Enormous cup shaped fragrant white flowers produced at an early age. \$6.00

● **GRANDIFLORA SAMUEL SOMMER.** E. 15ft. Large creamy-white exceptionally fragrant flowers, usually 10in. to 14ins. across. Cutting grown plants that will often flower the first season. \$6.00

- LILIFLORA.** D. 10ft. Wine purple on outside, white inside. Sept. \$4.00
- LILIFLORA NIGRA.** D. 8ft. Very deep purple outside, white within. September. \$4.00
- LOEBNERI MERRILL.** D. 10ft. White star-like shrubby habit. \$4.00
- MOLLICOMATA** D. 20ft. Large, pale pink, resembling waterlilies; bright red long pendant fruits. \$6.00
- **PICTURE.** D. 15ft. (LILIFLORA X DENUDEATA HYBRID). The long bud opens to a large flower a good purple on the outside of the petals. Flowers at an early age and at the same time as Denudata. \$4.00
- SARGENTIANA ROBUSTA.** D. 12ft Immense rosy-pink 10in. diameter. \$6.00
- SIEBOLDII.** D. 12ft. (PARVIFLORA). Cup shaped, waxy white rose cream centre, fragrant. Summer flowering. \$4.00
- SOULANGEANA.** D. 15ft. Purplish pink outside, white inside. Spring. \$4.00
- S. ALBA.** D. 15ft. Pure white, perfumed. Spring. Upright. \$4.00
- S. ALEXANDRINA** D. 10ft. Deep rose outside, white inside. Spring. \$4.00
- S. LENNEI.** D. 15ft. Balloon shaped, fragrant, deep purple outside, white inside. \$4.25
- S. LENNEI ALBA.** D. 15ft. Balloon shaped, fragrant, pure creamy white. \$4.25
- S. RUSTICA.** D. 15ft. Deep, reddish purple. Vigorous. \$4.00
- S. SAN JOSE.** D. 15ft. Large, fragrant, rose-pink. Spring \$4.00
- S. VERBANICA.** D. 10ft. Rose pink outside, white inside. Late spring. \$4.00
- SPRENGERI DIVA.** D. 15ft. Dark rose pink outside, light pink inside. Fragrant. Early September. \$5.00
- STELLATA.** D. 8ft. Star shaped, snowy white, sweetly fragrant. Shrubby compact habit. \$3.75
- STELLATA KING ROSE.** D. 8ft. Pink buds open to delicate blush pink, star shaped, fragrant. Early spring. \$3.75
- S. MASSEY ROSE.** D. 6ft. Pink buds open to delicate blush pink, star shaped, fragrant. Spring. Compact habit. \$3.75
- **STELLATA ROYAL STAR.** D. 8ft. Pure white flowers produced in spring. Later than other varieties. Flowers are hardy to both wind and frost. \$3.75
- S. WATER LILY.** D. 8ft. Fragrant, pure white, star shaped. Spring. Compact pyramidal habit. \$3.75
- MAHONIA.** Adaptable very hardy evergreen shrubs which thrive in any location.
- AQUIFOLIA.** E. 5ft. Dark lustrous holly-like foliage. Yellow flowers in dense clusters early spring, then purplish berries. Leaves frequently turn scarlet in winter. \$2.20
- **CHARITY.** E. 8ft. Fragrant, deep yellow flowers in large terminal clusters on long spreading racemes autumn and early winter. Upright, stately habit. Hardy. \$2.50
- LOMARIIFOLIA.** E. 8ft. Long sea-green pinnate leaves. Deep yellow erect flowers in winter then miniature grape-like dark dusky blue berries. \$2.20
- JAPONICA.** E. 6ft Hardy, beautiful species with terminal clusters of long pendulous racemes of fragrant, lemon-yellow flowers from late autumn to early spring. Magnificent deep green pinnate foliage. \$2.00
- NEVINII.** E. 4ft. Grey-green leaves. Rich yellow flowers in clusters then deep purple to black berries. \$2.20

MALUS. FLOWERING OR CRAB APPLES. These ornamental apples prefer a sunny well drained situation in rich loam. An annual winter mulch of compost, leaf mould or peat with little lime is recommended. Highly favoured, some for their colourful blooms in spring, others provide generous clusters of ornamental fruits in reds, yellow or russet-greens. (*recommended varieties for jelly making).

6 for \$15.00

- BARBARA ANN.** D. 15ft. Double red flowers up to 2in. diameter followed by $\frac{1}{2}$ in. purplish fruits. Reddish green leaves throughout the growing season. \$2.75
- CORONARIA CHARLOTTAE.** D. 8ft. Large double rose pink fragrant flowers. Foliage colours in cooler districts. \$2.75
- CRIMSON BRILLIANT.** D. 15ft. Brilliant red semi-double flowers. \$2.75
- DOROTHEA.** D. 7ft. Free flowering. Large two-inch double pink \$2.75
- ECHTERMAYER.** D. (WEeping FLOWERING CRAB APPLE). Small rosy crimson single flowers in abundance along the thin pendant branches. \$2.75
- ELEYII.** D. 15ft. Wine red flowers then deep purplish red fruit. Reddish-purple leaves. \$2.75
- FLORIBUNDA.** D. 10ft. Profusion of rose pink and pale pink to white flowers and buds on arching branches. \$2.75
- * **GORGEOUS.** D. 8ft. Single white blossom producing bunches of shining red fruits. Excellent for jellies and preserves. \$2.75
- HALLIANA PARKMANII.** D. 10ft. Semi-double rosy pink fragrant flowers. Dwarf compact habit. \$2.75
- HENRY DU PONT.** D. 20ft. Has both single and semi-double China Rose flowers $1\frac{3}{4}$ in. diameter followed by small red fruit. \$2.75
- * **JACK HUMM.** D. 10ft. Single white flowers then large crimson fruit. Ideal for jellies and preserves. \$2.75
- PROFUSION.** D. 12ft. Pure wine red flowers in dense clusters. \$2.75
- RED JADE.** D. 10ft. Masses of blush white flowers then small brilliantly coloured fruits in autumn. Semi-weeping habit. \$2.75
- SIR HEATON RHODES.** D. 12ft. Bright red flowers, red fruit. Semi-weeping habit. \$2.75
- SOVEREIGN.** D. 10ft. Single white flowers, golden fruit. \$2.75
- STRATHMORE.** D. 10ft. Bright pink flowers. Narrow upright habit. \$2.75
- VAN ESELTINE.** D. 10ft. Double rosy pink flowers, yellow blush red fruits. Upright. \$2.75

MAYTENUS BOARIA (Chilensis). E. 15ft.

Small evergreen shade tree with finely toothed shiny green foliage and graceful slender branches. Any well drained soil. \$2.50

MELALEUCA. Evergreen Australian Bottlebrush prefer warm location, average soils, good drainage and full sun.

INCANA. E. 6ft. Yellow, spring/summer. Weeping branches, soft blue-grey foliage. \$2.00

NESOPHILA. E. 6ft. Mauve-pink globular heads at tops of shoots. Summer. \$2.00

MELIA AZEDARACH. D. 20ft.

Fine, spreading shade tree with dark, glossy, ash-like, green leaves. Tiny fragrant lilac-coloured flowers, early spring. Protect young plants from severe frosts. \$2.50

MICHELIA. Evergreen shrubs closely related to the Magnolias.

DOLTSOPA. E. 15ft. Delightfully perfumed yellowish-white Magnolia-like flowers early spring. Fast, easily grown tree, handsome rich deep green foliage. Comparatively rare. \$6.00

FIGO. E. 10ft. **PORT WINE MAGNOLIA.** Red-purple fragrant. Compact. \$2.50

MICROMYRTUS CILIATA. E. 2ft. **FRINGED HEATH MYRTLE.**

Australian shrub, low spreading habit. Red buds open white and change again to red, tightly packed along branches. Prefers open well-drained, sunny position. \$2.50

MISCANTHUS SINENSIS: E. 3ft. **EULALIA GRASS.** An ornamental clump forming grass with creamy-white plumes. Often mistaken for a dwarf Toetoe. \$1.50**MONSTERA DELICIOSA.** E. 4ft. **FRUIT SALAD PLANT.**

Huge, shining green fan-like leaves, perforated and deeply cut at edges. Creamy-white arum lily-like flowers in some districts are followed by spikes of delicious tropical fruit. Excellent as indoor plant. Will grow outside in sheltered, well-drained frost free areas. \$2.00 ea; Larger specimens \$3.00

MURRYA EXOTICA. E. 6ft. A compact shrub with attractive, fern-like leaves. Fragrant white orange-blossom. Large red berries. \$1.75**MYOPORUM.** Evergreen trees and shrubs, fast growing, drought resistant. Recommended for seaside planting. Taller growing varieties often used as nurse trees, for quick hedges, or breakwinds. (See Hedge and Shelter Section). In the first year protect from frosts over 12 degrees.

LAETUM. E. 15ft. **NEW ZEALAND NGAIO.** Fast growing round headed. \$1.65

SERRATUM. E. 15ft. **TASMANIAN NGAIO.** Narrow, deep green leaves. \$1.65

NANDINA. **SACRED CHINESE BAMBOO.** Favoured for decorative work. Attractive foliage, bronzy red when young, dark green at maturity, coppery-red tones during winter.

DOMESTICA. E. 6ft. Upright sprays of white flowers followed in winter, where there is more than one plant, by clusters of coloured berries. \$2.15

DOMESTICA PYGMAEA. E. 2ft. Small mound of brilliant foliage through winter. \$2.00

NERIUM. OLEANDER. A showy family, grows readily and flowers young in warmer districts. Summer flowering brilliant, wax-like and borne well above clean, glossy foliage. Highly drought resistant, very happy by the sea.

HAWAII. E. 8ft Single glowing salmon pink, with deep yellow throat. \$2.00

ISLE OF CAPRI. E. 8ft. Single light yellow, free flowering. Vigorous growing. \$2.00

MRS. ANDREASON. E. 6ft. Deep pink buds opening to double rich cream blushed peach. \$2.00

MRS. ROEDING. E. 6ft. Large double apricot pink. Compact habit. \$2.00

MRS. SWANSON. E. 6ft. Double light pink. \$2.00

PAULINE GREGORY. E. 8ft. Single bright pink. \$2.00

PROFESSOR MARTIN. E. 8ft. Single bright glowing red. \$2.00

PUNCTATUM. E. 8ft. Single soft pink. Vigorous habit. \$2.00

SOEUR D'AGNES. E. 8ft. Double creamy white. \$2.00

SORRENTO. E. 6ft. Single yellow. Compact habit. \$2.00

SPLENDENS. E. 8ft. Double deep rose pink. \$2.00

SPLENDENS VARIEGATUM. E. 6ft. Double pink. Gold and green foliage. \$2.00

NYSSA SYLVATICA. D. 12ft. TUPELO.

Picturesque tree, slender pendulous branches, lustrous oblong leaves brilliant reds and yellows in autumn. A honey producing tree. Prefers moist rich soil. \$2.50

OCHNA SERRULATA. E. 5ft.

Fine oval pointed leaves, pinkish bronze in spring, then glossy green. Yellow flowers in purple calyx. Calyx changes to red as berries form and turn black. \$2.00

OLEARIA PHLOGOPOPPA BLUE GEM. E. 4ft. TASMANIAN DAISY BUSH.

Michaelmas daisy-like flowers, hyacinth blue, October. Grey-green foliage. Prune after flowering. \$1.75

PACHYSANDRA. Dwarf evergreen shrub suitable for ground cover under trees and moist, shady positions.

TERMINALIS. E. 18ins. Spikes of greenish-white flowers. Aug.-Sept. \$1.75

T. SILVER EDGE. E. 18in. Similar to 'Terminalis' but with attractively variegated green and white leaf. \$1.75

PARROTIA PERSICA. D. 15ft. PERSIAN WITCH HAZEL.

Numerous red-anthered stamens and rich brown bracts give hazy red effect winter/spring. Diamond-shaped scalloped edged leaves colour beautiful gold and crimson in autumn.

\$3.00

PAULOWNIA TOMENTOSA. D. 20ft. ROYAL PAULOWNIA.

Rapid, easy to grow shade tree, will tolerate salt winds. Extra large heart-shaped leaves. Scented foxglove-like spring flowers borne above foliage in showy clusters. \$2.50

PENNISETUM RUPPELLII. E. 3ft. Hardy Abyssinian grass with graceful narrow green foliage. Bronzy-purple feathery flowering plumes. 6 for \$8.00 \$1.50

PENTAPTERYGIIUM SERPENS. E. 2ft.

Semi-prostrate shrub, prefers partial shade, lime free soil. Pendulous bells, deep waxy red with green calyx along arching branches. Summer. Ideal for hanging baskets. \$2.25

PERNETTYA MUCRONATA BELL'S SEEDLING. E. 3ft.

Pinkish white, bell shape flowers in spring, then bright crimson marble-like berries. Will grow under most conditions, provided lime content low. \$2.00

PHEBALIUM. A quick, erect growing shrub suitable for exposed and coastal conditions. Resents potash and excess lime.

ILLUMINATION. E. 10ft. Upright habit similar to Irish Yew. Attractive golden variegated leaves. \$2.25

SQUAMEUM. E. 12ft. Pale green olive-like foliage, small white flowers. (Refer also to Hedge and Shelter Section). Large specimens. \$2.25

PHILADELPHUS. MOCK ORANGE. Very hardy deciduous shrubs valued for white fragrant flowers produced early summer. Thrives in open light shade.

ENCHANTMENT. D. 8ft. Double white set closely together. Erect habit. \$2.00

VIRGINAL. D. 8ft. Semi-double snow white. Erect habit. \$2.00

PHOENIX CANARIENSIS. E. 15ft. CANARY ISLAND DATE PALM.

Long fronds arch out from squat trunk giving a tropical touch. Neatly saw off at the base old or damaged fronds. Drought resistant. \$4.00

PHOTINIA. Greatest asset of these colourful specimen shrubs (refer also Hedge and Shelter) is fiery display of young growth in early spring and autumn. Pruning will produce new flushes of colour throughout the year.

RED ROBIN. E. 8ft. Brilliant deep crimson new growth in early spring. \$2.00

ROBUSTA. E. 10ft. Bright coppery-red new growths. Large leaves. \$2.00

PHYLICA PUBESCENS. E. 3ft. FLANNEL FLOWER.

Flannel-like buff-green flowers give pompom effect throughout winter. Long lasting and valued for cutting. Sunny well-drained position. \$1.85

PIERIS. LILY OF VALLEY BUSH. Hardy evergreen shrubs, in October covered with terminal drooping panicles of fragrant, waxy, lily of the valley-like flowers. Prefer cool, deep, moist, well drained acid soil.

- **BERT CHANDLER.** E. 4ft. Spring leaves open pinky salmon changing to glossy cream and finally white before reverting to rich deep green. \$2.50
- **COMPACTA.** E. 5ft. Dark, shiny green foliage. Young growths bronzy-red. White flowers on dark stems. Compact bushy habit. \$2.50
- **DOROTHY WYKOFF.** E. 5ft. Leaves rich dark green in summer turning reddish green in winter. Deep dark red buds in winter. Flowers pale pink to white. Compact habit. \$3.00
- **FOREST FLAME.** E. 6ft. Short broad deep green leaves in winter. Young growth in spring brilliant red panicles of white flowers. Very hardy. \$3.00
- **PINK DELIGHT.** E. 6ft. The buds and newly opened flowers a good pink. \$3.00
- **SCARLET O'HARA.** E. 6ft. Dark green, shiny pendulous foliage, young growths red. Flowers creamy white, lightly speckled red, with reddish stems. \$3.00
- **TAIWANENSIS.** E. 5ft. An exceptionally good flowering form with clusters of white flower panicles which cover the compact low growing bush. \$3.00
- VARIEGATA.** E. 4ft. Cream and green variegations. Compact. \$2.50
- WAKEHURST.** E. 8ft. Spring leaves brilliant salmon red. Large panicles of flowers. \$2.75
- **WHITE CAPS.** E. 8ft. Exceptionally long flower clusters, pure white. \$3.00
- **WHITE CASCADE.** E. 6ft. Clear white flowers in profusion. Heavy flower set every year. \$3.00

PISTACIA CHINENSIS. D. 15ft.

Attractive tree in autumn its Rhus-like pinnate glossy leaves turning brilliant orange, red and crimson. Grow in ordinary moist soil in full sun. \$2.75

PITTOSPORUM UNDULATUM. E. 10ft.

Often known as "Australian native Daphne," its creamy white, sweetly scented bell flowers scent the spring night. Orange berries in winter. Slightly frost tender. \$2.00

PLATANUS. PLANE TREE. Large deciduous trees popular for avenues, drives and shade. Very hardy. Autumn colouring.

ACERIFOLIA. D. 20ft. **LONDON PLANE.** Triangular-lobed leaves ten inches across. Round-headed tree. \$2.50

CASHMERIANA. D. 20ft. **CYPRUS PLANE.** Notched six-inch leaves. Round habit. \$2.50

C. AUTUMN GLORY. D. 15ft. Form specially selected for the intensity of its autumn colours. \$2.50

PLUMBAGO CAPENSIS. E. 6ft.

Clear, cobalt-blue phlox-like flowers throughout summer. Semi-climbing shrub, rapid growing, useful as quick screen. Resists heat and drought. Dislikes extreme cold. \$1.80

PODALYRIA. Rapid growing winter flowering evergreen shrubs, prune well after flowering. Pea-shaped flowers. Plant in full sun.

CALYPTRATA. E. 8ft. Large mauve-pink late winter. \$2.25

SERICEA. E. 4ft. **SATIN BUSH.** Pink mid winter. Silvery grey leaves. \$1.80

POLYGALA MYRTIIFOLIA GRANDIFLORA. E. 6ft.

Valuable winter flowering South African shrub rich, imperial purple, pea-like flowers over long period. Will stand warm, dry conditions. \$2.00

POLYGONUM VACCINIIFOLIUM. E. 6ins.

6 plants for \$8.00

A creeping plant ideal for walls, banks, borders or for covering rocks and tree stumps. Rose-pink flowers in summer. \$1.50

POPULUS. POPLAR. Hardy, fast growing trees in practically any situation. Picturesque when planted as specimens, valuable for quick tall shelter. (See Hedge and Shelter).

ALBA PYRAMIDALIS. D. 25ft. Upright in habit, similar to well-known Lombardy poplar. Silver-backed leaves. Grafted on non-suckering stock. \$2.75

NIGRA CHILENSIS. E. 30ft. **EVERGREEN POPLAR.** Similar Lombardy \$1.50

NIGRA ITALICA. D. 30ft. **LOMBARDY POPLAR.** Tall upright tree. Golden autumn colours. \$1.50

N. SUNLIGHT. D. 30ft. **GOLDEN LOMBARDY POPLAR.** Yellowish-green foliage throughout spring and summer, gold in autumn. \$2.00

ROBUSTA. D. 25ft. Heart-shaped leaves, rich butter yellow in autumn. Spreading habit. \$1.50

SEROTINA AUREA. D. 25ft. **GOLDEN POPLAR.** Grafted plants, heart-shaped leaves richly coloured golden yellow during spring and summer. Bushy symmetrical habit. \$2.75

YUNNANENSIS. D. 25ft. Large dark green leaves with conspicuous mid-rib. Ideal shade tree. \$1.50

POTENTILLA.

Very hardy dwarf compact shrubs thriving in any soil, sun or partial shade. Flowers are like small single roses from early summer to late autumn. Prune after flowering.

BUTTERCUP. D. 2ft. Large buttercup yellow. \$1.65

ELIZABETH. D. 2ft. Large, rich, canary yellow. \$1.65

MOONLIGHT. D. 2ft. Clear pale yellow; semi-upright. \$1.65

PRIMROSE BEAUTY. D. 2ft. Primrose-yellow. Greyish-green foliage. \$1.65

TANGERINE. D. 2ft. Large tangerine-yellow. \$1.65

PROSTANTHERA. AUSTRALIAN MINT BUSH. Quick-growing, compact, evergreen shrubs, hardy, plant in free loose soil with open aspect. Masses of small bell-shaped flowers produced in spring. Added attraction, aromatic foliage.

CUNEATA. E. 2ft. White spotted purple Nov.-Dec. Low, spreading. \$1.80

INCISA.	E. 3ft. Lilac-coloured sprays; Aug.-Oct. Dense, compact.	\$1.80
NIVEA.	E. 6ft. Showy snow white; spring.	\$1.80
OVALIFOLIA.	E. 6ft. Soft lilac-mauve; spring. Upright.	\$1.80
ROTUNDIFOLIA.	E. 5ft. Deep purple; Sept. to Nov.	\$1.80
ROTUNDIFOLIA ROSEA.	E. 3ft. Clear pink; spring. Compact.	\$1.80

PROTEA. CAPE HONEY FLOWER. Proteas from South Africa like sunny, well-drained positions in not-too-rich soil, and resent lime. Generally hardy, resisting up to 5 degrees of frost. Need little attention beyond light pruning after flowering. Long lasting blooms valued for floral work. With their shallow root system, staking required to avoid wind damage. Plants offered are cutting grown from selected stock.

BARBIGERA ALBA.	E. 5ft. Spectacular pure white flowers highlighted by a black, woolly centre.	\$3.50
CLARKS RED.	E. 6ft. Bright cherry red. Mid-winter to early spring.	\$2.75
COMPACTA.	E. 8ft. Soft silvery pink. Winter/Spring.	\$2.75
CYNAROIDES.	E. 4ft KING PROTEA. Very large silken silvery-pink fringed red spring and early summer.	\$3.50
LACTICOLOR.	E. 6ft. Creamy-white suffused pink; winter-spring.	\$2.75
LAURIFOLIA ETHEL TAYLOR.	E. 6ft. Deep pink with feathery dark brown tips. Very long flowering period. Compact habit. This outstanding variety will stand more frost than many varieties.	\$3.00
L. PINK SATIN.	E. 8ft. Large satin pink flowers, black beard with white, giving a greyish appearance.	\$3.00
L. ROSE MINK.	E. 8ft. Rose-coloured cone-shaped; flowers from autumn throughout the year.	\$2.75
LONGIFLORA	E. 10ft. Pink, prominent stamens autumn/early winter.	\$2.75
MACROCEPHALA.	E. 8ft. Large cone-shaped pale green, tufts of pure white hairs at tips winter/spring.	\$2.75
MACROPHYLLA.	E. 8ft. Pink to biscuit-brown. Bold grey-green foliage.	\$2.75
NERIIFOLIA.	E. 6ft. Satiny rose-pink, cone shaped tipped black, autumn/spring.	\$2.75
SCOLYMOCEPHALA.	E. 3ft. Small, wide open, silvery-green; winter/spring.	\$2.75
SUSANNAE.	E. 6ft. Wide open, deep pink winter/spring.	\$2.75
TOP HAT.	E. 6ft. Greyyish--yellow cone with black tip. Midwinter-spring.	\$3.00

PRUNUS. This comprehensive group includes ornamental Almonds, Apricots, Cherries, Peaches and Plums. Will succeed anywhere sheltered from salt winds. Includes many of our best spring flowering trees and shrubs.

The following, carefully selected over many years, are the outstanding varieties of each group.

FLOWERING ALMONDS.

- GLANDULOSA ROSEO-PLENA.** D. 4ft. Double pink; early spring.
 Reddish-orange autumn foliage. \$2.25
- POLLARDII.** D. 20ft. Fragrant pink blossom; August. \$2.25
- SPRING SONNET.** D. 12ft. Fully double pink flowers in Aug/Sept.
 Neat, compact habit. \$2.25
- TRILOBA FLORE PLENA.** D. 4ft. Fully double soft pink; spring. \$2.25

FLOWERING APRICOTS. MUME.

- CHARLES ABRAHAM.** D. 10ft. Large double deep pink, paler towards centre; August. \$3.00
- PEGGY CLARK.** D. 10ft. Double rose pink; spring. \$3.00
- ROSEA FLORE PLENA.** D. 12ft. Semi-double pink sweetly scented; July/August. \$3.00
- THE GEISHA.** D. 8ft. Perfumed single bright pink late July. \$3.00

FLOWERING PEACHES.

- DOUBLE DELIGHT.** D. 12ft. Double delicate shell pink; large, juicy, yellow, freestone fruit. \$2.25
- HIAWATHA.** D. Distinctive coppery-purple foliage. Single pink flowers, then small edible peaches. \$2.25
- ICEBERG.** D. 12ft. Glistening pure white; spring. \$2.25
- PINK CLOUD.** D. 12ft. Double soft pink; early spring. \$2.25
- ROSE BRILLIANT.** D. 12ft. Double brilliant cerise red; early spring. \$2.25
- SANGUINEA PLENA.** D. 12ft. Double brilliant cerise-red Sept. \$2.25

DWARF FLOWERING AND FRUITING PEACHES.

- BONANZA.** D. 5ft Single pink; prolific crops, yellow-fleshed, freestone fruit. (See also Home Orchard section). \$2.25
- PINK BALLERINA.** D. 6ft. Double soft satin pink, then white-fleshed, freestone fruit. \$2.25
- ROSE CHIFFON.** D. 6ft. Double sparkling rosy-red, then white-fleshed freestone fruit. \$2.25
- SNOW BALLET.** D. 6ft. Double pure glistening white, then white-fleshed freestone fruit. \$2.25

WEeping FLOWERING PEACHES.

- CASCADE.** D. 10ft. Glistening ice white. Branches cascade to ground level. Specimens grafted on 6ft standards. \$7.50
- WEeping FRUITING.**
 Single pink; heavy cropping good quality freestone fruit. \$7.50

FLOWERING CHERRIES.

6 plants for \$16.50.

- AMANOGAWA.** D. 20ft. Large semi-double soft pink fragrant Lombardy poplar growth habit. \$3.00
- CAMPANULATA SUPERBA.** D. 15ft. Pendulous clusters claret bells; early August. \$3.00
- HOKUSAI.** D. 20ft. Pale pink semi-double. Autumn foliage orange-red. \$3.00
- ICHIYO.** D. 20ft. Pale shell pink upright spreading. \$3.00
- INCAME OKAME.** D. 10ft. Outstanding dwarf cherry smothered in bright pink blossom. \$3.00
- KANZAN.** D. 20ft. Large, deep purplish pink. Erect spreading. Autumn foliage reddish-orange. \$3.00

- KO FUGEN.** D. 20ft. Large fully double pink. Erect spreading habit. Autumn foliage tints reddish-orange. \$3.00
- OJOCHIN.** D. 20ft. Large single light pink. Young leaves bronzy-brown. Broad crowned tree. \$3.00
- PINK PERFECTION.** D. 20ft. Double rosy pink; upright spreading. \$3.00
- SHIMIDSU SAKURA.** D. 12ft. Tinted pink buds, opening to large semi-double snowy white. Wide spreading habit. \$3.00
- SHIROTAI.** D. 15ft. Very large snow-white single to semi-double, scented. Golden-yellow autumn colours. Broad spreading habit. \$3.00
- TAIHAKU.** D. 15ft. Very large single, snow white Tall habit. Coppery-red young foliage. \$3.00
- TAKASAGO.** D. 15ft. Large semi-double pale pink; mid-October. Slow, small growing tree. \$3.00
- UKON.** D. 20ft. Large, semi-double, lime green to yellowish-green. Open spreading habit. \$3.00
- YEDOENSIS.** D. 15ft. Single blush white, carmine pink central stamens. Early flowering. \$3.00
- YEDOSAKURA.** D. 15ft. Carmine-red buds open semi-double rich almond-pink. Upright spreading tree. \$3.00

WEeping Flowering Cherries.

- KIKU.** D. (SHIDARE SAKURA). (CHEALS WEEPING CHERRY). Double, bright deep pink; early spring. Coloured autumn foliage. \$7.50
- SUBHIRELLA PENDULA.** D. WEEPING ROSEBUD CHERRY. Delicate single pink; long weeping branches. \$7.50
- YEDOENSIS PERPENDENS.** D. Almond scented blush white, single; pendulous branches weeping to ground. \$7.50

Flowering and Foliage Plums.

- BLIREIANA.** D. 10ft. Double rose pink; August. Bronzy purple foliage. \$2.25
- NIGRA.** D. 15ft. Single pink spring. Deep purple foliage. \$2.25
- WRIGHTII.** D. 15ft. Bright pink, single, spring. Shining purple red foliage. \$2.25

PUNICA GRANATUM NANA PLENO. D. 3ft.

- Brilliant scarlet fully-double flowers in summer. Bronzy green foliage. Dwarf compact shrub ideal in small garden borders or rockeries. Very hardy, easy to grow. Plant in full sun. \$2.00

PUYA ALPESTRIS. E. 6ft.

- Bell-shaped two-inch long flowers produced early summer. Unusual metallic greenish-blue colour with orange anthers. Clustered on stiff erect branched stems three to four feet above leaves. Requires warm position, light, well-drained soil. \$2.25

PYRACANTHA. Extremely hardy, dense growing shrubs which retain their foliage throughout the year. White flowers, in Spring, are followed by brightly coloured berries which are retained over a long period.

- BRILLIANT.** E. 8ft. Masses of brilliant scarlet berries. \$2.20
- ROSEDALE.** E. 6ft. Masses of bright red berries early in the season. \$2.20
- SHAWNEE.** E. 8ft. Shiny clear yellow to orange berries, lasting throughout winter. \$2.20

- **PYRUS KAWAKAMI.** E. EVERGREEN ORNAMENTAL PEAR. May be grown as a tree, a broadly spreading shrub or as an espalier. Handsome, glossy, bright green foliage the year round. Masses of fragrant white flowers in spring. \$5.00

QUERCUS. OAK. Hardy trees suitable as specimens and ideal for avenues or parks. Prefer deep, rich soil, rather moist. Excellent autumn colour, particularly in colder districts.

COCCINEA. D. 20ft. SCARLET OAK. Blaze of scarlet in late autumn. Five-foot specimens \$3.00

PALUSTRIS. D. 25ft. PIN OAK. Autumn colours through all tones of red. 5ft specimens. \$2.75

RAPHIOLEPIS. INDIAN HAWTHORN. Evergreen shrubs suitable for seaside planting. Very drought resistant. Plant in warm, sunny position; well-drained soil.

DELACOURI. E. 4ft. Rosy-pink flowers spring to autumn. \$2.20

UMBELLATUM. E. 6ft. Pure white fragrant flowers summer-autumn. Very hardy. \$2.00

RESTIO TETRAFLORUS. E. 3ft. Dark green rush-like foliage, feathered at ends. Ideal for pebble gardens. Will stand wet conditions. \$1.50

RHODODENDRONS. From small shrubs to specimens of tree-like dimensions Rhododendrons are amongst the most beautiful and easiest grown of our flowering plants. They require rich, well-drained, acid, peaty soil. Shelter from strong winds and blazing sun. The larger the leaves the more shade required, especially in hotter districts. Dappled shade and filtered sunlight from tall, light-foliaged deciduous trees is ideal. Mulch with leaf mould, peat, or any decayed vegetation.

ADELAIDE. E. 8ft. Waxy, bell-shaped, rosy-scarlet. Mid-season. \$3.50

ALICE. E. 6ft. Rose pink; light centre. Conical truss. Mid-season. \$3.00

AVALANCHE. E. 8ft. Large, pure white, rose blotch. Mid-season. \$3.50

BARON DE BRUIN. E. 6ft. Dark red trusses. Compact. Late. \$3.00

BEAUTY OF LITTLEWORTH. E. 12ft. White marked crimson. Upright Mid-season. \$3.00

BEAUTY OF TREMOUGH. E. 8ft. Large trusses, blush-pink flowers. Bright pink margin. Early \$3.00

BETTY WORMALD. E. 8ft. Clear pink faintly marked purple. Mid-season. \$3.00

BLUE DIAMOND. E. 4ft. Rich lavender blue. Dwarf compact. Mid-season. \$3.00

BLUE PETER. E. 6ft. Pale lavender blue, darker markings. Mid-season. \$3.25

BLUE TIT.	E. 2ft. Blue Dwarf compact. Mid-season.	\$2.60
CARMANIA.	E. 6ft. Large bright pink. Mid-season	\$3.00
C. B. VAN NES.	E. 8ft. Dark scarlet. Compact. Late.	\$3.00
CHANTICLEER.	E. 8ft. Glowing crimson-scarlet. Late.	\$3.00
CHOREMIA F.C.C.	E. 6ft. Deep crimson-scarlet. Mid-season.	\$3.00
CHRISTMAS CHEER.	E. 6ft. Blush pink, frilled. Compact. Very early.	\$3.00
CHRYSOMANICUM.	E. 4ft. Primrose yellow. Compact. Mid.	\$3.50
CORNUBIA.	E. 10ft. Waxy blood red. Early.	\$3.00
● CORONATION DAY.	E. 6ft. Enormous fragrant flowers, a delicate, mottled china rose with crimson basal blotch. Large loose trusses. Mid-season.	\$6.00
CORRY KOSTER.	E. 8ft. Large truss, light pink spotted crimson. Frilled edges.	\$3.00
COUNTESS OF HADDINGTON..	E. 6ft. Scented, white suffused pink flowers. Compact, Mid-season.	\$3.00
COUNTESS OF SEFTON.	E. 6ft. Spicily scented, pink and white. Compact. Late.	\$3.00
CREeping JENNY.	E. Prostrate habit. Large, deep red. Mid-season.	\$3.50
● DAINTY.	E. 2ft. Brilliant scarlet. Compact, upright. Mid.	\$3.50
DAMASK	E. 5ft. Bright rose pink. Mid.	\$3.00
DAMOZEL.	E. 6ft. Ruby-red with darker spots. Spreading habit. Mid-season.	\$3.00
DAWN'S DELIGHT.	E. 6ft. Pale soft pink, carmine bud. Late.	\$3.00
● DIDO.	E. 4ft. Salmon-pink flowers with darker veins. Mid-season.	\$3.00
DONCASTER.	E. 5ft. Brilliant crimson-scarlet. Late.	\$3.00
DOROTHY ELLA.	E. 6ft. An outstanding hybrid (LYNDLEYII x NUTTALLII) with large, fragrant, ivory trumpets, golden yellow throat.	\$3.50
ELDORADO.	E. 4ft. Primrose-yellow. Leaves glaucous. Mid-season.	\$3.50
ELEGANS.	E. 10ft. Tyrian-Rose, sepia blotch. Mid-season.	\$3.00
ELIZABETH.	E. 2ft. Rich dark red Dwarf. Mid-season.	\$3.00
ERNEST GILL.	E. 10ft. Bright rosy-carmine. Mid-season.	\$3.00
FABIA X DISCOLOR.	E. 6ft. Flat trusses, salmon-pink. Compact. Mid-season.	\$3.00
FASTUOSUM PLENUM.	E. 6ft. Large semi-double blue-mauve. Compact. Early.	\$3.00
F. C. PUDDLE.	E. 6ft. Waxy bells, apricot-pink Spreading. Late.	\$3.00
FRAGRANTISSIMUM.	E. 8ft. White, pink reverse, Highly perfumed. Late.	\$3.00
FUSILIER.	E. 6ft. Trusses of brilliant scarlet. Mid-season.	\$3.00
GILL'S CRIMSON.	E. 8ft. Blood-crimson shapely trusses. Early.	\$3.00
GLAMOUR.	E. 6ft. Deep cherry red. Late	\$3.00
GLORY OF BAGSHOT.	E. 8ft. Large, pure white, fragrant. Mid.	\$3.00
GOLDSWORTH CRIMSON.	E. 8ft. Brilliant crimson. Free flowering. Early.	\$3.00

- GOLDSWORTH ORANGE.** E. 5ft. Pale orange tinged apricot-pink. Low spreading habit. Late. \$3.50
- GWEN** E. 3ft. Mandarin-red. Dwarf compact. Late. \$3.00
- HALOPEANUM.** (WHITE PEARL). E. 10ft. Pale pink shading white. Mid-season. \$3.00
- ILAM ORANGE.** E. 6ft. Cream overlaid pale orange, reverse flushed pink. Late. \$3.50
- IMPEANUM.** E. 15in. Deep violet-blue. Blue-green leaves. Mid. \$2.60
- IMPEDITUM.** E. 2ft. Light purplish-blue. Dwarf. Mid. \$2.60
- IVANHOE.** E. 6ft. Brilliant red, spotted darker red. Mid-season. \$3.00
- IVERY'S SCARLET.** E. 10ft. Clear blood red. Early. \$3.00
- JEAN.** E. 6ft. Pink trumpets in loose trusses. Late. \$3.00
- J. G. MILLAIS.** E. 8ft. Deep blood red. Mid-season. \$3.00
- JOCK.** E. 3ft. Glowing tartan red. \$3.00
- KAKA.** E. 5ft. Intense crimson-scarlet, frilled. Mid-season. \$3.50
- LADY CHAMBERLAIN.** E. 6ft. Clusters of waxen orange-yellow flowers. Late. \$3.50
- LADY ROSEBERRY.** E. 6ft. Clusters of waxen pink flowers. Late. \$3.00
- LAVENDER GIRL.** E. 8ft. Pale lavender, green centre. Compact. Late. \$3.00
- LOCHAE.** E. 4ft. Australia's only Rhododendron. Rich red. 2 inch bell-flowers in small pendulous clusters. Prefers moist soil in semi-shade. \$3.50
- LODER'S WHITE.** E. 8ft. Mauve-pink turning pure white tinged pink at edges. Compact. Mid-season. \$3.00
- MANDARIN.** E. 6ft. Loose trusses of orange-salmon. Late. \$3.00
- MRS. A. T. DE LA MARE.** E. 8ft. Large white, dark green spots. Mid-season. \$3.00
- MRS. FURNIVAL.** E. 8ft. Pink heavily blotched sienna. Mid. \$3.00
- MRS. G. W. LEAK.** E. 6ft. Deep pink with brownish-purple flare in throat. Mid-season. \$3.00
- MRS. MARY ASHLEY.** E. 5ft. Frilled, salmon-pink, shaded cream. Mid-season. \$3.00
- MRS. R. GILL.** E. 8ft. Large rose-pink; late. \$3.00
- NOSEGAY.** E. 10ft. Clear rose trusses. Mid-season. \$3.00
- NUTTALLII.** E. 6ft. Large fragrant trumpets, ivory-white suffused yellow in throat. Late. \$3.00
- PARISIENNE.** E. 5ft. Clear yellow. Neat compact. Mid/late. \$3.00
- PETER KOSTER.** E. 6ft. Vivid crimson, darker blotch Mid. \$3.00
- PINK PEARL.** E. 8ft. Large rose pink shading blush pink. Mid. \$3.50
- PONTICUM.** E. 8ft. Mauve; very hardy. Late. \$2.60
- **PRESIDENT ROOSEVELT.** E. 6ft. Dark green leaves irregularly variegated, centres overlaid creamy-yellow on pale green. Conical flower heads dark cardinal red with white centre. Late September. \$3.50
- PRINCE CAMILLE DE ROHAN.** E. 8ft. Rose-pink, deep brown blotch. Frilled. Early. \$3.00
- PURPLE SPLENDOR.** E. 6ft. Dark purple with black markings. Late. \$3.25
- ROYAL FLUSH TOWNHILL.** E. 6ft. Large salmon, creamy flush. Mid/late. \$3.00
- **SAFFRON QUEEN.** E. 4ft. Sulphur yellow with darker spots, Mid. \$3.00

SAPPHIRE. E. 2ft. Knap Hill form. Dwarf small leaved shrub, open habit. Pale, lavender-blue flowers. Early. \$3.00

SAPPHO. E. 12ft. White, purplish black spotting. Upright. Late. \$3.00

SARITA LODER. E. 6ft. Bright salmon-pink, loose trusses. Late. \$3.00

SCARLET WONDER. E. 4ft. Loose trusses of ruby-red. Frilly. Forms a compact mound. Mid-season. \$3.50

SIR ROBERT PEEL. E. 15ft. Rosy-Carmine; vigorous tally. Early. \$3.00

SONATA. E. 8ft. Orange flowers shot with mauve. Early. \$3.00

SUAVE. E. 6ft. Nutmeg scented, white flushed pink. Compact. Late. \$3.00

TALLY HO. E. 6ft. Brilliant orange scarlet; late. \$3.00

UNIQUE. E. 6ft. Soft creamy-white, tinted pink. Late. \$3.00

UNKNOWN WARRIOR. E. 6ft. Light rosy-red to pink; compact. Early. \$3.00

VAN NES SENSATION. E. 12ft. Pale lavender with dark throat. Late. \$3.00

VIRGATUM. E. 3ft. Delicate mauvy-pink dwarf compact. Early. \$2.60

WINSOME. E. 3ft. Large rosy-pink; dwarf compact habit. Mid. \$3.00

YELLOW HAMMER. E. 3ft. Tubular bell-shaped yellow flowers. Early. \$3.00

ZEYLANICUM. E. 8ft. Compact heads, brilliant scarlet handsome dark green leaves. Mid-season. \$4.50

RIBES SANGUINEUM. D. 6ft. RED FLOWERING CURRANT.

During early spring, the small, rosy-red flowers hang in drooping clusters over the whole bush. The foliage is similar to that of the fruiting currant. Prune after flowering ceases. \$2.00

● **ROBINIA FRISIA.** D. 15ft. An outstanding small to medium trees with rich golden-yellow leaves which provide a splash of colour from spring to Autumn. Will thrive in any well-drained soil. \$10.00

ROSMARINUS. (ROSEMARY). Hardy, evergreen shrubs; will grow in most gardens including hot, dry places. Leaves and flowers are fragrant. Spring/summer flowering. 6 plants for \$10.00; 12 plants for \$18.00

COLLINGWOOD INGRAM. (BLUE LAGOON). E. 2ft. Deep lilac-blue. Prostrate habit. \$1.75

LAVANDULACEUS. E. 1ft. Lavender-violet prostrate habit. \$1.75

LOCKWOOD DE FOREST. E. 1ft. Light blue. Very prostrate. \$1.75

OFFICINALIS TUSCAN BLUE. E. 4ft. Clear blue; grey-green foliage. Upright habit. (See also Hedge and Shelter section). \$1.75

RUSCUS ACULEATUS. E. 2ft. BUTCHER'S BROOM.

Small white flowers in spring, then large, bright red berries. Dark green, sharp-pointed leaves. Most useful as will thrive in dense shade \$2.00

RUSSELIA JUNCEA. E. 2ft.

Shrubby Mexican plant, smooth rush-like branches, one-inch scarlet tubular flowers hanging in loose racemes throughout year.
Prefer deep rich soil. \$2.00

SALIX. (WILLOW). Hardy, deciduous trees, will grow in ordinary garden soil and flourish in damp situations. Beautiful for waterside plantings.

ALBA AUREA. D. 12ft. A yellow stemmed form of the "White Willow". Slender catkins in spring. Suitable for coastal planting. \$1.75

BABYLONICA ANNULARIS. D. 10ft. A curious variety. The leaves twist into rings or spirally curl, often enclosing branchlets. \$1.75

HUMBOLDIANA FASTIGIATA. D. 15ft. Tall, narrow growth similar in shape to the Lombardy Poplar. Long, narrow pale green leaves. Prefers a warm situation. \$2.00

MATSUDANA TORTUOSA. D. 15ft. CORKSCREW WILLOW. Curiously twisted branches and twigs. Valued for decorative work. \$1.75

● **MOOREI.** D. 1ft. Dwarf shrub forming a low wide-spreading mound. Catkins in spring. Excellent ground cover. \$1.75

PURPUREA NANA. D. 5ft. Attractive slim purplish stems, grey-green buds and leaves. \$1.75

SALMONII. D. 20ft. WEEPING WILLOW. Selected form, handsome foliage, an excellent garden variety. \$1.75

SEKKO. D. 8ft. A male clone with decorative catkins. Occasional curiously flattened and recurved stems useful for "Japanese" floral arrangements. \$1.75

VITELLINA PENDULA. D. 15ft. GOLDEN WEEPING WILLOW. Main branches and twigs rich golden yellow with pale green leaves. \$2.50

SAMBUCUS AUREA. D. 12ft. GOLDEN ELDER. A bright, butter yellow foliaged shrub useful for contrast in the garden. The depth of colour improves as the season advances, providing a brilliant summer display. \$2.00

SAPONARIA OCYMOIDES SPLENDENS

E. Prostrate growing trailing plant useful for the border, banks, or walls. Deep rose pink flowers. Spring/summer. 6 for \$7.50 \$1.50

SARCOCOCCA RUSCIFOLIA. E. 3ft.

A neat, Chinese shrub; shiny, waxy leaves, small insignificant milky-white flowers, then almost transparent dark red berries. Thrives in shady situations. \$2.00

SCHEFFLERA ACTINOPHYLLA. E. 10ft. QUEENSLAND UMBRELLA TREE.

Handsome bright green foliage carried right to ground. In warmer districts has red flower spikes if grown in full sun. Very suitable for pot or tub culture. \$2.50

SCHINUS MOLLE. E. 20ft. PEPPER TREE.

Beautiful, rapid growing, easily cultivated drought resistant shade tree, fine, graceful foliage. Small, yellowish-white flowers then rosy red berries. \$2.00

SENECIO. Hardy shrubs which thrive in hot dry conditions, very suitable for seaside planting. Daisy-like flowers in summer.

CINERARIA. E. 2ft. Pale yellow flowers, Spreading. Summer. \$1.75

CRASSIFLORUS. E. 1ft. Prostrate spreading habit. Bright golden yellow flowers. \$1.75

SILENE VENOSA. E. 1ft.

Low spreading plant with white flowers in summer. An ideal ground cover for seaside conditions. \$1.50

SORBUS AUCUPARIA. D. 15ft. ROWAN TREE OR MOUNTAIN ASH.

Pinnate, fern-like foliage. Russet-red autumn colour in the colder districts. Perfumed small white flowers then clusters of bright orange-scarlet berries in late summer. \$3.00

SPARTIUM JUNCEUM. E. 8ft. SPANISH BROOM.

Slender, bright green, almost leafless branches carry large pea-like, bright yellow sweetly scented flowers from early spring until summer. Thrives in hot dry conditions. \$1.80

SPIRAEA JAPONICA ANTHONY WATERER. D. 3ft. PINK BRIDAL WREATH.

Flat heads of brilliant carmine flowers carried continuously throughout summer. Easily grown in most soils in full sun or partial shade. \$1.75

STACHYURUS PRAECOX. D. 8ft.

A beautiful Japanese shrub. In late winter—early spring the waxy, lemon-yellow flowers droop from deep wine-red branches. Sunny position, good average soil. Useful for picking. \$2.50

STENOCARPUS SINUATUS. E. 15ft. QUEENSLAND FIRE-WHEEL TREE.

Masses of brilliant, orange, wheel-shaped flowers July-August. Requires a hot, dry summer to bloom. Bright shining green, oak-like leaves up to a foot long. Excellent tub plant. \$2.50

STEWARTIA. Desirable hardy shrubs, easy to grow in normal garden conditions but being acid-loving do not like lime. Autumn foliage colours of golds and reds.

PSEUDO-CAMELLIA. D. 12ft. Single, creamy-white camellia-like flowers; with orange-yellow stamens in summer. \$2.50

SINENSIS. D. 12ft. Large, fragrant, single white, frilled, flowers. Summer. \$2.50

STRANVAESIA DAVIDIANA. E. 8ft.

A large Chinese shrub. Dark green leaves turn orange-yellow and scarlet-red in winter. White Hawthorn-like flowers then large clusters of brilliant red autumn berries. \$2.00

PAN AM
Clipper Cargo

carries all of

TELOPEA. WARATAH. Recommended for districts where frosts do not exceed ten degrees. Plant firmly in well-drained soil. Prefer rather poor, stony ground. Avoid lime and artificial manures. Pinch out centre when about three feet high. Spring flowering. Cut back each year after flowering. Spray with white oil to keep leaves free of scale.

OREADES. E. 10ft. VICTORIAN WARATAH. Brilliant crimson red. \$2.25

SPECIOSISSIMA. E. 8ft. NEW SOUTH WALES WARATAH. Fiery scarlet. \$2.50

TEMPLETONIA RETUSA. E. 4ft. A handsome shrub from western Australia. Brick-red flowers in winter. Prefers a warm well-drained situation. \$2.00

TEUCRIUM. Shrubs and perennials suitable for seaside locations. Prefer a sunny position and well-drained soil.

CHAMAEDORYS. E. 1ft. Perennial. Good ground cover with rosy-purple flowers in summer. \$1.75

FRUTICANS. E. 4ft. Grey leaves, pale lavender flowers. Very hardy for coastal conditions. (also see Hedge section) \$1.75

TETRAPANAX PAPYRIFERA. E. 6ft. RICE PAPER PLANT. Attractive and uncommon plant. Umbrella-like form. Huge fan-like leaves, on long stalks, very downy underneath. Large sprays of woolly-white ball shaped flowers in summer. Will grow almost anywhere. \$2.00

THRYPTOMENE. Spring flowering evergreen shrubs. Heath-like foliage, useful for floral work. Plant in open, well-drained soil not too rich. Trim lightly after flowering.

CALYCINA ALBA. E. 4ft. Small star-like white flowers. \$3.00

CALYCINA PINK. E. 4ft. Delicate pink, star-like flowers. \$3.00

SAXICOLA ROSEA. E. 4ft. Small, dainty, pale rose flowers. \$2.20

TIBOUCHINA. (LASIANDRA). Evergreen South American shrubs. Soft, velvety, bronzy-green foliage. Prefer sheltered well-drained, sunny position. Prune after flowering.

EDWARDSII. E. 8ft. Rich violet flowers; winter. \$2.00

ORGANENSIS. (GRANDIFLORA). E. 8ft. Royal purple flowers for eight months. \$2.25

ULMUS. ELM. Deciduous trees, can be heavily pruned to any size; often used as street trees. Will stand up to wind well.

ALBA PICTA. D. 20ft. VARIEGATED ELM. Creamy-yellow variegated foliage. Ideal specimen tree. \$3.50

PROCERA VAN HOUTTEI. D. 18ft GOLDEN ELM. Large rich, golden-yellow leaves; spring to autumn. \$3.25

TERMS OF BUSINESS

MINIMUM ORDER: Due to the ever-increasing costs of materials and freight, we have found it necessary to make a surcharge of 50 cents on all orders under \$3.00 in value.

LARGE ORDER DISCOUNT: Orders from this catalogue exceeding \$20.00 in value entitle you to a 5% quantity discount

PAYMENT: Payment may be charged to your account but it is strictly nett and due for payment not later than the 20th of the month following date of despatch.

FREIGHT AND PACKING: Free by normal means to the nearest railway station.

Roses are tolerant to a wide range of conditions, but their preference is for deep firm loam enriched with compost or humus. Once established, they respond to occasional dressings of a fertiliser consisting of 2 parts superphosphate and 1 part of sulphate of potash.

The following list includes the best of the new and the old, all of which we can recommend with every confidence.

BUSH HYBRID TEA ROSES

- * **ANNE WATKINS** (M). Delicate pale salmon, flushed pink. Shapely buds opening to well formed flowers. \$1.50
- * **APOLLO** (M). 1972 Armstrong introduction. AARS winner for 1971-72. A bright yellow rose on long stout stems. A vigorous well-formed plant. Certificate of Merit, New Zealand, 1973. \$1.60
- APRICOT SILK** (T). Huge pointed apricot blooms on long stems. Long lasting in water. Dark glossy foliage. \$1.50
- AQUARIUS** (T). AARS winner for 1971. Perfectly shaped blooms of beautifully blended shades of pink. Vigorous and upright. \$1.50
- † * **ARIANNA** (MEIdali 0535F) (M). Warm coral, splashed rose-carmine. Large blooms of an unusual and attractive colour. \$1.40
- † **ARTURO TOSCANINI** (MEllucra 0692F) (S). 1972 introduction. Large flowers of rich Turkey red. Weather resistant and free flowering. A richly coloured rose for cutting. \$1.60
- † **ATOLL** (MElbystar 734F) (M). 1973 introduction. Large blooms, satin vermillion on the inside of the petals and porcelain rose on the outside. The dazzling blooms are set off against the glossy dark green foliage. Very free flowering and extremely healthy. \$1.80
- † * **BARONNE DE ROTHSCHILD** (MElgriso 0565F). (M). A striking rose of iridescent ruby colouring with a silvery reverse. Vigorous. \$1.40
- BEAUTE** (M). Long pointed buds of delicate warm orange. \$1.40
- * **BEWITCHED** (T). Clear phlox pink, long stems. Floriferous. \$1.40
- * **BLUE MOON** (M). Shapely blooms of soft lavender blue. The best in this colour range. Reliable and easy to grow. \$1.40
- * **BONSOIR** (M). Deep shell pink flowers of excellent form. Vigorous and bushy with large disease free foliage. \$1.50
- † * **CARINA** (MElchim 00257F) (T). Perfect soft satin rose pink blooms. \$1.40
- * **CENTURY TWO** (M). 1972 Armstrong introduction. Large beautifully shaped blooms of deep pink with warmer tones towards the centre. Vigorous and free branching. Very free flowering. \$1.60
- CHICAGO PEACE** (Johnago 00242F U.S.) (T). Rich shimmering pink overlaid with canary yellow and a copper base, plus all the Peace virtues. \$1.40
- * **COLOGNE CARNAVAL** (M). Silver blue with darker veinings. \$1.40
- * **DAYDREAM** (T). Long urn-shaped buds opening to deep pink with a dash of gold. Perfect for cutting. \$1.50
- * **DIORAMA** (M). Apricot yellow flushed with pink and red. Exceptionally weather resistant. Bushy. \$1.50
- * **DUKE OF WINDSOR** (S). An exciting new rose. Dazzling orange-vermillion. Beautifully shaped flowers on a compact bush. \$1.60
- * **EIFFEL TOWER** (T). Extremely long buds of warm pastel pink. \$1.40
- * **EL CID** (M). A glowing orange-scarlet. The flower form is delightful at all stages. A spreading bush, profuse flowering. \$1.50
- * **EROTICA** (M). Dark velvet crimson, a vigorous bushy plant. \$1.40
- † * **FERIA** (MElfrison 0596F) (S). Chinese coral, flushed with sunset-rose, Indian yellow reverse. Robust and disease resistant. \$1.40
- FIRST LOVE** (T). Delicate pink buds, perfect for cutting. \$1.40
- FIRST PRIZE** (S). Large exhibition blooms of two-toned pink, satin and carmine. Unbeatable for size and shape. \$1.50
- * **FRAGRANT CLOUD** (M). Deep vermillion red. Large perfectly formed blooms with magnificent bushy growth. \$1.40
- GRANDPA DICKSON** (M). Deep lemon yellow perfectly formed exhibition blooms. Prolific in growth and flowering. \$1.50

WEeping STANDARD ROSES

On their 5ft to 6ft stems, these make outstanding specimens either in a lawn, or in the centre of a bed. Weeping standards should be summer pruned; that is, immediately after flowering. Any old, or over mature trailing stems can also be removed. This encourages long growths during summer which flower the following spring. We believe the following are the best of their colour.

- * **CRIMSON SHOWER.** Semi-double rosettes of brilliant crimson. \$5.50
- * **LADY GAY.** Double rich rose-pink. \$5.50
- * **PRIMA VERA.** Bright yellow, vigorous. \$5.50
- * **SANDERS WHITE.** Fully double, pure white. \$5.50

ORNAMENTAL TREES AND SHRUBS

VIBURNUM. Hardy deciduous and evergreen shrubs with attractive leaves and autumn colour. Some are grown for their berries, some for their fragrant flowers. They prefer deep rich peaty soil with abundance of moisture. Where varieties are grown for berries, two or more plants are necessary.

BITCHIUENSE. D. 6ft. Scented blush white. Winter. Black berries autumn. \$2.40

BURKWOODII. E. 8ft. Wavy-white flushed pink; early spring. Gardenia scented. \$2.40

CARLCEPHALUM. D. 6ft. Fragrant white spring. Robust. \$2.40

CARLESII. D. 5ft. Fragrant coral-pink buds opening pearly-white. Dwarf bushy. \$2.40

JAPONICUM. E. 8ft. Creamy-white fragrant, spring, then red berries. \$2.00

JUDDII. D. 4ft. Sweetly scented waxy pink flowers; spring. Dwarf. \$2.40

OPULUS STERILE. D. 8ft. SNOWBALL TREE. Large creamy-white rounded flowerheads; October-November. \$2.00

PLICATUM. D. 8ft. Large flat heads of white flowers November-December then red berries. \$2.00

PLICATUM STERILE. D. 6ft. JAPANESE SNOWBALL. Ball-like, large ivory-white flowerheads; spring. \$2.00

TRILOBUM (AMERICANUM). D. 10ft. Creamy-white flowers; spring, then large clusters bright red berries. \$2.00

VIRGILIA. Fast growing evergreen tree, resistant to wind and salt spray. Thrives in dry conditions, sandy or poor soil.

CAPENSIS. E. 20ft. Scented, pendant, sprays rosy-mauve flowers summer. \$1.85

DIVARICATA. E. 15ft. Scented bright pink pea-shaped flowers, spring. \$1.85

WEIGELA. (DIERVILLA). "Flowering Apple Blossoms." Free flowering deciduous shrubs adaptable to most conditions including droughts. Flowers are similar to foxglove hanging in clusters in topmost leaf axils and down stems; spring.

EVA RATHKE. D. 6ft. Deep bright crimson flowers. Slow compact growth. \$2.00

FLORIDA VARIEGATA. D. 6ft. Pink flowers. Light green leaves with broad yellow margin. \$2.00

NEWPORT RED. D. 8ft. Bright crimson flowers. Vigorous upright growth. \$2.00

XERONEMA CALLISTEMON. E. 2ft.

Extremely rare small growing flax-like plant found on Poor Knights Islands. Striking crimson flowers resemble the Bottlebrush, standing well up from foliage. Plant in sunny, well-drained, frost free position in light, open soil. \$2.50

D & D's PLANTS ARE GUARANTEED

YUCCA. ADAM'S NEEDLE. These evergreens, extremely useful for giving tropical effect, should be planted in full sun in well-drained soil. Ideal for rockeries, borders and pebble gardens.

ALOIFOLIA. E. 5ft. Forms a trunk. White panicles. Summer \$2.00

FILAMENTOSA. E. 3ft. Creamy-white flowers in erect panicles 3 to 6 feet in height Summer. \$2.00

FILAMENTOSA VARIEGATA. E. 18ins. Clumped tufts of green, leaves striped attractive creamy yellow, at times edged pink, with white threadlike long curly hairs. Bell-shaped creamy-white flowers on spikes; summer. \$2.50

GLAUCA. E. 2ft. Narrow spear-like leaves from short trunk. Spikes of creamy flowers; summer. \$2.00

PARVIFLORA. E. 3ft. **RED YUCCA.** Aloe-like tomato-red flowers, golden within, in slender panicles up to 3ft long. Summer. \$2.00

WHIPPLEI. E. 3ft. Stiff, bluish, strap like leaves. Creamy-white, bell-like flowers summer. \$2.00

OUR GUARANTEE: We do our best to ensure that at the time our plants leave our nursery they are true to name and healthy and provided they have not been damaged in transit and are planted promptly and are properly cared for and are not exposed to abnormal conditions, we guarantee to replace any plant which, within four months from the day of despatch from our nursery, is found to be not true to name or which does not live and grow. If no notification of any claim is received by us by the expiry of the period of four months then this guarantee ceases to be effective. Any other express or implied conditions, statements or warranties, statutory or otherwise, are in any event hereby excluded. If the purchaser does not wish to accept goods under the above conditions they are to be returned to us at once.

GIFTS FOR EVERY OCCASION WITH OUR

GARDEN GIFT COUPONS

Each page of this Catalogue is a shopping window from which you can choose gifts for

**Birthday — Anniversaries — Christmas —
or to express Appreciation**

Coupons can be purchased for any value from \$2 by cheque or postal note sent to our postal address.

The GIFT COUPON you receive entitles the holder to plants of their choice from our extensive range.

If you prefer not have the cash amount showing, select the plants you wish to send and these will be listed on the GIFT VOUCHER.

Coupons may be redeemed at any time during the planting season.

DUNCAN AND DAVIES, LTD.

BOX 340, NEW PLYMOUTH

Conifers

CONIFERS. Conifers, popular in modern landscaping, are unmatched in their massive dignity, effective strength and range of restrained colour; golden, golden-greens, frosty and metallic blues, blue-greens, deep and darkening yellow-greens, subtle blends and sharp contrasts. Unique in shape and form, dwarf and prostrate, for rockeries, beside steps, on banks, at foot of shrubberies; low and medium, for the body of the garden; tall and imposing, for background and striking specimen trees. A grand range of formal and informal, conical or pyramidal, columnar or squat, compact or spreading. Easily cultivated, simple in their requirements, robust enough to stand most New Zealand conditions, but they do dislike waterlogged soil. Response to enriching soil with peat, leaf mould or well-rotted sawdust is excellent.

ABIES. Thrive in open positions with good soil. Very hardy. Spring growth is bright green in sharp contrast to the dark foliage. Slow growing.

HUMILE. E. 2ft. Young foliage light green. Small round bush. \$3.00

PINSAPO. E. 12ft. SPANISH FIR. Slow growing upright symmetrical tree. \$3.00

AGATHIS AUSTRALIS. E. 20ft. KAURI.

Grows rapidly when young, attaining 15ft to 20 feet in same number of years. Excellent for specimens or group plantings. Prefers dry areas, shade when young. \$2.25

ARAUCARIA. Evergreen trees, majestic in appearance. Avenue, park or street planting.

ARAUCANA. E. 15ft. MONKEY PUZZLE. Rigid, dark glossy, spine-tipped leaves arranged spirally on branches. Prefers cool, free root run. \$2.75

EXCELSA. E. 25ft. NORFOLK ISLAND PINE. Branches symmetrically tiered forming perfectly upright central trunk. Ideal on the coast and in warm inland districts. \$2.00

Advanced specimens \$7.50 - \$15.00

CEDRUS. CEDAR. A stately and decorative conifer, ideal for specimen planting. Tolerates a wide range of soils; quite hardy. In windy positions stake until established.

ATLANTICA. E. 25ft. ATLAS CEDAR. Attractive green foliage, Spreading horizontal branches. Upright habit. \$3.00

● **ATLANTICA AUREA.** E. 10ft. GOLDEN ATLAS CEDAR. A very slow growing small to medium sized tree with distinctive golden-yellow leaves. \$10.00

ATLANTICA GLAUCA. E. 20ft. BLUE ATLAS CEDAR. Powdery silvery-blue foliage giving frosted appearance throughout year.
\$7.50 Larger Specimens \$10.00

DEODARA. E. 25ft. HIMALAYAN CEDAR. Greyish-green pine-like foliage. Horizontal branches weep at tips. \$2.00

DEODARA AUREA. E. 20ft. GOLDEN HIMALAYAN CEDAR. A bright golden form. \$7.50 Larger Specimens \$10.00

CHAMAECYPARIS. A beautiful group of shrubs and trees, varied in contours, shapes and sizes. Adaptable to large or small gardens. Foliage colour range, silver, grey, blue, green gold, bronze and variegated. Easily cultivated in most New Zealand conditions, but avoid waterlogged soil. Plant golden varieties in full sun to retain colour.

LAWSONIANA. E. 20ft. Rich green compact foliage right to ground. (Refer also to Hedge and Shelter Section). \$1.50

L. CHINGII. E. 10ft. Pale golden-yellow; compact, pyramidal. \$3.00

L. COLUMNARIS GLAUCA. E. 10ft. Rich steel-blue columnar. \$3.00

L. DUNCANII. E. 5ft. Dense glaucous green; compact rounded. \$2.75

L. ELLWOODII FLECKLEWOOD. E. 4ft. Creamy-white tips to the feathery foliage. Compact pyramidal habit. \$2.75

L. ELLWOOD'S PYGMY. E. 2ft. Graceful frosted greyish-blue foliage. Compact habit. \$3.00

L. GREEN GLOBE. E. 2ft. Rich deep-green. Dense, compact, globular. \$2.75

L. LANE. E. 8ft. Feathery golden-yellow; slender, columnar. \$3.00

L. MINIMA. E. 3ft. Rich deep green compact, ball-shaped. \$2.50

L. MINIMA AUREA. E. 2ft. Rich gold, compact, ball-shaped. \$3.00

L. MOERHEIMII. E. 15ft. Golden; upright; pendulous \$3.00

L. PYGMAEA ARGENTEA. E. 18ins. Bluish-green foliage with silvery-white tips. \$3.00

L. SILVER QUEEN. E. 10ft. Unique silver-grey; upright, pendulous. habit. \$3.00

L. SOUTHERN GOLD. E. 10ft. Graceful creamy-gold; open, pendulous. \$3.00

L. STEWARTII. E. 12ft. Bright gold; upright, erect. \$3.00

L. THARANDTENSIS CAESIA. E. 3ft. Blue-grey, curiously twisted; small, compact. \$3.00

L. WALLIS GOLD. E. 8ft. Rich golden-yellow in summer. Dense upright. \$3.00

OBTUSA CORALLIFORMIS. E. 5ft. Attractive green contorted branchlets, whipcord-like leaves russet-brown in winter. Trains into interesting shapes. \$3.00

O. CRIPPSII. E. 10ft. Deep golden-yellow. Graceful, informal semi-weeping. \$3.00

4ft to 5ft specimens \$6.00

- O. FERNSPRAY GOLD.** E. 6ft. Bright gold, fern-like. Informal, arching. \$3.50
3ft. specimens \$5.00
- O. NANA.** E. 4ft. Bright, lettuce-green in summer; darker in winter. Compact. \$3.50
- O. NANA AUREA.** E. 3ft. Young growth tipped gold in summer, rich bronzy gold in winter. Compact, slow growing, symmetrical. \$3.50
- O. PYGMAEA.** E. 3ft. Brownish-green. Low flat, tiered fan-shaped branches. \$3.00
- O. TETRAGONA AUREA.** E. 6ft. Golden, moss-like tufted branchlets in summer, bronzy-gold in winter. Distinctly oriental appearance. \$3.50
Advanced specimens \$5.00
- PISIFERA BOULEVARD.** E. 4ft. Deep glaucous blue, feathery. Upright, compact, graceful. \$3.00
- P. COMPACTA VARIEGATA.** E. 2ft. Sea-green light yellow flecks. Compact, low-growing habit. \$3.00
- P. FILIFERA.** E. 3ft. Light green, thread-like; graceful weeping. \$2.75
- P. FILIFERA AUREA.** E. 3ft. Golden, thread-like; graceful, weeping. \$3.00
Larger specimens \$4.00
- P. GOLD SPANGLE.** E. 3ft. Juvenile foliage golden and thread-like, later changing to fern-like, old gold. Compact, weeping. \$3.00
Large specimen \$4.00
- **P. NANA.** E. 18in. Dwarf slow-growing bush forming a flat-topped dome with sprays of dark green foliage. Older specimens form a top tier, resembling a cottage loaf. \$3.50
- **P. PLUMOSA COMPRESSA.** E. 18in. Dwarf bush resembling a rounded bun. Slow growing. The unusual white tipped foliage in spring and summer make this a welcome addition to the colour range. \$3.50
- P. PLUMOSA ROGERSII.** E. 2ft. Golden yellow turning bronze in winter. Miniature cone shaped habit. \$3.00
- P. SQUARROSA.** E. 8ft. Silvery-blue, bronze winter shades. Pyramidal. \$2.50
- P. SQUARROSA SULPHUREA.** E. 8ft. Smoky-sulphur yellow; pyramidal. \$2.50

CRYPTOMERIA. JAPANESE CEDAR. Hardy evergreen conifers preferring deep rich soil, but will grow in most conditions. *Cryptomeria japonica* itself is a timber or shelter tree. Smaller growing varieties are highly ornamental, useful in rockeries, borders and pebble gardens.

- JAPONICA.** E. 25ft. Spreading branches, small dark green leaves. Tall pyramidal habit. (Also refer Hedge and Shelter Section) \$1.75
- J. ELEGANS.** E. 20ft. Dense green plume-like summer foliage, bronzy-red in winter. \$2.50
- J. ELEGANS AUREA.** E. 10ft. Dense yellowish-green, plume-like. \$2.50
- J. GLOBOSA NANA.** E. 3ft. Cord-like pale yellowish-green in summer, deepening in winter. Dwarf, compact. \$3.50
- J. JINDAI-SUGI.** E. 6ft. Deep green, irregular branching. Compact. \$3.00

- J. SPIRALIS.** E. 8ft. Curiously curled and twisted light green foliage.
\$3.00 Large specimens \$6.00
- J. VILMORINIANA.** E. 2ft. Neat, dense, recurved foliage. Compact, globular habit. \$3.00

CUPRESSOCYPARIS. Interesting Bi-generic Hybrid, Cupressus x Chamaecyparis which is extremely fast-growing. Excellent for tall shelter and tolerant of a wide range of conditions including coastal areas.

LEYLANDII. E. 20ft. Cutting grown plants, from a selected clone, forming a columnar tree with attractive green foliage and a graceful habit. \$2.20

L. LEIGHTON GREEN. E. 20ft. Columnar habit. Green foliage arranged in flattened fern-like sprays. \$2.50

CUPRESSUS. CYPRESS. Hardy evergreen conifers distinguished from Chamaecyparis by rounded, instead of flattened branchlets, and larger cones. Usually container grown to assist transplanting.

ARIZONICA BLUE PYRAMID. E. 20ft. Blue-grey foliage. Upright habit. Horizontal branches. Drought resistant. Will stand up to windy conditions. \$5.00

A. GOLDEN PYRAMID. E. 20ft. Gold tinted foliage. Horizontal branches. Upright habit. Drought resistant. \$5.00

CASHMERIANA. E. 12ft. One of the most graceful of all conifers. Conical habit. The ascending branches have long pendulous branchlets and the foliage is a beautiful blue-grey. Should be planted in a sheltered position. \$5.00

MACROCARPA GOLDEN PILLAR. E. 8ft. Dense yellow. Compact, conical, pillar-like. \$5.00

M. HORIZONTALIS AUREA. E. 20ft. Buttery golden-yellow; horizontal branches. Upright. \$5.00

SEMPERVIRENS GRACILIS. E. 10ft. FINE-LEAVED ITALIAN CYPRESS. Tall slender, narrow. \$3.25

S. SWANES GOLDEN. E. 8ft. FINE-LEAVED GOLDEN ITALIAN CYPRESS. Tall slender, golden-yellow spires invaluable for architectural and landscape effects of all kinds porches, entrances, avenues and tub plants. \$6.50

DACRYDIUM. Beautiful specimen trees with graceful, slender, pendulous habit. Requires adequate rainfall and shelter from persistent winds. (Also see New Zealand Trees, Shrubs and Plants Section).

BIDWILLII. E. 3ft. Hardy, slow growing, dwarf shrub. Juvenile foliage brownish-green. Requires moisture \$2.50

BIFORME. E. 4ft. Rich green; rare, slow growing dwarf alpine. \$2.50

CUPRESSINUM. E. 15ft. RIMU. Bronzy-green, reddish-brown in winter if exposed deep green in shade. Pyramidal habit, pendulous branches. \$3.00 each. Advanced specimens \$5.00

INTERMEDIA. E. 8ft. MOUNTAIN PINE. A slow growing small tree with spreading branches and brownish-grey bark. Prefers a moist situation. \$2.50

GINKGO. MAIDENHAIR TREE. Leaves of these hardy, deciduous trees resemble huge maidenhair ferns. Will withstand difficult city growing conditions, ideal as avenue and street trees. Foliage brilliant golden-yellow early autumn. Under ideal conditions female form bears round yellowish plum-like fruits.

- BILOBA.** D. 15ft. Seedling-grown plants. \$3.00
- AUTUMN GOLD.** D. 12ft. A grafted male form. Symmetrical upright. \$4.00
- FAIRMOUNT.** D. 12ft. A grafted male form with strong central leader and conical habit. \$4.00
- FASTIGIATA.** D. 12ft. A grafted male form with slender upright habit, stiff erect branches. \$4.00

JUNIPERUS. A wonderful family of hardy, evergreen shrubs varying from prostrate to columnar. Foliage colouring varies through greens, blues, greys, bronze, golds and creams to the variegated. Require little or no pruning, remarkably disease resistant, grow well in most districts, thriving in good soil with trace of lime.

- CHINENSIS PYRAMIDALIS** E. 10ft. (AFRICANA) Bluish-green with silvery sheen. Compact pyramidal. \$2.75
- COMMUNIS COMPRESSA.** E. 3ft. NOAH'S ARK JUNIPER. Blue-green. Compact, erect. \$3.00
- COM. DEPRESSA AUREA.** E. 2ft. Golden-yellow, changing bronzy-gold in winter. Slender branchlets hug ground. \$3.00
- COM. DEPRESSED STAR.** E. 2ft. Light bamboo-green. Low spreading vase-shape. \$3.00
- COM. REPANDA.** E. 2ft. Dark green. Excellent ground cover. \$2.75
- CONFERTA.** E. 1ft. SAND JUNIPER. Light green. Recommended for ground cover. \$2.75
- HORIZONTALIS DOUGLASII** E. 1ft. Glaucous blue. Spreading horizontal branches with ascending laterals. \$2.75
- H. PLUMOSA.** E. 1ft. Drab green turning plum red in winter. Procumbent, compact. \$3.00
- H. WILTONII.** E. 1ft. Blue-grey. Trailing, procumbent habit. \$2.75
- MEDIA BLAAUW.** E. 4ft. Ascending main branches, shorter outer branches, irregular habit. Feathery sprays of greyish-blue leaves. \$3.00
- MEDIA MINT JULEP.** E. 6ft. Lush, rich, mint-green foliage; arching branches create vase-shaped, fountain-like specimen. Very hardy and strong growing. \$3.00
- MEDIA PFITZERIANA AUREA.** E. 4ft. Soft yellow turning bronzy-green in winter. Spreading habit. \$3.00
- MEDIA PFITZERIANA GLAUCA.** E. 3ft. Grey-blue. Bushy, wide-spread, horizontal branches forming bold, flat irregular head. \$3.00
- MEDIA PLUMOSA AUREA.** E. 2ft. Golden-yellow closely woven: spreading. \$3.00
- PROCUMBENS.** E. 3ft. Greyish-green. Spreading, semi-prostrate. \$3.00

RIGIDA. E. 12ft. A bush or small tree, from Japan, with an elegant habit. The branches are spreading and the branchlets long and pendulous brownish yellow bark. \$3.00

SABINA TAMARISCIFOLIA. E. 3ft. Grey-green. Prostrate spreading. \$2.75

SQUAMATA MEYERI. E. 8ft. Metallic grey-blue spreading. \$3.50

TAXIFOLIA LUTCHUENSIS. E. 6in. Very prostrate spreading habit. Fresh grass green foliage. Useful ground cover and ideal for covering banks, rocks or draping over walls. \$2.75

LARIX. LARCH. Graceful fast growing deciduous conifers combining beauty and utility. Foliage is bright green to blue-green in spring and summer turning golden-yellow in autumn.

DECIDUA. D. 20ft. **EUROPEAN LARCH.** Slender cone-shaped crown when growing. Good timber tree. \$2.00

LEPTOLEPIS. D. 20ft. **JAPANESE LARCH.** Attractive reddish twigs. Good timber tree. Stands exposure. \$2.00

LIBOCEDRUS. See N.Z. Native Section.

METASEQUOIA GLYPTOSTROBOIDES. D. 20ft.
DAWN REDWOOD.

This beautiful deciduous conifer has attractive soft green larch-like foliage changing striking golden-brown in autumn. Neat erect habit. Rapid growing, thrives in wet conditions. \$3.00

PHYLLOCLADUS See N.Z. Native Plant Section

PICEA. SPRUCE. Evergreen trees usually conical in habit, distinguished from *Abies* by pendulous cones and small peg-like projections when needles fall. Thrive in variety of soils but dislike very dry conditions.

ABIES. E. 25ft. **NORWAY SPRUCE.** Traditional Christmas tree of Europe. Lofty pyramidal habit. Prefers higher parts of New Zealand. \$3.00

GLAUCA CONICA. (**ALBERTIANA CONICA**). E. 3ft. Larch-green in spring, deepening. Compact pyramidal. \$3.50

OMORIKA. E. 25ft. **SERBIAN SPRUCE.** Blunt leaves, silvery above, green beneath. Tall, graceful, slender. \$3.00

PUNGENS. E. 15ft. **COLORADO SPRUCE.** Bluish-green on rigid horizontal branches. Slow growing pyramidal. \$3.00

SITCHENSIS. E. 20ft. **SITKA SPRUCE.** Stiffly spreading, prickly, blue-green foliage. Pyramidal. \$3.00

SUBSTITUTES WILL BE SUPPLIED ON REQUEST

● NEW RELEASES AND LISTINGS

PINUS. Due to Government regulations we are restricted from supplying Pines and Douglas Firs to the South Island or districts west of the main ranges and north of Pukekohe in the North Island.

MUGO. E. 3ft. **MOUNTAIN PINE.** Dark green closely spaced needles. Slow growing dwarf compact habit. Ideal for rockery or small border. \$2.50

PODOCARPUS. Attractive, hardy, evergreen conifers; handsome as specimen and useful for street or massed plantings. Some varieties noted for their timber. (See also New Zealand Trees, Shrubs and Plants Section).

DACRYDIODES. E. 25ft. **KAHIKATEA OR WHITE PINE.** Prefers damp soil, will grow in shade. \$2.20

FERRUGINEUS. E. 15ft. **MIRO.** Dark green, flat foliage resembling the Yew. Red berries attractive to birds. \$2.20

LAWRENCEI. E. 2ft. **MOUNTAIN PLUM PINE.** Low growing, spreading shrub with arching branches and small blue-grey leaves, Good ground cover. \$3.00

MACROPHYLLUS. E. 10ft. A shrub or small tree with attractive long narrow, bright green leaves. Excellent as a tub plant. \$3.00

NIVALIS. E. 3ft. **APINE TOTARA.** Dark green. Dwarf spreading habit. \$2.20

SPICATUS. E. 15ft. **MATAI OR BLACK PINE.** When young the branches are a tangled mass but develops into a neat round-headed tree. \$2.20

TOTARA. E. 20ft. Famous New Zealand timber tree. Foliage shunned by stock. \$2.20

TOTARA AUREA. E. 15ft. **GOLDEN TOTARA.** Rich golden foliage. Plant in full sun. \$2.75

PSEUDOTSUGA MENZIESII. E. 30ft. **OREGON-DOUGLAS FIR.**

Well-known tree, producing famous "Oregon" timber. Plume-like branches flat, deep green leaves. Prefer moist, well-drained conditions. (Refer also to Hedge and Shelter Section). \$1.75

SCIADOPYTES VERTICILLATA. E. 12ft. **UMBRELLA PINE.**
A strikingly handsome slow growing small tree of pyramidal form. \$4.00

SEQUOIA SEMPERVIRENS. E. 25ft. **CALIFORNIAN REDWOOD.**

In native element the world's tallest tree. In New Zealand, moderately tall and slow growing. Small, crowded leaves not unlike the Yew. Red-brown bark very conspicuous. Valuable timber tree. (Refer also Hedge and Shelter Section). \$1.75

TAXODIUM DISTICHUM. D. 20ft. **SWAMP CYPRESS.**

Thrives at water's edge or in swampy country. Foliage tender green in spring, uncommon russet before autumn fall. \$2.25

TAXUS. YEWS. Very hardy evergreens of great garden value. Adaptable as to soil or position. Stands hard pruning.

BACCATA FASTIGIATA. E. 8ft. IRISH YEW. Very dark green. Columnar habit. \$4.00

B. FASTIGIATA AUREA MARGINATA. E. 6ft. Golden margined; columnar. \$5.00

B. OVEREYNDERI E. 8ft. Light green small leaves. Pyramidal. \$4.00

THUJA. Very hardy, ornamental, evergreen trees and shrubs; will thrive in any soil if well-drained. Tall growing species are great value for hedges and dwarf varieties most suitable for rock gardens.

OCCIDENTALIS ERICOIDES. E. 5ft. Blue-grey soft foliage in summer, bronzy in winter. Dwarf rounded habit. \$2.25

OCC. PYRAMIDALIS. E. 10ft. Dark green. Dense columnar habit. \$3.00 each. 4ft specimens \$5.00

OCC. RECURVA NANA. E. 18ins. Low growing, flat topped dome. Deep bronzy-green foliage. \$2.75

OCC. RHEINGOLD. E. 4ft. Golden-orange in summer, deepening bronzy old gold in winter. Dense, low growing spreading. \$2.00

ORIENTALIS AUREA NANA. E. 3ft. Golden-yellow in summer, changing bronze in winter. Low compact rounded habit. \$3.00

OR. BEVERLEYENSIS. E. 8ft. Golden foliage. Erect, columnar. \$3.00

OR. JUNIPEROIDES. (DECUSSATA). E. 5ft. Dense, feathery, blue-grey in summer, changing to purplish plum in winter. Rounded bushy habit. \$2.75

OR. ROSEDALIS. E. 4ft. Soft canary-yellow foliage in spring. Sea-green in summer and plum-purple in winter. \$3.00

PLICATA. E. 25ft. Rich green. Pyramidal habit. (Refer also to Hedge and Shelter Section). \$1.50

P. FASTIGIATA. E. 20ft. Narrow columnar form with slender, ascending branches. Attractive specimen tree. \$2.75

P. OLD GOLD. E. 8ft. Rich gold in summer, changing bronzy green in winter. Upright, compact. \$2.75

TSUGA. HEMLOCK SPRUCE. Hardy evergreens preferring moist, well drained peaty soil.

CANADENSIS PENDULA. E. 2ft. Graceful attractive light green. Prostrate pendulous habit. \$3.50

HETEROPHYLLA. E. 25ft. Graceful light green. Pyramidal. \$3.00

New Zealand Natives

NEW ZEALAND TREES, SHRUBS AND PLANTS

Visitors to New Zealand are unfailingly unanimous in their praise of our scenery and flora. Those with horticultural appreciation are keenly aware of the vast range of trees, shrubs and plants which New Zealand can call her own.

They hold their own with the exotics and are increasingly used in modern landscaping due to their adaptability.

Our own collection of New Zealand trees, shrubs and plants is the most extensive in the country and attracts many visitors. Recently we have carefully overhauled our stocks and present a selection which, while truly representative, has the important merit of garden worthiness.

ACAENA. Very hardy low growing ground cover.

INERMIS. E. Brownish-green leaves. Purplish-red bidi-bidi. \$1.50

MICROPHYLLA. E. **PIRIPIRI.** Small bronze leaves. In summer showy scarlet barbs $\frac{1}{2}$ inch in diameter. Excellent for rock gardens. \$1.50

ACKAMA ROSAEFOLIA. E. 10ft. **MAKAMAKA.**

An attractive small spreading tree suitable as a specimen or for shrubberies in the milder localities. Distinctive foliage. \$2.25

AGATHIS AUSTRALIS. E. 20ft. **KAURI.**

Grows rapidly when young, attaining 15ft to 20ft. in same number of years. Excellent for specimens or group plantings. Prefers dry areas, shade when young. \$2.25

ALECTRYON EXCELSUS. E. 20th. **TITOKI** or **NEW ZEALAND OAK.**

Splendid specimen tree for exposed positions. Light green oak-like leaves. Jet black seeds are embedded in scarlet envelope. \$2.25

ALSEUOSMIA MACROPHYLLA. E. 5ft. **KARAPAPA.** Fragrant crimson flowers, then large crimson berries. Cool moist position. \$2.50

ARISTOTELIA. **WINEBERRY.** Hardy evergreen trees and shrubs which prefer a sunny situation in any reasonable garden soil. Small flowers followed by attractive berries.

FRUTICOSA. E. 5ft. **MOUNTAIN WINEBERRY.** Flowers whitish to pale rose. Prune for shape and to ensure a good crop of berries. \$2.00

SERRATA. E. 15ft. **MAKO MAKO.** Small rose to deep claret flowers, then reddish-black berries. Fast growing. \$2.00

ARTHROPODIUM CIRRHATUM. E. 2ft **RENGARENGA,**
MABEL ISLAND LILY.

2ft. flower spikes, white with backs of petals pale mauve-purple. Foliage is long and grass-like. Prefers shade; dry or wet conditions. Grows near salt water. \$2.00

ASPLENIUM BULBIFERUM TRIPINATUM. E. 18in.
RAUTANGI.

A beautiful fern, fine deeply cut fronds. \$1.60

ASTELIA. Small growing clump-forming perennials of the Lily family. Small fragrant flowers, followed by berries.

BANKSII. E. 2ft. **WHARAWHARA.** Silvery-green tufted leaves. Panicles of white flowers in Spring followed by reddish-purple to black berries. Ideal for coastal conditions. \$2.00

NERVOSA. E. 3ft. **KAKAHA.** Flowers in Spring then bright orange berries in panicles. Very hardy. \$2.00

BEILSCHMIEDIA TARAIRI. E. 15ft.

Handsome, tall, upright growing tree with a broad top. Prefers semi-shade when young. \$2.50

BLECHNUM PENNA-MARINA. E. 6ft. A very hardy alpine fern suitable for sun or shade. Excellent ground cover. \$1.50 each 6 for \$6

BRACHYGLOTTIS. Large leaved, quick growing shrub; suitable for exposed conditions in average garden soil. Resistant to salt wind; requires protection from heavy frosts.

PURPUREA. E. 8ft. **PURPLE RANGIORA.** Deep purple leaves, silvery white beneath. Plume-like flower heads carry purplish overtone. \$2.50

REPANDA. E. 8ft. Large, glossy green above, white underneath. Creamy-white scented flowers. \$2.50

CALCEOLARIA REPENS. E. 6in.

Dainty trailing plant producing panicles of white flowers, spotted purple. Requires shade and moisture. \$1.75

CAREX COMANS. E. 1ft. (**SEDGE**). Grass like herb; excellent foliage plant for rockeries or pebble gardens. Attractive reddish brown very fine grass-like foliage. \$1.50 each 4 for \$3.00

CARMICHAELIA WILLIAMSII. E. 8ft. **N.Z. BROOM.** Flowers creamy-yellow often blotched purple. Pods contain red mottled black seed. \$1.75

CARPODETUS SERRATUS. E. 15ft. **PUTAPUTAWETA.**

Quick growing tree, branches in whorls, grey-green foliage veined and marbled. Fragrant white flowers November-March. Then deep bluish-black seeds. Recommended for shady, wet conditions. \$2.00

CASSINIA. COTTONWOOD. Very hardy evergreen shrubs suitable for dry exposed situations. Prune after flowering.

FULVIDA. E. 4ft. **GOLDEN COTTONWOOD.** Tawny-yellow foliage white flowers. \$1.75

VAUVILLIERSII PALLIDA. E. 4ft. **MOUNTAIN COTTONWOOD.** Narrow leathery leaves clad in greenish-yellow wool. Creamy-white flowers Dec./April. \$1.75

CLADIUM SINCLAIRII. E. 2ft

Forms clumps with narrow, drooping, pale green leaves and heads of grass-like reddish-brown flowers. \$2.00

CLEMATIS PANICULATA. E. PAUWHANANGA.
NEW ZEALND CLEMATIS.

Pure white flowers with rose anthers in spring. Then attractive fluffy seed heads. Prefers shady damp conditions. \$2.00

CLIANTHUS. KAKA BEAK. Compact, spreading evergreens with pea-shaped flowers in spring. Average garden conditions, also suitable for coastal planting.

PUNICEUS. E. 6ft. Cardinal red. \$1.75

PUNICEUS ALBUS. E. 6ft. Creamy-white. \$1.75

PUNICEUS ROSEUS. E. 6ft. Rosy-salmon. \$1.75

COPROSMA. Easily grown evergreens very useful in poor conditions and coastal areas. Very drought-resistant. Berries attract birds. (See Hedge and Shelter Section).

ACEROSA. E. 1ft. Low growing sprawling plant with interlacing yellowish branchlets. Ideal for sandy, coastal soils. \$2.00

BEATSON'S GOLD. E. 4ft. Arching branches. Small narrow oval, golden yellow leaves margined deep green. \$2.20

BROWNSLEEVES. E. 6ft. Narrow, glossy leaves tinged brown. Compact. \$1.75

BRUNNEA. E. 2ft. Low shrub with wiry interlaced zig-zag branches. Very small bronzy-green foliage. Pale to dark blue translucent berries. Female and male clones available. \$2.00

BRUNNEA X KIRKII. E. 1ft. Small deep green leaves. Dense prostrate, spreading habit. \$2.00

COPPERGLOW. E. 6ft. Bright green summer, bronze winter. Upright \$1.75

COPPERSHINE. E. 5ft. Dark green, overlaid copper. Compact. \$1.75

GREENSLEEVES. E. 6ft. Bright glossy green, compact, bushy. \$1.75

KIRKII. E. 2ft. Low growing, spreading. Recommended dry bank, ground cover. \$1.75

MACROCARPA. E. 6ft Handsome bright green leaves. Fleshy orange fruit. \$1.75

● **PROPINQUA.** E. 6ft. Wiry, twiggy habit. Dark stems, dark narrow foliage. \$2.00

PROSTRATA. E. 2ft. Small, bright green leaves, procumbent habit. recommended ground cover. \$1.75

REPENS. E. 8ft. TAUPATA. Dark glossy green; greenish-white flowers, then yellow to orange berries. \$1.75

R. MARBLE QUEEN. E. 4ft. Leaves marbled and margined deep cream. \$2.20

R. PICTURATA. E. 8ft. Bright green, heavily blotched gold. Upright. \$2.20

R. SILVER QUEEN. E. 4ft. Shiny green, finely margined cream. Spreading, compact. \$2.20

R. VARIEGATA. E. 5ft. Variegated bright yellow-green; semi-weeping. \$2.20

● **RHAMNOIDES.** E. 4ft. Densely-branched shrub, reddish-brown bark. \$2.00

ROBUSTA. E. 8ft. KARAMU. Foliage dark glossy green, pale underneath. Flowers white. \$1.75

- SHINER. E. 8ft. Polished, bright green leaves. Open, upright. \$1.75
- TUFFET. E. 3ft. A hybrid variety with attractive flat sprays of dense brownish foliage. \$2.00
- WILLIAMSII VARIEGATA. E. 5ft. Handsome mottled white and green foliage. Soft leaves. Prefers semi-shade. \$2.20

CORDYLINE. CABBAGE TREE. Hardy evergreens, thriving from sea level to snow line, dry or wet. Sweetly scented cascading flower panicles.

- AUSTRALIS. E. 15ft. Tall palm-like habit. \$2.00
- BANKSII. E. 8ft. (TI-NGAHERE). Very graceful, drooping leaves. Panicles of white, scented flowers. \$2.50
- BAUERI. E. 8ft. Dwarf growing, clump forming habit. \$2.50
- BRONZE HYBRID. E. 8ft. Selected bronze-leaved form. \$3.00
- INDIVISA. E. 8ft. TOII - MOUNTAIN PALM. Bold, slightly bronzy foliage. Flowers white and mauve in very large panicles. Prefers a moist situation away from the coast. \$3.00
- PURPLE HYBRID. E. 8ft. Selected purple-leaved form. \$3.50

COROKIA. Extremely hardy coastal shrubs; form dense twiggy plants; small, star-shaped, sweetly scented flowers, then berries attractive to birds. Thrive in exposed or shady positions. (See Hedge and Shelter Section). 6 plants for \$11.00

- BUDDLEOIDES. E. 8ft. Dark green, deepening purple in winter. Yellow flowers. Dark red berries. \$2.00
- CHEESEMANII (ERECTA). E. 8ft. Yellow flowers. Then orange-red berries. Upright. \$2.00
- C. BRONZE KING. E. 6ft. Glossy bronze. Yellow flowers. Red berries. \$2.00
- C. BRONZE LADY. E. 5ft. Young leaves pink, changing to copper Compact. \$2.00
- C. LITTLE PRINCE. E. 3ft. Tiny, purple bronze leaves. Compact, twiggy, dwarf. \$2.00
- C. RED WONDER. E. 6ft. Yellow flowers. Then deep red berries. \$2.00
- C. YELLOW WONDER. E. 6ft. Yellow flowers. Then yellow berries. \$2.00
- MACROCARPA. E. 8ft. Deep green, long, leathery leaves, white underneath. Yellow flowers. Golden-yellow berries. \$2.00

CORTADERIA TOE TOE. E. 6ft.

Graceful creamy-white plumes produced in Spring-Summer. suitable for exposed positions and will stand salt wind. \$1.75

CORYNOCARPUS. KARAKA

Fast growing coastal tree, except in very cold districts. Large, thick, glossy, laurel-like leaves. Small, greenish-yellow flowers August-November, then clusters of yellow fruit.

- LAEVIGATUS. E. 20ft. Deep green leaves. \$2.00
- L. ALBUS VARIEGATUS. E. 12ft. Deep green, margined silver. \$3.00
- L. VARIEGATUS. E. 12ft. Deep green, with wide yellow margin. \$3.00

CYATHEA. TREE FERN. (ALSO SEE DICKSONIA). New Zealand's well known tree ferns add a tropical touch to the garden and are becoming increasingly popular with modern landscape architects.

DEALBATA. E. 10ft. **SILVER TREE FERN OR PONGA.** Fronds green above, silvery-white beneath. Requires shade. Excellent for underplanting larger trees New Zealand's "Silver Fern." \$2.50

MEDULLARIS. E. 20ft. **BLACK TREE FERN.** Very large crown needing plenty of room. Prefers moist conditions. Protect from severe frosts when young. \$2.25

DACRYDIUM. Beautiful specimen trees with graceful, slender, pendulous habit. Requires adequate rainfall and shelter from persistent winds. (See also Conifer Section).

BIDWILLI. E. 3ft. Hardy, slow growing, dwarf shrub. Juvenile foliage brownish-green. Requires moisture. \$2.50

BIFORME. E. 4ft. Rich green; rare, slow growing dwarf alpine. \$2.50

CUPRESSINUM. E. 15ft. **RIMU.** Bronzy-green, reddish brown in winter if exposed, deep green in shade. Pyramidal habit, pendulous branches. \$3.00 Advanced specimens \$5.00

INTERMEDIA. E. 8ft. **MOUNTAIN PINE.** A slow growing small tree with spreading branches and brownish-grey bark. Prefers a moist situation. \$2.50

KIRKII. E. 8ft. **MANOAO.** Juvenile foliage soft pale green, adult darker and thread-like. \$2.50

LAXIFOLIUM. E. 1ft. **PYGMY PINE.** Plum-purple foliage in winter. Scrambling habit. \$3.50

DIANELLA INTERMEDIA. E. 1½ft.

Dainty foliage and berry plant. Small, white to pale blue flowers, then large porcelain-blue berries. Prefers shade, will naturalise under trees. \$1.75

DICKSONIA. TREE FERN. (Also see Cyathea).

FIBROSA. E. 8ft. **GOLDEN TREE FERN.** Very slow growing, preferring shade, but will grow in open. Strong, columnar, fibrous trunk, yellowish green fronds. \$2.75

SQUARROSA. E. 12ft. **WEKI.** Large fronds held rigidly at peak of black trunk. Easily grown, shade or sun. \$2.25

DODONAEA. AKERAUTANGI or AKE AKE. Small, rapid growing trees ideal for quick shade or shelter. Tolerates dry areas, poor soils and coastal conditions. Flowers October-November. (See also Hedge and Shelter Section).

VISCOsa. E. 15ft. Narrow, light green leaves. Greenish flowers. \$1.75

VISCOsa PURPUREA. E. 15ft. Flowers and leaves purplish-red. \$1.75

DYSOXYLUM SPECTABILE. E. 15ft. **KOHEKOHE.**

Glossy green leaves set off by white flowers, then large green fruit, intriguing red inside. Requires shade. Recommended for coastal planting. \$2.25

EARINA. NEW ZEALAND ORCHID. An epiphyte, will tolerate dry conditions. To be grown on tree trunks or dry stony banks.

MUCRONATA. E. Creamy yellow fragrant flowers. \$3.00

ELATOSTEMA RUGOSUM. E. 18in. PARATANIWHA—NEW ZEALAND BEGONIA.

A recumbent perennial with prettily coloured purplish, bronzy-green leaves. Requires a damp shady situation. \$1.75

ENTELEA ARBORESCENS. E. 12ft. WHAU CORKWOOD.

Fast growing coastal tree with large mulberry-shaped leaves. White flowers. \$2.00

FESTUCA COXII. E. 9ins. An attractive, small growing grass, with blue-grey foliage. Ideal for the rockery or pebble garden. \$1.50 each 3 for \$3.50

FUCHSIA. (NEW ZEALAND FUCHSIA).

EXCORTICATA PURPUREA. D. 12ft. PURPLE LEAVED N.Z. TREE FUCHSIA. Colour persists but is more brilliant in spring. \$2.00

PROCUMBENS. E. 12in. Small orange, green and purple flowers in summer, then bright red berries. Trailing habit. Recommended shady rockeries. \$1.75

GENIOSTOMA LIGUSTRIFOLIUM. E. 10ft. HANGEHANGE.

Bushy shrub or small tree with shiny pale green leaves. Will stand drought and salt winds. \$1.75

GRISELINIA. (BROADLEAF). Hardy evergreens grown for handsome foliage. Recommended for seaside planting. Valued as decorative tub plants.

LITTORALIS. E. 12ft. KAPUKA. Fleshy deep-green oval leaves. \$2.00

LITTORALIS VARIEGATA. E. 10ft. Deep-green, blotched pale gold. \$2.25

LUCIDA. E. 8ft. PUKA. Very large, bright green, thick, shining leaves. May be grown as perching plant on other trees. \$2.75

GUNNERA. These N.Z. Native perennial herbs, with a spreading habit are an invaluable ground cover for damp, shady conditions. 6 plants for \$6.00

DENTATA. E. Narrow, thin, coarsely toothed leaves. Small flowers then red berries. \$1.50

PROREPENS. E. Rounded leaves turn bronze in Winter. Insignificant flowers are followed by fleshy red fruit. \$1.50

GYMNELAEA MONTANA. E. 10ft. NARROW LEAVED MAIRE
Medium growing tree of slender habit. Very narrow, graceful juvenile foliage. Minute flowers then small reddish berries. Very hardy. \$2.25

HEBE. (VERONICA). KOROMIKO. Extremely hardy evergreen shrubs, suitable for rockeries, dwarf hedges, borders and specimens. Adaptable, tolerate lime or acid conditions, and coastal planting. 6 plants \$10.00

ANDERSONII VARIEGATA. E. 4ft. Green and white variegated foliage. Large pale blue flowers. \$1.75

BROCKIEI.	E. 1ft. Pure white flowers. Small leaves.	\$1.75
BUCHANANII.	E. 3ft. White flowers. Small leaves. Dwarf.	\$1.75
BUXIFOLIA.	E. 3ft White flowers flushed pink. Dense compact.	\$1.75
CANTERBURIENSIS.	E. 3ft. White flowers. Glossy green leaves.	\$1.75
CARNEA TRICOLOR.	E. 2ft. Pink. Foliage green, white and pink. Bushy.	\$1.75
CORRIGANII.	E. 4ft. Long racemes, pale lilac flowers.	\$1.75
DECUMBENS.	E. 9ins. Pure white. Green leaves, black stems, prostrate.	\$1.75
DIOSMIFOLIA.	E. 2ft. Pale lavender flowers. Semi-prostrate.	\$1.75
EVENOSA.	E. 2ft. Grey-green foliage. Neat compact.	\$1.75
HULKEANA.	E. 3ft. NEW ZEALAND LILAC. Panicles of lilac flowers.	\$1.75
INSPIRATION.	E. 5ft. Pale mauve. Compact bushy.	\$1.75
LAVENDER SPRAY.	E. 6ins. Lavender. Low growing, spreading.	\$1.75
LOBELLIODES.	E. 3ft. Deep blue flowers.	\$1.75
MACROCARPA LATISEPALA.	E. 4ft. Open trusses, violet blue. Upright.	\$1.75
MONTANA.	E. 2ft. White. Light green foliage. Compact, spreading.	\$1.75
OBOVATA	E. 3ft. Pale lavender spikes 2" to 3" long.	\$1.75
OBTUSATA.	E. 12in. Pale mauve. Semi-prostrate.	\$1.75
SPECIOSA.	E. 3ft. Deep magenta. Large glossy foliage.	\$1.75
S. PINK.	E. 2ft. Large spikes of pink flowers.	\$1.75
S. PURPLE TIPS.	E. 18ins. Grey-green leaves, overlaid and variegat- ed cream. Mauve-pink flowers.	\$1.75
S. TRICOLOR.	E. 18ins. Magenta. Foliage pink, white and green.	\$1.75
S. VIOLACEA.	E. 3ft. Large violet spikes.	\$1.75
SUTHERLANDII.	E. 18ins. White. Silvery-green foliage. Very com- pact.	\$1.75
WAIREKA.	E. 2ft. Foliage margined and overlaid cream. Compact.	\$1.75

HEBE WHIPCORD VARIETIES. Popular and extremely hardy miniature Hebes, particularly suited to rockeries and garden borders. Will thrive in all soils and very exposed dry conditions. Leaves very small, so closely set to the stems that branchlets resemble Whipcord. 6 plants for \$10.00

ARMSTRONGII.	WINTER GOLD. E. 2ft. Golden-bronze. Low, spreading.	\$1.75
CUPRESSOIDES.	E. 3ft. Pale lilac flowers Fine compact.	\$1.75
IMBRICATA.	E. 18ins. Attractive foliage. Round-headed, compact.	\$1.75
OCHRACEA.	E. 1ft. Bronzy-green foliage. Low spreading habit.	\$1.75
OCHRACEA JAMES STIRLING.	E. 9ins. Deep bronze-gold. Spreading.	\$1.75
SALICORNIOIDES.	E. 2ft. Long, light green branches. Spreading.	\$1.75

HEDYCARYA ARBOREA. E. 10ft. POROKAIWHIRIA or
PIGEON WOOD.

Known as New Zealand Holly with orange-red, bird attracting,
berries. Shade loving. \$2.25

HEIMERLIODENDRON BRUNONIANUM VARIEGATUM E. 8ft.
VARIEGATED PARA PARA.

Leaves marbled three tone, two shades of green and edges warm
cream. Young leaves delicate pink. Excellent tub plant. Requires
shade. Frost tender. \$2.25

HOHERIA. LACEBARK. Evergreen shrubs or small trees
valued for attractive foliage. Respond well to
pruning.

ANGUSTIFOLIA. E. 12ft. Slender tree, spreading branches white
flowers. \$2.25

POPULNEA. E. 15ft. HOUHERE. Starry white flowers autumn. \$2.00

P. ALBA VARIEGATA. E. 10ft. Variegated; white-green. \$2.50

P. VARIEGATA. E. 10ft. Variegated; creamy-yellow/green.
\$2.50

HOMOLANTHUS POLYANDRUS. E. 12ft.

Rapid growing native of the Kermadec Islands. Large pale green
leaves with a conspicuous reddish mid-rib and margin. \$2.00

KNIGHTIA EXCELSA. E. 20ft. REWAREWA. NEW ZEALAND
HONEYSUCKLE TREE.

Upright tapering tree, red-brown flowers November. Heavily serrat-
ed foliage; wind hardy. Recommended for coastal planting. \$2.25

LEPTOSPERMUM. MANUKA. Well known and most
abundant of New Zealand shrubs. With excellent
hybridising results our list has a wonderful range of
colour and form. Very hardy in any soil, flower
when young; late autumn through winter and spring
and respond to cutting back. The nanum (dwarf)
varieties raised in our nurseries, make fine rock
shrubs, rarely exceeding two feet, and smother
themselves with star-like flowers.

6 plants for \$12.00

CHERRY BRANDY. E. 30ins. Large deep pink single. New foliage
purple. \$2.20

ELIZABETH JANE. E. 18ins. Deep pink single. Deep purple-red
foliage. \$2.20

ERICOIDES. E. 15ft. KANUKU. Single white. Tall growing and
excellent as a shade tree. \$2.20

KEATLEYII. E. 6ft. Very large single pale pink. Winter. \$2.20

MARTINII. E. 7ft. Large single rose to red, July-October. \$2.20

NANUM KEA. E. 1ft. Single pale pink. Early flowering. \$2.20

N. KIWI. E. 1ft. Single light red. Mid season. \$2.20

N. KOTUKU. E. 18ins. Single pale pink. August. \$2.20

N. RURU. E. 1ft. Single deep pink. Late flowering. \$2.20

N. TUI. E. 1ft. Single pale pink. August. \$2.20

PINK CASCADE. E. WEeping PINK TEA TREE. Single pink. Weep-
ing or trailing habit. \$2.20

PINK CHAMPAGNE. E. 3ft. Masses of pale pink single flowers. Light green foliage.	\$2.20
PINK LADY. E. 2ft. Single pale pink flowers. Light red foliage.	\$2.20
RED DAMASK. E. 6ft. Double red. Bronze foliage.	\$2.20
RED ENSIGN. E. 6ft. Single bright scarlet.	\$2.20
WAIRERE. E. WEEPING WHITE TI TREE. Single white flushed pink. Weeping trailing habit.	\$2.20

NEW DOUBLE FLOWERED LEPTOSPERMUMS (TEA TREE).

These new introductions of the Native Tea Tree were raised in Australia and were selected from over 3000 seedlings. These varieties were chosen to give a wide colour range, a long flowering season and a variation of foliage habit. All have double flowers.

6 plants for \$12.00

AUTUMN GLORY. E. 6ft. Mist pink to rich rose. Green foliage. Bushy habit. Autumn/Spring.	\$2.20
BIG RED. E. 8ft Very large red. Red foliage. Upright habit. Winter/Spring.	\$2.20
BLOSSOM. E. 6ft. Large coral pink in abundance. Green foliage. Bushy habit. Winter/Spring.	\$2.20
BURGUNDY QUEEN. E. 7ft. Bright red to rich burgundy. Red foliage. Bushy habit. Winter/Spring.	\$2.20
CRIMSON GLORY. E. 3ft. Large crimson flowers, Red foliage. Compact habit. Spring.	\$2.20
FASCINATION. E. 5ft. Light to deep candy pink. Frilly petals. Green foliage. Bushy habit. Late Spring/Summer.	\$2.20
FLORA QUEEN. E. 6ft. Large, light to deep rose pink. Green foliage. Upright habit. Winter/Spring.	\$2.20
GAIETY GIRL. E. 5ft. Pink with lilac tint. Reddish foliage. Bushy habit. Mid Spring.	\$2.20
JUBILEE. E. 6ft. Pink deepening to Post Office red. Red foliage. Open habit. Autumn/Spring.	\$2.20
PINK PEARL. E. 6ft. Pale pink in bud opening glistening white. Green foliage. Upright habit. Autumn/Spring.	\$2.20
ROSE GLORY. E. 6ft. Rose pink to red tonings. Reddish foliage. Upright habit. Winter/Spring.	\$2.20
ROSY MORN. E. 5ft. Variety of colours ranging from light pink to cerise. Reddish foliage. Autumn/Spring.	\$2.20
SUNRAYSLIA. E. 7ft. Large rose pink. Green foliage. Upright bushy habit. Autumn-Spring.	\$2.20
WINTER CHEER. E. 5ft. Damask red in abundance. Reddish foliage. Bushy habit. Autumn/Spring.	\$2.20

LIBERTIA. NEW ZEALAND IRIS. Very hardy and recommended for rockeries and pebble gardens. Slender, iris-like flowers in spring and early summer.

GRANDIFLORA. E. 12ft. White flowers in upright panicles.	\$1.75
IXIOIDES. E. 15ins. TUKAUKI. Dark green foliage sometimes tinted red.	\$1.75
PEREGRINANS. E. 1ft. Brownish-green leaves, well defined yellow midrib. White flowers.	\$2.00

LIBOCEDRUS. Named Incense Cedar from their fragrant wood. Their distinctive foliage, neat pyramidal growth make them desirable specimens.

BIDWILLII. E. 8ft. KAIKAWAKA. Young foliage fern-like. Prefers shady ,moist position. \$3.00

PLUMOSA. E. 8ft. KAWAKA. Beautiful fern-like foliage, shade when young. \$3.00

LOPHOMYRTUS. Hardy evergreen giving excellent foliage effects, particularly useful for interior decoration. Prefers moist soil conditions. A collection gives interesting and decorative foliage all year round.

GLORIOSA. E. 6ft. Dainty, small, round; variegated silver-pink/green. \$2.00

INDIAN CHIEF. E. 6ft Small dark redidsh-brown foliage. \$2.00

KATHRYN. E. 8ft. Oval, 1in. long, purple brown crinkled leaves. \$2.00

PURPUREA. E. 4ft. Very small dainty, deep bronze to purple foliage. \$2.00

● **SUNDAE.** E. 5ft. Roundish leaves with golden variegations and red splashes. \$2.50

● **TECHNICOLOR.** E. 8ft. Small leaves variegated and marked brownish-red, orange, pink and yellow in varying degrees at different seasons. \$2.50

VARIEGATA. E. 6ft. Crinkled, variegated creamy-yellow/green. \$2.00

LOXOMA CUNNINGHAMII. E. 2ft. A rare and beautiful fern. The shapely drooping fronds are dark green above, pale sea-green beneath. \$3.00

MACROPIPER EXCELSUM MAJUS. E. 6ft.

Shiny, heart-shaped lettuce-green, uniquely perforated leaves. Fruit yellow, 1in. long; edible. Credited by Maoris with medicinal properties. Excellent indoor plant. Shade gives best results. \$2.00

MARATTIA SALICINA. E. 6ft. THE PARA—HORSESHOE—OR KING FERN.

Strong, shining, dark green fronds; full grown can attain 10 feet. Damp shady conditions, will grow in water. Frost tender. \$2.25

MAZUS RADICANS. E. 6in.

Extremely hardy creeping rock plant, deep green leaves, forming perfect carpet. Flowers large, white, yellow centred. Thrives in damp. \$1.50 ea.; 3 plants for \$3.00

MELICOPE TERNATA. E. 10ft. WHARANGI.

A low, round headed tree recommended for the coast. Shining light green aromatic foliage. Jet black seeds. \$2.00

MERYTA SINCLAIRII. E. 12ft.

A neat, round-headed handsome tree. Deep green, shining leaves 12-18in. long and over 8in. across. Greenish-white flowers, then black fleshy seeds. Frost tender and salt resistant. Recommended for coastal districts and as tub plant. \$2.50

METROSIDEROS. This family includes the Rata and Pohutukawa, or New Zealand Christmas tree. Their red and scarlet flowers brighten miles of our northern coastline in summer. All are resistant to salt winds and thrive in poor soils.

ALBIFLORA. E. AKATEA-WHITE RATA. Very large pearly-white flower heads. Oct./Dec. \$2.50

CARMINEA. E. AKAKURA. Outstanding self-supporting climber; small, round, deep green foliage masses of carmine flowers. Recommended for cool banks, ponga walls, brickwork and concrete. \$1.75

CARMINEA ADULT FOLIAGE. Grown from cuttings taken from adult foliage. Flowers when young. Should be grown as a shrub or pot plant as plants will not climb. \$2.00

EXCELSA. E. 20ft. POHUTUKAWA. Deep crimson flowers in summer. (See also Hedge and Shelter Section). \$2.75

E. AUREA. E. 15ft. YELLOW-FLOWERED POHUTUKAWA. Sulphur-yellow; summer. \$2.75

KERMADECENSIS. E. 12ft. KERMADEC POHUTUKAWA. Scarlet; throughout year. \$2.75

K. RED AND GOLD. E. 10ft. Deep green leaves attractively margined golden-yellow stand out against the deep red of the young branchlets. \$3.50

K. VARIEGATA. E. 10ft. Deep green margined creamy-yellow. \$3.00

ROBUSTA. E. 12ft. NORTH ISLAND RATA. Dark scarlet flowers. \$2.75

UMBELLATA. E. 10ft. SOUTHERN RATA. Bright crimson; January. \$2.75

MYOPORUM LAETUM. E. 15ft. N.Z. NGAIO. Fast growing small tree. Round headed. Recommended for coastal conditions. \$1.65

MYRSINE AUSTRALIS. E. 8ft. MAPAU.

Selected form, makes small specimen tree; young leaves are attractive creamy pink. Very hardy. \$2.00

NEOPANAX. Very wind resistant, fast growing, decorative foliage shrubs; make excellent tub plants. Suitable for open or shady situations.

ARBOREUM. E. 10ft. WHAUWHAU, GINWOOD. Large five lobed palm-like foliage. \$2.00

EDGERLEYI. E. 8ft. RAUKAWA - ORANGE WOOD. Graceful rare shrub with bright glossy-green delicately divided, aromatic foliage. \$3.00

LAETUM. E. 8ft. Palmate deep green foliage, purplish-red leaf stalks. \$2.50

NERTERA DEPRESSA. E.

An excellent ground cover for damp shady conditions. Small white violet-like flowers Nov./Feb. then masses of dark red berries.

\$1.50 ea.; 6 for \$6.00

NOTHOFAGUS. These valuable evergreen timber trees dominate our forests in the South Island and central-southern parts of North Island. They respond to trimming and foliage is useful for decorative work.

- FUSCA.** E. 20ft. RED BEECH. Crinkly leaves, often coloured red. Upright. \$2.50
- MENZIESII.** E. 15ft. SILVER BEECH. Dark green toothed leaves. Dense habit. \$2.50
- SOLANDRII.** E. 15ft. BLACK BEECH. Decorative foliage often brownish-red. \$2.50

OLEARIA. Hardy evergreens, easily grown in even poor soils. Will withstand strong winds and drought. Recommended for shelter in coastal gardens. Notable for their showy, daisy-like flowers. Trim to keep bushy.

- ALBIDA.** E. 15ft. Rapid growing tree, foliage light green. (See also Hedge and Shelter Section). \$2.00
- ANGULATA.** E. 15ft. Short broad leaves, waved margins, white underneath. \$2.00
- CHEESEMANII.** E. 5ft. White star-like flowers. Compact \$2.00
- DARTONII.** E. 8ft. Very narrow grey-green leaves, silver beneath, 3 inches long. Open, upright habit. \$2.00
- ILICIFOLIA.** E. 5ft. MOUNTAIN HOLLY. Prickly, holly-like leaves. White flowers, then pale brown fluffy seedheads. \$2.00
- THOMPSONII.** E. 12ft. Attractive oblong fresh green leaves, silvery-grey reverse. Large white daisy-like flowers in Summer. \$2.00

OURISIA MACROPHYLLA. E. 1ft. MOUNTAIN PRIMULA.

A hardy plant with distinctive foliage. The flowering stem in Summer bears numerous white flowers in whorls. Ideal for damp, shady situations. \$1.75

PARAHEBE LYALLII. E. 6ins.

Very prostrate, much branched rockery plant, that roots as it spreads forming a dense mat. White flowers veined pink. Prefers damp, shady situation. \$1.75

PHORMIUM. FLAX. Remarkable family thriving in wet or dry soils and right on the coast. A size and type for every occasion.

- COOKIANUM.** E. 5ft. MOUNTAIN FLAX. Yellowish flowers. Conspicuous seed heads. Compact. \$1.75
- C. DAZZLER.** E. 4ft. Deep maroon purple with scarlet-red stripes. \$4.50
- C. TRICOLOR.** E. 4ft. Green and white margined red. \$2.50
- TENAX.** E. 8ft. Dull red flowers long spikes. Upright. \$1.75
- T. BRONZE BABY.** E. 2ft. Coppery-red foliage, dwarf, compact. \$2.00
- T. PURPUREUM.** E. 6ft. Purple foliage. Stiff upright. \$2.00
- T. RADIANCE.** E. 5ft. Variegated green and cream-yellow upright. \$3.00
- T. THUMBELINA.** E. 1ft. A miniature form with very narrow strap-like bronzy-purple foliage. Ideal for rockeries and pebble gardens. \$3.00
- T. VARIEGATUM.** E. 6ft. Silver and green foliage. Upright. \$3.00
- WILLIAMSII.** E. 8ft. Bold green and cream leaves 6 feet long and 6 inches wide. \$5.00

PHYLLOCLADUS. CELERY-TOPPED PINE. The unusual appearance of this small group of trees suggests a primitive origin. Does not produce true leaves but flattened twigs function as leaves.

ALPINUS. E. 6ft. **ALPINE TOATOA.** Hardy slow growing ornamental small tree. Prefers a moist situation. \$3.00

GLAUCUS. E. 10ft. **TOATOA.** A distinct and handsome species. \$3.00

TRICHOMANOIDES. E. 15ft. **TANEKAHA.** A slender graceful tree. \$2.50

PIMELIA PROSTRATA. E. 1ft. **N.Z. DAPHNE.** Forms a prostrate mat. Creamy-white flowers Oct.-Mar. White berries sometimes pinkish. \$1.75

PITTOSPORUM. A family prized for beauty of form and flower. Will fill any situation, as background, among other shrubs, or as specimens. Very suitable for coastal planting. Quick growing. excellent for underplanting grown trees. Wind and drought resistant. (See also Hedge and Shelter Section).

CRASSIFOLIUM. E. 15ft. **KARO.** Chocolate-brown scented flowers. Recommended coastal shelter. \$2.00

EUGENIOIDES. E. 20ft. **TARATA.** Lemon-green foliage, scented creamy-white flowers. \$2.00

EUGENIOIDES VARIEGATUM. E. 10ft. Lemon-green margined creamy-white. \$2.50

RALPHII. E. 12ft. Leaves covered beneath with thick white down. A fine coastal tree. \$2.00

TENUIFOLIUM. E. 8ft. **KOHUHU.** Pale green foliage. Flowers almost black \$2.00

T. IRENE PATERSON. E. 10ft. Pale green leaves mottled white. The new leaves almost completely white. Excellent for floral work, giving a new colour contrast. \$2.75

T. JAMES STIRLING. E. 6ft. Small, rounded, pale silvery-green leaves. Slender, stiff, ebony-black bark. Recommended for floral work. \$2.50

T. ROTUNDIFOLIUM VARIEGATUM. E. 6ft. Pale silvery-green leaves variegated cream. Dwarf, compact. \$2.50

T SAUNDERSII. E. 7ft. Variegated silver and white, often margined red. \$2.50

● **T. SUNBURST.** E. 6ft. A new form, attractive golden, lime green foliage margined olive green, often dark reddish-purple stems. Compact, shapely habit. Recommended for floral work. \$2.75

● **T. TOM THUMB** E. 3ft. Very dark, shiny copper-beech like foliage. Neat compact habit of growth. \$2.75

T. VARIEGATA. E. 7ft. Lemon-green foliage, margined creamy white. \$2.50

UMBULUTUM. E. 10ft. **HAEKARO.** Fine foliage. Scented pink flowers. Berries open brick red. \$2.25

UNDULATUM. E. 10ft. See General Section. \$2.00

PLANCHONELLA NOVO-ZELANDICA. E. 12ft.

Uncommon small tree; withstands salt winds but only tolerates light frosts. Large, golden-brown fruit containing smooth, polished bony seeds. \$2.50

PODOCARPUS. Attractive, hardy, evergreen conifers. Handsome specimens, useful for street or massed plantings. Some varieties are noted for timber. (See also Conifer Section).

DACRYDIOIDES. E. 25ft. **KAHIKATEA OR WHITE PINE.** Prefers damp soil. Will grow in shade. \$2.20

FERRUGINEUS. E. 15ft. **MIRO.** Dark green, flat foliage resembling Yew. Red berries attractive to birds. \$2.20

NIVALIS. E. 3ft. **ALPINE TOTARA.** Dark green; dwarf spreading habit. \$2.20

SPICATUS. E. 15ft. **MATAI OR BLACK PINE.** Young branches tangled mass but develops into neat, round-headed tree. \$2.20

TOTARA. E. 20ft. Famous New Zealand timber tree. Foliage shunned by stock. \$2.20

TOTARA AUREA. E. 15ft. **GOLDEN TOTARA.** Rich gold. Plant in full sun. \$2.75

POMADERRIS. Small evergreen trees and shrubs, preferring light, sandy or stony soil but will thrive in any well-drained situation. Wind resistant and suitable for coastal planting.

APETALA. E. 15ft. **TAINUI.** Greyish-green foliage covered with dense soft hairs. (See also Hedge and Shelter Section). \$1.75

KUMERAHO. E. 4ft. **GOLDEN TAINUI.** Golden-yellow flowers Sept.-Oct. \$1.75

PRATIA

ANGULATA. E. 6in. Rapid growing trailing ground cover, white violet-like flowers, then massed purplish-red berries. \$1.50 ea.; 3 for \$3.00

PHYSALLOIDES E. 3ft. **KORU.**

Small, branching, erect shrub; large, dull green leaves. Flowers deep blue at base of petals, paler towards top. Deep purple-blue fruit. Prefers semi-shade. \$1.75

PSEUDOPANAX. **LANCEWOOD.** Hardy, evergreen shrubs remarkable for wide range of foliage, shape and colour. Grows in full sun or semi-shade, wind-resistant suitable for coastal planting.

CHATHAMICUM. E. 15ft. **CHATHAM IS. PANAX.** Handsome small tree with broad lanceolate leaves. Upright habit. \$2.25

CRASSIFOLIUM. E. 15ft. Juvenile form, long, narrow, stiff, pendulous, sword-like leaves on single stem. Adult trees branched, new foliage shorter, wider and deeply toothed. \$2.75

OUR GUARANTEE: We do our best to ensure that at the time our plants leave our nursery they are true to name and healthy and provided they have not been damaged in transit and are planted promptly and are properly cared for and are not exposed to abnormal conditions, we guarantee to replace any plant which, within four months from the day of despatch from our nursery, is found to be not true to name or which does not live and grow. If no notification of any claim is received by us by the expiry of the period of four months then this guarantee ceases to be effective. Any other express or implied conditions, statements or warranties, statutory or otherwise, are in any event hereby excluded. If the purchaser does not wish to accept goods under the above conditions they are to be returned to us at once.

DISCOLOR. E. 6ft. Distinctive bronze; compact. Prefers moisture.
\$2.50

FEROX. E. 10ft. Rigid leaves, pale greyish when young. \$2.50

LESSONII. E. 10ft. HOUPARA. Shining palmate leaves. Bushy.
Attractive round-headed tree. \$2.50

L. ADIANTIFOLIUS. E. 10ft. Pale Green leathery three-lobed leaves.
\$2.75

L. LINEARIFOLIUM. E. 8ft. Narrow, light green leaves. Bushy. \$2.75

L. PURPUREUM. E. 10ft. Shining palmate purplish-bronze leaves.
\$2.75

● **L. SABRE.** E. 10ft. Long lanceolate, very deep purplish-green leaves,
up to 12ins. in length, 1½ins. to 2in. wide. Orange-red mid-rib.
Upright habit. \$3.25

● **L. TRIDENT.** E. 10ft. Bold, 3 lobed, trident shaped leaves, a distinc-
tive bronze-green when growing in full sun. Upright habit. \$3.00

PSEUDOWINTERA COLORATA. E. 10ft.

Forms colourful small tree, foliage aromatic, blotched red on top,
purplish underneath. Prefers moisture and shade. \$2.00

RAOULIA TENUICAULIS. E. 3ins. TUTAHUNA.

Forms a large silvery-green mat of small closely compacted leaves.
Small insignificant scented flowers in Spring, followed by fluffy
seed heads. Will thrive in sun or shade but must have good
drainage. \$1.50 ea.; 6 for \$6.00

RHABDOTHAMNUS. NEW ZEALAND GLOXINIA. WAIU- TUA. Abutilon-like flowers in spring/early summer. Thrives in shade.

SOLANDRI. E. 4ft. Orange-red tumpets, conspicuous red veins.
\$2.50

SOLANDRI AUREUS. E. 4ft. Rich orange-yellow trumpets. \$2.50

RHOPALOSTYLIS SAPIDA. E. 8ft. NIKAU.

Graceful, elegant palm. Requires deep shade and prefers wet con-
ditions. Very slow growing. \$2.50

RUBUS PARVIS. E. An attractive prostrate plant with reddish leaves and stems. Ideal for banks. White flowers. Strawberry-like fruit. \$2.00

SENECIO. Hardy group, thriving in hottest and driest of con- ditions, very suitable for seaside planting. Generally have greyish leaves, yellow daisy-like flowers in summer.

BIDWILLII. E. 2ft. MOUNTAIN SENECIO. Thick leathery leaves.
Creamy white flowers. \$2.00

COMPACTUS. E. 3ft. Grey leaves, snow white undersurface. \$2.00

ELAEAGNIFOLIUS. E. 6ft. Tough leathery dark green leaves, whitish
beneath. \$2.00

GREYII. E. 4ft. Grey leaves, white underneath. \$2.00

HECTORII. E. 8ft. Erect shrub. Large letaves, white cottony
tomentoum beneath. Large heads of white flowers. Prefers
damp. \$2.00

HUNTII. E. 10ft. Shining, green foliage, greyish beneath. Small tree.
\$2.00

LAXIFOLIUS. E. 3ft. Grey leaves clothed with white, cottony tomentum. Dwarf, compact. \$2.00

MONROI. E. 2ft. Grey leaves, whitish beneath. Compact, spreading. \$2.00

REMOTIFOLIUS. E. 5ft. Greyish-green leaves. Compact. \$2.00

ROTUNDIFOLIUS X. GREYII. E. 5ft. Large, thick, deep green, oval leaves; greyish beneath. \$2.00

SOPHORA. KOWHAI. New Zealand's national flower. Very hardy and will grow in most soils in nearly all parts of New Zealand but prefers an open situation. The golden yellow flowers in Spring are attractive to native birds.

MICROPHYLLA. E. 15ft. Small leaved form which passes through a distinct juvenile stage having yellowish wing stems and few leaves. \$2.25 each or 5ft specimens \$3.50

M. LONGICARINATA. E. 8ft. Extremely fine foliage. \$2.25

PROSTRATA LITTLE BABY. E. 5ft. Dwarf growing form. \$2.50

TETRAPTERA. E. 12ft. The Taupo form previously named "Grandiflora" in error because of the large flowers.

\$2.25 each or 5ft. Specimens \$3.50

- **T. OTARI GNOME.** E. 6ft. This outstanding dwarf Kowhai, which may be seen growing at the "Native Plant Museum", at Otari, in Wellington, flowers at a very young age and plants have been known to continue flowering reliably for nearly thirty years. Produces masses of very large buttercup-yellow flowers. \$3.00

TECOMANTHE SPECIOSA. E.

Strong growing, woody climber, large dark green, glossy leaves. Large trumpet-shaped flowers, creamy-white tinged green; May through to July-August. Suitable for mild frost-free districts. (See also Climbers and Twiners Section). \$3.00

TETRAPATHAEA TETRANDRA. E. NATIVE PASSION FRUIT.

Small scented green flowers then large orange fruit. Not edible. \$2.00

VITEX LUCENS. E. 20ft. PURIRI.

Rapid growing, picturesque tree; dark, glossy green leaves. Pink flowers then red berries in profusion. Frost tender when young. \$2.00

WEINMANNIA. Shrubs or tall trees with distinctive foliage and flowers produced in racemes 8" to 12" in length.

RACEMOSA. E. 15ft. KAMAHI. Very hardy and will grow under most conditions. White to pale rose flowers in January. \$2.00

R. PURPUREA. E. 8ft. Stewart Island form with reddish-brown foliage valuable for floral work. \$2.50

SYLVACOLA BETULINUS. E. 15ft. A form found in the Bay of Islands and Coromandel areas. Attractive three foliate leaves. Flowers November-December. \$2.25

XERONEMA CALLISTEMON. E. 2ft.

Extremely rare small growing flax-like plant found on Poor Knights Islands. Striking crimson flowers resemble the Bottlebrush, standing well up from foliage. Plant in sunny, well-drained, frost free position; light, open soil. \$2.25

Climbers and Twiners

This most useful group of plants provide beauty where no others can. The loveliness of their flowers, their fragrance or their colourful autumn foliage transforms unsightly out-buildings, sheds, stumps, rough fences, banks, walls, etc. Twined over and through pergolas, trellises or arches, they relieve severity, adding charm and beauty. Generally they like their roots in a shady, moist place. A mulch of compost, humus, etc., is beneficial.

AKEBIA QUINATA. D.

Chocolate coloured sweetly scented flowers; early spring. Clover-like leaves. Rapid growing. **\$2.00**

AMPELOPSIS BREVIPEDUNCULATA ELEGANS. D.

An attractive climber with three lobed, occasionally 5 lobed dark green leaves mottled white and tinged pink. Inconspicuous flowers in late summer then porcelain-blue fruit. Ordinary soil in sun or semi-shade. **\$2.00**

BERBERIDOPSIS CORALLINA. E. CORAL VINE OF CHILE.

Bright, waxy, blood-red flowers. Dark green, leathery foliage. Cool, moist, acid soil. **\$3.00**

BILLARDIERA LONGIFLORA. E. CLIMBING BLUEBERRY OF AUSTRALIA.

Creamy yellow, blue-tipped bell flowers spring, then long, shiny bluish-purple berries. Moist, well-drained soil. **\$2.00**

BOUGAINVILLEA. Exotic climbers, with brilliant coloured flower bracts through spring/summer. Plant in hot, sunny, well-drained situation; suitable warm dry climates.

KILLIE CAMPBELL. E. Reddish-brown, changing orange-scarlet to magenta-purple. **\$2.00**

MAGNIFICA TRAILLII. E. Bright purple magenta. **\$2.00**

SCARLET O'HARA. E. Scarlet-red, pendulous sprays. **\$2.00**

CAMPSIS. Semi-hardy deciduous climbers, roots into bark or porous material. Fast growing; large trumpet-shaped flowers for long period; summer. Prune in winter.

GRANDIFLORA. D. CHINESE TRUMPET CREEPER. Scarlet to orange. **\$2.00**

GUILFOYLEI. D. Brilliant orange-red trumpets. **\$2.00**

YELLOW TRUMPET. D. Deep glowing golden-yellow trumpets. **\$2.00**

CLEMATIS. Thrives in full sun with roots in cool, moist, well-drained soil. Preferring alkaline soils, lime should be added. Vigorous growing; ideal for covering unsightly objects. Spring flowering.

MONTANA RUBENS. D. Bright pink. **\$2.00**

M. SPOONERII. (SNOWFLAKE). D. Pure white. **\$2.00**

- M. TETRAROSE.** D. Very large deep pink spring and late summer. \$2.00
PANICULATA. E. PAUWHANGANGA. NEW ZEALAND CLEMATIS. Pure white, rose anthers, then attractive fluffy seed heads. Prefers shady damp conditions. \$2.00

FICUS PUMILA MINIMA. E. CREEPING FIG.

- Small heart shaped, dark green leaves which cling closely to any surface. Excellent for covering stone, brick, concrete or wood. Thrives anywhere, in sun or semi-shade. \$1.50
Six plants for \$7.00

GELSEMIUM SEMPERVIRENS. E. CAROLINA JESSAMINE.

- Fragrant, golden-yellow bell shaped flowers; spring. Slender twining, rapid growing. \$2.00

HARDENBERGIA. Low growing evergreen, masses of pea-shaped flowers late winter, early spring. Stands hard, dry conditions; protect from heavy frosts.

- COMPTONIANA.** E. Violet-blue. \$2.00
VIOLACEA. E. Rich purplish-violet. \$2.00

HEDERA. IVY. Very hardy, self-clinging evergreen climber; makes ideal self-supporting cover for walls, banks, concrete or brick work. Thrives in most soils or situations. Popular as decorative house plants.

- CANARIENSIS VARIEGATA.** E. Large, round green leaves margined cream. \$1.75
ELEGANTISSIMA. E. Small leaves, grey-green border creamy white, edged red in winter. \$1.75
GOLD HEART. E. Dark green leaves, golden patches in centre. \$1.75
MADAGASCARIENSIS. E. Large bright green leaves in summer turning deep bronze with green veins in winter. \$1.75

HOYA CARNOSA. E. WAX FLOWER.

- Fragrant, waxy, pale pink flowers, clusters. Succulent, dark green leaves. Requires warm, sunny, frost free situation. Excellent indoors. \$2.25

JASMINUM. Vigorous growing evergreen. Richly fragrant flower sprays borne in clusters most of year. Slightly frost tender when young.

- AZORICUM.** E. Pure white. \$2.00
POLYANTHUM. E. Pure white, pale rose reverse. Buds carmine-red. \$2.00

KENNEDYA PROSTRATA. E.

- Massed dazzling, scarlet, pea-shaped flowers. In suitable, warm conditions, will cover ground in close mat. \$2.00

LITHOSPERMUM DIFFUSUM. E.

- Small, vivid, gentian-blue flowers through summer. Hardy, prostrate trailing plant for banks and walls. \$1.75
Six plants for \$12.00

LONICERA. HONEYSUCKLE. Adaptable climbers, for trellises or rambling over bushes or tree stumps. Suitable for full sun or partial shade.

HILDEBRANDIANA. E. GIANT BURMESE HONEYSUCKLE. Spectacular, 7in. long flowers; yellow, changing orange, red and buff. Very fragrant. For warm, frost free districts. \$2.50

MANDEVILLA SUAVEOLENS. E.

Large, pure white, very fragrant flowers in racemes during summer, followed by long seed pods. \$2.00

MANETTIA BICOLOR. E.

Tubular, 1in. long scarlet flowers yellow tipped throughout year. Slightly frost tender. \$2.00

PANDOREA. Hardy, showy; Tecoma-like flowers through summer; attractive shiny compound dark green leaves.

JASMINOIDES ALBA. E. Milky-white, pale cream throat. \$2.25

J. ROSEA SUPERBA. E. Delicate pale pink, deep red throat. \$2.25

PANDORANA. E. WONGA VINE. Creamy white spotted purple inside. \$2.00

RICASOLIANA. D. Large trusses of pink flowers. \$2.00

PARTHENOCISSUS TRICUSPIDATA. D. VIRGINIAN CREEPER.

Self-clinging, quickly covers walls, chimneys, stone work, etc. Soft green mantle in summer turning gorgeous reds and yellows in autumn. Very hardy. \$1.75

PASSIFLORA. PASSION FLOWER. Rapid growing, ever-green; suitable for frost free areas. Noted for beauty of flowers and in some cases their valuable edible fruit.

ANTIOQUIENSIS. E. Rich scarlet pendulous flowers then yellow banana-like fruit. \$2.00

EMPRESS EUGENIE. E. White outer petals backed pale green. Rosy-pink inner, backed blush pink; the centre is a showy open circle of raised purple filaments. \$2.00

EYNSFORD GEM. E. Dainty, light, rosy-purple with central white fringe. \$2.00

MOLLISSIMA. E. Large deep pink pendulous flowers. Edible banana-like fruits. \$2.00

PYROSTEGIA VENUSTA. E. FLAME VINE.

Brilliant, trumpet-shaped, golden-orange flowers; winter, Leaves ornamental light green climbing by tendrils. Plant in sunny, warm, frost free area. \$2.00

SCHIZOCENTRON ELEGANS. E. HEERIA-ROSEA

Small, brilliant purple-magenta flowers spring/summer. Forms close, dense reddish-green mat. Plant in frost free areas. \$1.75
6 plants for \$12.00

SOLANUM WENDLANII. D. BLUE POTATO VINE.

Large showy clusters lavender-blue flowers; summer. Large, smooth leaves clinging by scattered prickles. Warm districts only. \$2.00

SOPLYA FUSIFORMIS. E. AUSTRALIAN BLUEBELL.

Clusters of brilliant blue, bell-shaped flowers in spring then purple berries. Ideal for covering banks, stumps, low fences etc. \$2.00

STAUNTONIA HEXAPHYLLA. E.

Clustered fragrant white flowers tinted violet; spring. Then large purplish-red edible fruit. Prefers rich moist position. \$2.25

TECOMANTHE SPECIOSA. E.

Strong growing, woody climber, large dark green, glossy leaves. Large trumpet shaped flowers, creamy-white tinged green; May through to July-August. Suitable for mild frost-free districts. (See also New Zealand Trees, Shrubs and Plants Sections). \$3.00

TETRAPATHAEA TETRANDRA. E. NATIVE PASSION FRUIT.

Small, scented, green flowers then large orange fruit. Not edible. \$2.00

THUNBERGIA GIBSONII. E. GOLDEN GLORY CREEPER.

Large golden-orange, open, trumpets through summer. Pale green foliage. Suitable warm districts. \$2.00

VITIS. ORNAMENTAL GRAPE. Very hardy, fast growing, deciduous climbers for fences and pergolas.

ALICANTE BOUCHET. D. Vivid scarlet leaves April/May. \$2.00

HETEROPHYLLA. D. Clusters of shining porcelain-blue berries. \$2.00

WISTARIA. Rapid growing deciduous climbing plants, very hardy; will thrive in any climate, but plant in full sun. Multitudes of long, drooping flower racemes in spring. Flowers fragrant.

FLORIBUNDA ALBA. D. White flowers tinged lilac. \$2.25

F. MACROBOTRYS. D. Pale lilac flowers edged purple. \$2.25

F. ROSEA. D. Pale rose flowers. \$2.25

MACROSTACHYA. D. Lilac-coloured flowers with yellow spot. \$2.25

- **ROYAL PURPLE. D.** Long heavy clusters of purple-blue flowers. Prolific. \$2.25

SINENSIS. D. Large mauve flowers. \$2.25 or 3 year specimens. \$3.50

S. BENI FUJI. D. Lilac-blue flowers. Long pendulous racemes. \$2.25

- **S. CAROLINE. D.** Clusters of mauve-like flowers. Free flowering. Suitable for all climates and recommended for milder districts. \$2.25

S. FLORA PLENA. D. Double, large mauve flowers. \$2.25

The Home Orchard

Well chosen fruit trees are wonderful investments for home gardeners, providing both pleasure and profit. Good results will be obtained by selecting a flat or gently sloping site with northerly aspect, and reasonable shelter from prevailing and cold winds. Regular pruning and spraying pays dividends in better crops of higher quality fruit.

ACTINIDIA CHINENSIS. CHINESE GOOSEBERRY.

\$2.00 ea.; \$3.75 per pair.

Strong growing deciduous vine; needs to be grown on pergola, trellis, fence or other support. Bears heavy crops of hairy, brownish, oval, green-fleshed fruits particularly valued for salads, preserves and dessert. Maturing during winter they have a delicious and unique flavour all their own. Male plants required for pollination, though up to eight females may be planted for each male. Two year plants.

ABBOTT. Large oblong fruit. About $7\frac{1}{2}$ fruit to the pound.

BRUNO. Long deep brown fruit. About 8 fruit to the pound.

HAYWARD. (McWHANNEL'S GIANT). Very large, broad, oval fruit. About $5\frac{1}{2}$ fruit to the pound.

MONTY. Oblong fruit. About 9 to the pound. Prolific bearer.

MALE. Suitable pollinator for any of above.

APPLES.

\$2.25 ea.; 6 for \$12.50

First and foremost among our fruit trees, should be the background of any home orchard. Careful selection gives a succession of fruit for almost six months of the year. The following is a selected list of varieties very suitable for home orchards.

EM9 Stock—true dwarf.

106 Stock—Semi dwarf.

● **BRAEBURN.** Dessert. Juicy yellow flesh. Red skin. Heavy bearer.

COX'S ORANGE PIPPIN. Dessert. Yellow flesh, skin striped. Good keeper. Mid-May. EM9 or 106 stock. March/April.

GALA. Dessert. Firm flesh, sweet and crisp. Mid-March. EM9 or 106 stock.

GOLDEN DELICIOUS. Dessert. Firm golden yellow. Late March/April. EM9 or 106 stock.

GRANNY SMITH. All purpose. Large, pale green, flesh firm and crisp. April/May. EM9 or 106 stock.

GRAVENSTEIN. Dessert. Yellow flushed and striped red. White juicy flesh. Mid/January. EM9 or 106 stock.

HAWKES BAY RED DELICIOUS. All purpose. Conical deep red fruit. Late March EM9 or 106 stock.

IRISH PEACH. Dessert. Crisp. Juicy. Dec-Jan. 106 stock.

KIDD'S ORANGE RED. Dessert. Streaked with red. March/April. 106 stock.

REINETTE DU CANADA. All purpose. Large greenish-yellow. April. EM9 or 106 stock.

● **SCARLET PIMPERNEL.** Partial red skin dessert. Heavy. Regular cropper in early life. Mid to late December. EM9 or 106 stock.

SPARTAN. Dessert. Dark red. Mid March. EM9 or 106 stock.

SPLENDOR. Dessert. Bright red skin. Late March. EM9 or 106 stock.

STURMER PIPPIN. Dessert. Medium sized, green to russet brown. May. 106 stock.

SUMMERLAND. Dessert. Red. Late April. EM9 or 106 stock.

ALMONDS.

\$2.25 ea.

BURBANK SEEDLING. Soft shell. Medium sized nuts. Excellent flavour.

I.X.L. Large flat nuts. Thin shell.

MONOVALE. Large broad nuts.

NONPARIEL. Thin shelled. Excellent quality, regular bearer.

APRICOTS.

\$3.00 ea.

Recommended for districts with heavier soils and cold winters.

Under these conditions produce excellent crops of delicious fruit.

MOORPARK. Large fruit. Flesh bright orange. Mid season.

NEWCASTLE. Flesh firm and good flavour. Early.

ROXBURGH RED. Very large fruit. Highly coloured. Early to mid-season.

ASPARAGUS CONISTON

\$3.20 per doz.; \$25.00 100

Before planting, ground should be deeply dug and plentiful supplies of stable manure, bone dust or compost worked into the soil. Annual mulch in winter of well-rotted stable manure is of great benefit. Early pickings are inclined to weaken the young plants and cutting should be delayed for at least one full season. A dozen plants should supply ample Asparagus for average-sized family.

BOYSENBERRY

Large deep red fruit fine flavour. Excellent, dessert preserving.

\$1.00

CARICA MICROCARPA MONOICA. MOUNTAIN PAWPAW.

Grow in sheltered frost free location, warm sunny, well-drained and with plenty of water.

\$2.25

CASTANEA SATIVA. CHESTNUT.

Not only provides splendid supply of nuts early winter, makes a magnificent large shade tree. Grows anywhere but prefers cool districts.

\$3.00

CHERRY TANGSHI

Small growing self-fertile variety; small sweet fruits, ideal for home garden.

\$3.00

CHESTNUT.

See Castanea.

CHINESE GOOSEBERRY.

See Actinidia chinensis.

CITRUS FRUITS.

Citrus are generally hardier than is supposed, and, provided shelter from cutting winds, a reasonably good soil and full sun are provided, good results may be expected in most districts. Lisbon and Eureka Lemons succeed in North Island gardens sheltered from heavy frosts. Meyer Lemon gives best results in colder districts. Oranges and Mandarins will prosper in all mild districts. With citrus, particularly Oranges and Mandarins, the fruit borne on young trees is usually disappointing, thick skinned and dry fleshed, but as the tree establishes the fruit becomes larger, thinner skinned and full of juice.

All citrus resent deep cultivation; their fine feeding surface roots dislike disturbance. A well-drained soil, annual mulching with decayed farmyard manure, compost or the like is required.

Although our stock of citrus trees is certified clean and disease free by the Department of Agriculture, Government regulations prohibit citrus trees being sent into the Northland, Auckland Provinces and Hawke's Bay County from other parts of New Zealand. We regret therefore that we cannot supply citrus to clients in these areas.

GRAPEFRUIT. On standard or dwarfing stock.

- **GOLDEN SPECIAL.** A form of N.Z. Grapefruit selected for its prolific bearing of good quality fruit. \$6.00
- MORRISON'S SEEDLESS.** Consistently heavy crops; large golden-yellow, juicy thin-skinned fruit. May to October. \$5.00
- WHEENY.** Thin-skinned, very large pale yellow fruit, sweet and juicy. Spring to November. \$5.00

LEMONS. On standard stock.

- LISBON.** Heavy crops large thin-skinned almost seedless fruit. \$4.00
- MEYER** The most popular Lemon for home gardens. Commences bearing when young, crops heavily year after year; thin-skinned, smooth, bright golden fruit almost throughout year. \$3.00
Larger Plants \$4.50

- **LIME TAHITIAN.** The only lime, so far, found to be satisfactory for N.Z. conditions. Excellent variety for making cool, refreshing drinks. \$5.00

MANDARINS. On standard or dwarfing stock. \$5.00 each

- BURGESS SCARLET.** Sweet fruit, bright orange-scarlet skin. August.
- CLEMENTINE.** Delicious, sweet, medium sized, smooth-skinned. Heavy bearer. Early.
- KARA.** Large, golden-orange fruit. Juicy and richly flavoured.
- SATSUMA KAWANO.** A strain introduced from Japan which compares favourably with other varieties in New Zealand.
- SATSUMA SILVER HILL.** Large, flat, loose-skinned, deep orange fruit. Sweet and practically seedless.
- WRIGHT'S RED.** Very large fruit similar to a naval Orange.

ORANGES. On standard or dwarfing stock. \$5.00 each

- BEST'S SEEDLESS.** Navel Orange, good quality.
- CARTER'S NAVEL.** Sweet and juicy; fine flavour. Peels easily.
- HARWARD LATE.** Very large, juicy and sweet.
- LENG'S NAVEL.** Fine texture, sweet flesh, exquisite flavour.
- LEU GIN GONG.** Large sweet fruit of good flavour. Fruits at an early age.
- RUBY BLOOD.** Medium sized red-fleshed fruit.

TANGELO. On standard or dwarfing stock. \$5.00 each

- Tangelos are citrus hybrids, a cross between Tangerine and Grapefruit. Smooth, thin skinned rich orange colour; peels easily.
- SEMINOLE.** Medium sized, sweet, with fine grained flesh. Sept.-Oct.
- TINIURA.** Yellow, juicy, richly flavoured. October-December.

- **UGLI.** Very large sweet fruit. \$5.00

CORYLUS. FILBERT—HAZELNUT.

CORYLUS AVELLANA SEEDLINGS. Attractive bushy habit growing to height of 15ft. or more. Two or more plants required for cross-pollination. Prefers cool, moist conditions. \$2.00

CORYLUS AVELLANA NAMED VARIETIES. Layered plants from named imported varieties noted for prolific crops of extra large nuts.

COSFORD. Sweet oval nuts. \$2.75

MERVELLE DE BOLVERT. Large sweet nuts. \$2.75

NOTTINGHAM. Large oval nuts. \$2.75

WATERLOO. Large sweet nuts. \$2.75

WISPIT. Round sweet nuts. \$2.75

CRANBERRY. (MYRTUS UGNI).

Small dusky red berries, excellent for jellies and pies. Compact bushes make excellent dwarf hedges; bear abundantly each year. (See also Hedge and Shelter Section). \$1.75

CURRENTS. RED AND BLACK.

Small berried fruits very valuable for pies and jam. Recommended for cool districts, require rich, fairly moist soil.

\$1.00 ea. or \$10.00 per dozen.

FEIJOAS.

Attractive fruiting shrub, deep green leaves, silvery beneath; showy red and white flowers in spring. Delightfully flavoured fruit ripens late autumn/winter. Ideal for salads, jam, stewing or dessert. Thrives in most districts in any good soil, withstands moderate winds. To ensure good crops, at least two feijoas should be planted.

MAGNIFICA. Seedlings from selected large-fruited variety.

Two-year-old plants \$1.75

Four-year-old plants \$2.50

ROUND JON. Cutting grown plants heavy cropping large round fruit.

FIG.

BROWN TURKEY. Prefer a warm sheltered position. Medium large oval, brownish-purple fruit. Flesh deep red and sweet. \$3.00

WHITE ADRIATIC. Good sized, yellow-green fruit. Flesh creamy-yellow, sweet. \$3.00

FILBERT NUT.

See Corylus.

GOOSEBERRIES.

Generally succeed best in the cooler districts, producing an abundance of berries, valuable for pies, jam and stewing.

\$1.00 ea. or \$10.00 per doz.

GRAPE VINES.

\$1.60 each

ALBANY SURPRISE. Almost black, sweet firm fruit. March.

BLACK HAMBURGH. Large bluish-black round fruit. Early March.

CHASSELAS GOLDEN. White dessert. Round fruit. Early March.

CHASSELAS ROSE. Dessert. Large light red fruit. Thin skinned and juicy.

GROS COLMAN. Rich blue, firm and crisp fruit. Mainly grown under glass.

MUSCAT HAMBURGH. Dessert. Egg-shaped fruit. Excellent muscat flavour. Early to mid-season

GUAVAS. (PSIDIUM).

Valuable winter fruiting shrubs, can be grown in all districts where Lemons will thrive. Commences to bear when young, fruit can be eaten fresh or made into jelly.

PURPLE. Deep purplish-red fruit. \$1.75

YELLOW. Golden-yellow fruit mild in flavour. \$1.75

HAZELNUT. See *Corylus*.

LEMON. See *Citrus*.

LOGANBERRIES.

Large deep maroon, flavoursome berries. Excellent dessert, preserving. \$1.00

MACADAMIA TETRAPHYLLA. E. 12ft. QUEENSLAND NUT.

Evergreen tree from the east coast of Australia. Hard shelled nuts, an inch and a quarter in diameter, richly flavoured. \$2.25

MANDARIN. See *Citrus*.

NECTARINES.

Smooth-skinned fruit, juicy, melting flesh. Require similar conditions to Peaches.

FILLERY. Ripens just before Goldmine. Freestone. \$2.25

GOLDMINE. Large freestone fruit. Ripens early February. \$2.25

LE GRANDE. Large firm clingstone fruit of high quality. Mid February. \$2.25

MURRYANA. Large freestone fruit. Flesh white and juicy. Mid-season. \$2.25

STARK DELICIOUS. Very large highly coloured fruit with a gold flush. Mid/late January \$2.25

STARK EARLI BLAZE. Large, gold overlaid red fruit Gold flesh. Freestone, when ripe. December. \$2.25

STARK REDGOLD. Large attractive highly coloured fruit. Golden yellow flesh. Freestone. Early February. \$2.25

STARK SUNGLO. Large round to oblong fruit, partial bright red over yellow-orange. Very firm yellow flesh, slightly acid. Clingstone. Dec.-Jan. \$2.25

- **NECTARINA. DWARF NECTARINE.** This true genetic dwarf growing Nectarine, similar in growth habit to dwarf peach Bonanza, ripens approximately 4 weeks later. In Spring, a mass of large, showy pink blossom is followed by good sized fruit which are richly coloured, juicy and deliciously flavoured. Fruit are produced, on a bush less than 3 feet high, the first or second year after planting. \$5.00

NUTS.

See Almonds-Castanea-Corylus-Macadamia-Walnuts.

OLIVE VERDALE.

Attractive small tree pale, silvery-green leaves. In due course bears heavily good sized, small stoned, black fruit. Quite hardy. \$2.25

ORANGE. See *Citrus*.

PASSIONFRUIT.

ANTIOQUIENSIS. Rich scarlet flowers, then yellow banana-like fruit. \$2.00

CRACKERJACK. Heavy-bearing, giant-fruited cutting grown form of black passionfruit. Rounded fruits, average twice normal size, crammed full of pulp. Fruits from March through to winter. \$1.50 ea.

MOLLISSIMA. Deep pink flowers. Long banana-like fruit, good flavour. \$2.00

PEACHES.

\$2.25 each except where priced.

Ripe fruit available from your orchard for nearly four months, December to March. Well-drained, peaty soil is ideal. An occasional mulching with well-decayed farmyard manure or compost beneficial.

BLACKBOY. Dessert and bottling. Skin almost black, purplish-crimson flesh. Ripens March.

BONANZA. DWARF PEACH. All purpose. Grows wherever ordinary peaches grow. Two to 3ft. high in two years, eventually 6ft. without pruning. Foliage, richer and denser than usual. Beautifully ornamental in flower. From early in life bears heavy crops, large yellow fleshed freestone peaches.

DIXIE RED. Sweet and juicy dessert variety. Semi-clingstone. December.

FAIRHAVEN. Dessert and bottling. Yellow fleshed freestone. Early.

GOLDEN QUEEN. Bottling. Golden yellow flesh. Clingstone. Late March.

HIAWATHA. Distinctive coppery-purple foliage. Single pink flowers, then small edible peaches.

J. H. HALE. Dessert. Very large, highly coloured semi-clingstone fruit. Paragon should be planted for cross-fertilisation. February.

KALAMAZOO. Dessert. Clear, pale yellow flesh, delicious flavour. Freestone. Early February.

LE VAINQUEUR. Dessert. White fleshed freestone. Ripens Dec.

MARY'S CHOICE. Bottling. Yellow flesh freestone. February.

PARAGON II. Dessert. Deep yellow-skin, flesh yellow. Sweet and juicy. Clingstone, Ripens February.

REDHAVEN. All purpose. Yellow flesh, freestone. Dec.-Jan.

REDSKIN. Bottling. Red-skinned, yellow flesh, freestone. Mid-season.

WEeping PEACH. Dessert. Single pink flowers, then heavy crops good quality freestone fruit. Specimens grafted on to 6ft. standards. \$7.50

WEeping PEACH GRANT TAYLOR. Dessert. Yellow flesh. Freestone. Ripens late Feb.-Mar. \$7.50

PEARS.

On dwarfing stock \$2.50 ea.

CLAPP'S FAVOURITE. Dessert. Medium to large fruit. Ripens early to mid season. Recommended pollinators—William Bon Chretien, Winter Nellis, Conference.

CONFERENCE. All purpose. Long handsome fruit, good flavour. Mid season. Self-fertile.

LOUISE BONNE OF JERSEY. All purpose. Medium-sized. March. Recommended pollinator—Conference.

PACKHAM'S TRIUMPH. All purpose. Large fruit. Good keeper. February-March. Recommended pollinator—William Bon Chretien.

WILLIAM BON CHRETIEN. All purpose. Flesh melting and buttery. February. Recommended pollinators—Clapp's Favourite and Winter Nelis.

WINTER COLE. Dessert. Flesh melting and juicy. March. Recommended pollinators—William Bon Chretien and Winter Nelis.

WINTER NELIS. Dessert. Medium sized russet fruit, rich flavour, juicy. March. Recommended pollinator—William Bon Chretien, Conference, Packham's Triumph.

PLUMS.

\$2.25 ea.

Plums, the hardiest of all fruit trees, require little attention beyond pruning and occasional spraying. Careful selection of varieties can provide fresh, tree-ripened fruit December to March.

ANGELINA BURDETT. Dessert. English plum, dark purple, highly flavoured fruit. Early. Self-fertile, a suitable pollinator for Greengage.

BILLINGTON'S EARLY. Bottling. Dark skin blood-red flesh. December. Recommended pollinators—Omega, Purple King and Wilson's Early.

BLACK DORIS. Bottling. Dark skin, yellow flesh. February. Recommended pollinators—Sultan, Wilson's Early.

BURBANK. Dessert. Large, red-skin, yellow flesh. January. Self-fertile.

COE'S GOLDEN DROP. All purpose English plum. Large oval fruit, pale yellow tinged orange. Recommended pollinator—Greengage.

GREENGAGE. All purpose. Round yellowish-green fruit, rich, tender flesh. March. Recommended pollinators—Angelina Burdett, Coe's Golden Drop.

OMEGA. (GEORGE WILSON). All purpose. Large freestone blood-red, sweetly flavoured. Early March. Self-fertile.

PURPLE KING. All purpose. Dark purple skin, wine-coloured flesh. February. Recommended pollinator—Billington's Early.

SATSUMA. Bottling. Round blood-red fruit. Freestone. February. Self-fertile.

SULTAN. All purpose. Large, dark, crimson flesh. January. Suggested pollinators—Burbank, Black Dorris, Omega.

WILSON'S EARLY. (RED CHERRY PLUM). Bottling. Large, dark, cherry-like fruit. December. Self-fertile.

QUINCE. CYDONIA OBLONGA. Small tree.

No fruit has a more delightful fragrance when picked. Is splendid for preserves. Flesh a beautiful dark red when cooked. Thrives and bears almost anywhere, particularly along banks of creeks or drains. \$2.50

CYDONIA SINENSIS. CHINESE QUINCE. Semi-evergreen large shrub. Pink flowers in Spring followed by large egg-shaped fruit. \$2.00

RASPBERRIES. Require deep, rich, rather heavy soil. \$3.00 doz.

LLOYD GEORGE. A general purpose raspberry noted for quality, size of fruit and regularity of crops.

MARCY. Vigorous, large fruiting variety.

RHUBARB.

CRIMSON WINTER. Winter bearing, large, long red stalks; crisp, juicy, with excellent flavour. Requires rich soil and annual mulches of well-rotted farmyard manure or compost.

90c ea. 5 for \$3.50

STRAWBERRIES.

\$1.00 per dozen

CAMBRIDGE FAVOURITE. Very early fruiting, three to four weeks before Red Gauntlet.

RED GAUNTLET. Large, early fruiting, heavy yields. Attractive showy berries.

TIOGA. Mid season fruiting. Large tasty fruit of excellent flavour.

TAMARILLO. (TREE TOMATO).

Plant in warm sheltered position. Very rapid growth; heavy crops of egg-shaped fruit in winter. Excellent for eating raw, stewing, chutney and sauce.

● **RED CHIEF.** Cutting grown, selected variety, very large, dark red egg-shaped fruit. \$2.00

RUBY RED. Seedling grown plants with dark red egg-shaped fruit. \$1.75

YELLOW. Seedling grown plants with bright orange-yellow fruit. \$1.75

TANGELO. See Citrus.

WALNUT.

Handsome, deciduous shade trees, perfectly hardy anywhere, but take several years before bearing.

ENGLISH VARIETY. Seedling plants from selected stock. \$3.00

WILSON'S WONDER SEEDLING. Seedling plants from selected stock. \$3.00

ASSOCIATION

Hedge and Shelter

HEDGE, SHELTER AND TIMBER TREES.

Nothing adds more to the general appearance of your home than neat well chosen hedges. They provide shelter, seclusion, beauty and charm. There are tall, narrow types giving privacy without taking space; others of medium height; still others of dwarf habit for low divisions or edging.

FOR THE FARM. Tree planting is a vital part of farm economy. They protect stock and crops from adverse weather, suppress noxious weeds in odd corners and gullies, provide shelter, arrest erosion and develop into valuable assets. For descriptions, see main Catalogue.

PRICES. The 100 rate applies to quantities of 50 or more. Smaller lots are charged at the dozen rate.

The height shown is the approximate height hedges can be satisfactorily trimmed to.

ABELIA GRANDIFLORA. Height 3-6ft. Plant 1ft apart.

\$4.50 per dozen; \$35.00 per 100

ACACIA LONGIFOLIA. Height 8-14ft. Plant 18ins. to 2ft apart. Suitable for coast.

\$6.50 per dozen \$50.00 per 100

CAMELLIAS. In variety. Suitable for hedges of 6 to 10ft. in height. Plant 30 inches to 4 feet apart.

\$10.00 per dozen \$70.00 per 100

CASUARINA CUNNINGHAMIANA. RIVER SHEOKE. Height 5-15ft. Plant 15in. to 18in. apart. Rapid growing. Pot grown plants.

\$6.50 per dozen; \$50.00 per 100

CASUARINA GLAUCA. SWAMP SHEOKE. Height 5-15ft. Rapid growing. Suitable coast. Plant 15in. to 18in. apart. Pot grown plants.

\$6.50 per dozen; \$50.00 per 100

CEDRUS DEODARA. HIMALAYAN CEDAR. For permanent tall shelter in dry climates or shingly soils.

\$6.00 per dozen; \$45.00 per 100

CHAMAECYPARIS LAWSONIANA. Plant 30-36in. apart for hedges, 6-9ft. apart for for large windbreaks.

2-year plants \$4.50 per dozen \$35.00 per 100

3-year plants \$6.00 per dozen; \$45.00 per 100

COPROSMA REPENS. TAUPATA. Height 3-6ft. Withstands heavy salt-laden winds. Pot grown plants.

\$6.50 per dozen; \$50.00 per 100

COROKIA BRONZE KING. Height 4-8ft. Plant 18in. apart.

\$6.50 per dozen \$50.00 per 100

COROKIA CHEESEMANII (ERECTA). Height 4-8ft. Plant 18in. apart.

\$6.50 per dozen; \$50.00 per 100

CUPRESSOCYPARIS LEYLANDII. Height 10-15ft. Hedges plant 30ins. to 3ft. apart. For windbreaks plant 5ft. to 8ft. apart. Fast growing.

\$6.00 per dozen \$45.00 per 100

CUPRESSUS ARIZONICA. 3ft. apart for hedges, 6ft apart for windbreaks. Drought resistant. Pot grown plants.

\$6.50 per dozen; \$50.00 per 100

CUPRESSUS BENTHAMII. 3ft. apart for hedges, 6ft. apart for windbreaks. Suitable damp soils. Pot grown plants.

\$6.50 per dozen \$50.00 per 100

CUPRESSUS MACROCARPA. 3ft. apart for hedges, 6ft. apart for windbreaks. Coastal areas. Pot grown plants.

\$6.50 per dozen; \$50.00 per 100

DODONAEA VISCOSA. Height 8-15ft. Plant 3ft. apart. Pot grown plants
\$6.50 per dozen; \$50.00 per 100

DODONAEA V. PURPUREA. Height 8-15ft. Plant 3ft. apart. Pot
grown plants. \$6.50 per dozen; \$50.00 per 100

ESCALLONIA EXONIENSIS. Height 3-8ft. Plant 1ft. apart. Ideal com-
bination for coastal hedges is, two plants Escallonia, one plant
Tecoma alternately. \$4.50 per dozen; \$35.00 per 100

ESCALLONIA FIELD'S SCARLET. Height 3-8ft. Plant 1ft. apart. Coastal
hedges may be combined as above. \$4.50 per dozen; \$35.00 per 100

LARIX DECIDUA. A fine forestry or tall shelter tree for cold
climates and high altitudes.

\$6.00 per dozen \$45.00 per 100

LIGUSTRUM AUREUM MARGINATUM. (GOLDEN PRIVET). Height 2-4ft.
Plant 18in. apart. \$5.00 per dozen; \$40.00 per 100

LONICERA NITIDA. Height 1-4ft. Small dark green box-like leaves.
Plant 1ft apart. \$4.50 per dozen; \$35.00 per 100

MYOPORUM LAETUM. NEW ZEALAND NGAIO. Height 6-12ft. Drought
resistant and recommended for seaside and exposed wind-swept
conditions. Plant 30in. apart. Pot grown plants.

\$6.50 per dozen; \$50.00 per 100

MYOPORUM SERRATUM. TASMANIAN NGAIO. Height 6-12ft. Drought
resistant. Recommended for coastal and exposed wind swept
conditions. Plant 30in. apart. Pot grown plants.

\$6.50 per dozen; \$50.00 per 100

MYRTUS UGNI. CRANBERRY. Height 1-4ft. Compact dwarf division
hedge. Plant 1ft. apart. Pot grown plants.

\$6.50 per dozen; \$50.00 per 100

OLEARIA ANGULATA. Height 6-12ft. Thrives in poor soil, very dry
dry and coastal districts. Plant 18in. apart.

\$6.50 per dozen; \$50.00 per 100

PHEBALIUM ILLUMINATION. Height 5-8ft. Plant 2ft. apart
\$6.50 per dozen; \$50.00 per 100

PHEBALIUM SQUAMEUM. Height 6-12ft. Withstands wind and salt
spray. Plant 2ft apart. \$5.00 per dozen; \$40.00 per 100

PHOTINIA RED ROBIN. Height 4-8ft. Plant 1½ to 2ft. apart.
\$6.50 per dozen; \$50.00 per 100

PHOTINIA ROBUSTA. Height 4-8ft. Plant 1½ to 2ft. apart.
\$6.50 per dozen; \$50.00 per 100

PITTOSPORUM CRASSIFOLIUM. Height 8-14ft. Plant 2ft.
apart. Invaluable coastal shelter.

\$6.50 per dozen \$50.00 per 100

PITTOSPORUM EUGENIODES. TARATA. LEMON MATIPO. Height
6-12ft. Will grow where the soil is dry and poor. Plant 2ft. apart.
Pot grown plants. \$6.50 per dozen; \$50.00 per 100

POMADERIS APETALA. TAINUI. Height 6-12ft. Recommended for
quick shelter and seaside planting. Plant 1½ft. apart. Pot grown
plants. \$6.50 per dozen; \$50.00 per 100

POPULUS NIGRA CHILENSIS \$5.00 per dozen; \$35.00 per 100

POPULUS NIGRA ITALICA. LOMBARDY POPLAR.

\$4.50 per dozen; \$35.00 per 100

POPULUS NIGRA ITALICA SUNLIGHT. \$5.00 per dozen \$40.00 per 100

POPULUS ROBUSTA ZEELAND. \$4.50 per dozen; \$35.00 per 100

POPULUS YUNNANENSIS. \$4.50 per dozen; \$35.00 per 100

PSEUDOTSUGA MENZIESII. OREGON PINE. DOUGLAS FIR. Prefers inland districts, good rainfall and free open soil. Government regulations prohibit the supply of Pines and Douglas Fir to South Island or districts west of main ranges and north of Pukekohe in North Island.
\$5.50 per dozen. \$42.50 per 100

ROSMARINUS TUSCAN BLUE. Height 2-5ft. Plant 1ft. apart.
\$6.00 per dozen; \$45.00 per 100

SEQUOIA SEMPERVIRENS. CALIFORNIAN REDWOOD. Valuable timber tree; prefers inland areas and moist conditions.
\$5.50 per dozen; \$42.50 per 100

TECOMA CAPENSIS. Deep green foliage with bright, orange-scarlet flowers. Trims to dense windproof hedge. Must have some form of support. Valuable for interplanting in hedges. (see Escallonia). Plant 1ft apart.
\$6.00 per dozen; \$45.00 per 100

TEUCRIUM FRUTICANS. Height 4-6ft. Plant 18ins. to 2ft apart. Valuable coastal hedge.
\$5.00 per dozen \$40.00 per 100

THUJA PLICATA. For trimmed hedges to 10ft. Plant 30in. apart. For large wind breaks plant 6ft. to 9ft. apart.
2-year plants \$4.50 per dozen; \$35.00 per 100
3-year plants \$6.00 per dozen; \$45.00 per 100

PLANTS and PLACES

A Guide for Gardening Planning and Ordering

If plants were able to choose their own place in the garden there would be a rush by the light lovers for a place in the sun, and a retreat to the shady spots by those which had been enduring unaccustomed and unwanted heat. High, dry banks would willingly be traded for the lower slopes, and moisture; light soil abandoned for deep, cool root runs.

The first time we presented the service of "plants and places" it was received most enthusiastically, so we have continued it and, where necessary, expanded the lists. It is designed to help in laying out a garden and in ordering. The information should be read in conjunction with that given in the catalogue itself for the plants themselves.

PLANTS FOR PLACES

SHRUBS RECOMMENDED AS GROUND COVER

Arctostaphylos	Hebe Varieties
Arundinaria Pymaea	Hedera
Callistemon C. Prostrata	Helicrysum
Calluna Varieties	Hypericum Varieties
Camellia Brigadoon	Juniperus C. Depressa Aurea
Camellia Chansonette	Juniperus C. Depressed Star
Camellia Elegant Beauty	Juniperus C. Repanda
Camellia Mine No Yuki	Juniperus Conferta
Camellia Showa No Sake	Juniperus Horizontalis Varieties
Ceanothus Emily Brown	Juniperus M. Pfitzeriana Varieties
Ceanothus Gloriosus	Juniperus Procumbens
Ceanothus Hurricane Point	Juniperus S. Tamariscifolia
Ceanothus Joyce Coulter	Juniperus T. Lutchuensis
Ceratostigma	Lantana Varieties
Cistus	Pachysandra Terminalis
Coprosma	Parahebe Lyallii
Cotoneaster (Spreading Varieties)	Phormium Varieties
Erica Carnea Varieties	Podalyria Sericea
Erica Cinerea Varieties	Podocarpus Alpinus Lawrenceii
Erica M. Rosslare	Podocarpus Nivalis
Erica V. Mrs. Maxwell	Potentilla Varieties
Euonymus F. Gracilis	Rosmarinus Varieties
Euonymus F. Minima	Senecio Varieties
Felecia	Silene Venosa
Ficus Pumila Minima	Salix Morrei
Grevillea (Spreading Varieties)	Thuja Occ. Rheingold

HERBACEOUS PLANTS RECOMMENDED AS GROUND COVER

* Prefer Shade

Acaena	Fuchsia Procumbens
Ajuga	* Gunnera
Arenaria	* Helxine
Arthropodium	Lippia Nodiflora
* Calceolaria Repens	Nertera
Carex	Polygonum Vaccinifolium
Cortaderia	Pennisetum
Dianella	Pratia Angulata
* Elatostema	Raoulia
Festuca	Saponaria

DWARF PLANTS FOR ROCK GARDENS

Adenandra Fragrans	Hedera Varieties
Adenandra Uniflora	Hypericum Moserianum Tricolor
Astelia	Hypericum Sungold
Azalea Gumpo Varieties	Juniperus Communis Compressa
Berberis	Juniperus Communis Depressa
Calluna Varieties	Aurea
Carex Varieties	Juniperus Procumbens
Chamaecyparis Lawsoniana Minima	Juniperus Sabina Knaphill
Chamaecyparis Obtusa Nana	Juniperus Sabina Tamariscifolia
Chamaecyparis Obtusa Nana Aurea	Lantana Golconda
Chamaecyparis Pisifera Filifera	Leptospermum Nanum and Hybrids
Aurea	Nandina Domestica Pygmaea
Cistus Varieties	Parahebe Lyallii
Convolvulus Cneorum	Pennisetum Ruppellii
Coprosma Beatsons Gold	Phormium Tenax Rubrum
Coprosma Brunnea	Phormium Colensoi Tricolor
Coprosma Kirkii	Pinus Mugo
Coprosma Prostrata	Pittosporum Tom Thumb
Cotoneaster Horizontalis	Podalyria Sericea
Cotoneaster Thymifolius	Podocarpus Nivalis
Dacrydium Biforme	Potentilla Vars.
Daphne Cneorum	Olearia Nummularifolia
Dianella Intermedia	Raoulia Varieties
Erica Varieties	Rosmarinus Lavandulaceus
Euphorbia Splendens	Rosmarinus Varieties
Felicia Angustifolia	Schizocentron Elegans
Festuca Varieties	Silene Venosa
Gunnera Prorepens	Sophora Miniature Varieties
Hebe Varieties	Thuja Occidentalis Rheingold

TREE PLANTING TABLE

Table showing the number of trees required to plant an acre of land at stated distances apart:

Distance apart each way	No. per acre	Distance apart each way	No. per acre
1 foot	43,560	13 feet	257
2 feet	10,890	14 feet	222
3 feet	4,840	15 feet	193
4 feet	2,722	16 feet	170
5 feet	1,742	17 feet	150
6 feet	1,210	18 feet	134
7 feet	890	19 feet	120
8 feet	680	20 feet	108
9 feet	537	25 feet	69
10 feet	435	30 feet	48
11 feet	360	35 feet	35
12 feet	302	40 feet	27

SHRUBS FOR SEASIDE AND COASTAL GARDENS

DWARF

Acaena Inermis	Grevillea Obtusifolia
Arthropodium Cirrhatum	Hebe Varieties
Astelia Banksii	Juniperus Communis Compressa
Callistemon Comb. Prostrata	Juniperus Communis Depressa
Calluna Varieties	Aurea
Carex Varieties	Juniperus Communis Repanda
Ceratostigma Willmottianum	Juniperus Conferta
Cistus Varieties	Juniperus Horizontalis Plumosa
Convolvulus Cneorum	Juniperus Procumbens
Cordylone Kirkii	Juniperus Sabina Tamariscifolia
Coprosma Brunnea	Lantana Varieties
Coprosma Kirkii	Lavandula English
Coprosma Prostrata	Leptospermum Nanum Hybrids
Cotoneaster Horizontalis	Libertia Varieties
Cotoneaster Thymifolius	Phormium
Dianella Intermedia	Potentilla Varieties
Erica Varieties	Rosmarinus Varieties
Festuca Varieties	Senecio Varieties
Grevillea Alpina Dallachiana	Silene Venosa
Grevillea Fasciculata	

MEDIUM

Acacia Cardiophylla	Polygala Myrtifolia Grandiflora
Acacia Leprosa	Pomaderris Kumeraho
Acacia Pravissima	Cotoneaster Harrovianus
Beaufortia Sparsa	Cytisus Varieties
Buddleia Varieties	Grevillea Varieties
Callistemon Citrinus Spondens	Hebe Varieties
Cassia Varieties	Juniperus Pfitzeriana Aurea
Ceanothus Varieties	Juniperus Pyramidalis
Clianthus Puniceus Varieties	Leptospermum Varieties
Coleonema Pulchrum	Mahonia Varieties
Coprosma Varieties	Nerium Varieties
Cortaderia	Protea Varieties
Phormium Varieties	Raphiolepis
Plumbago Capensis	Senecio Varieties
Podalyria Sericea	Symphoricarpos Albus

TALL

Acacia Longifolia	Garrya Elliptica
Acacia Podalyriifolia	Geniostema Ligustrifolium
Agonis Juniperina	Grevillea Asplenifolia
Banksia Collina	Griselinia Littoralis
Banksia Ericifolia	Kunzea
Brachyglottis Varieties	Olearia Varieties
Coprosma Varieties	Pittosporum Varieties
Corokia Varieties	Podalyria Calyptrata
Cotoneaster Cornubia	Pomaderris Apetala
Dryandra Formosa	Pseudopanax Varieties
Dysoxylum Spectabile	Spartium Junceum
Entelea Arborescens

OUR GUARANTEE: We do our best to ensure that at the time our plants leave our nursery they are true to name and healthy and provided they have not been damaged in transit and are planted promptly and are properly cared for and are not exposed to abnormal conditions, we guarantee to replace any plant which, within four months from the day of despatch from our nursery, is found to be not true to name or which does not live and grow. If no notification of any claim is received by us by the expiry of the period of four months then this guarantee ceases to be effective. Any other express or implied conditions, statements or warranties, statutory or otherwise, are in any event hereby excluded. If the purchaser does not wish to accept goods under the above conditions they are to be returned to us at once.

Juniperus Pyramidalis	

HORTICULTURAL APPRENTICES

QUALIFICATIONS

Academic: School Certificate or equivalent.

Age: The minimum starting age is 15½ years.

Experience: No previous experience necessary, but a genuine interest in plants is essential.

At the discretion of the Apprenticeship Committee, previous Horticultural experience can be credited against the term of the contract.

Selected apprentices may be required to prepare themselves for the New Zealand National Diploma in Horticulture as laid down by the Royal New Zealand Institute of Horticulture.

Written applications should be addressed to the Personnel Manager, Duncan & Davies Ltd., P.O. Box 340, New Plymouth.

HANDLING PLANTS ON ARRIVAL

With all plants there are important basic rules for handling to ensure results.

ON ARRIVAL: Partially unpack your order and keep in a moist, shady, draught-free position until you are ready to plant. Soak balled or potted items for a few minutes if planting is to be delayed. Always plant promptly but avoid adverse weather conditions, particularly high winds. If there is delay ensure your plants do not become dry. Your order will arrive adequately packed for its time in transit in one or more of the following ways:—

- (1) **AS A BALLED PLANT:** i.e. wrapped in hessian or similar material and tied with twine.
- (2) **GROWING IN A PLASTIC POT OR BAG.**
- (3) **BARE ROOT,** packed in wet moss or shavings, and wrapped in hessian or polythene.

PLANTING: Each method requires a little different handling. Although plants generally survive the most casual approach, correct preparation prior to planting pays dividends.

4 to 8 weeks in advance, dig the ground thoroughly adding soil conditioners where necessary such as farmyard manure, compost, peat, leaf moulds, seaweeds, etc. These conditions can be further improved by adding Blood and Bone at the rate of 2 lb. to a large barrowful.

A balanced fertiliser at least three weeks before planting is also beneficial, i.e. 2 parts Superphosphate, 1 part Sulphate of Potash, 1 part Sulphate of Ammonia, applied at 4 oz. per square yard.

When planting ensure that the hole is larger than the root system, plant to the soil mark showing on the plant's stem, and firm well. If staking is necessary, position these before planting to avoid root damage. In exposed positions temporary shelter should be provided using polythene, hessian or similar, until the plant is established. Then handle the different types in the following manner:—

(1) BALLED PLANTS

- (a) Cut and remove twine.
- (b) Roll back hessian from top. If it adheres to root structure, plant with plant, otherwise remove carefully.
- (c) Place plant upright in prepared hole, fill with soil and firm well.

(2) PLANTS IN POTS OR BAGS

- (a) Ease, cut or tear away container, ensuring that the fine roots are not damaged. If pot will not come away easily, soak for a few minutes.
- (b) If roots have started to spiral around pot carefully unravel.
- (c) Place plant upright in prepared hole, fill with soil and firm well.

(3) ROOTS BARE OF SOIL (mainly deciduous plants)

- (a) Remove from wrapping material.
- (b) If any roots have been damaged in transit, trim with secateurs.
- (c) Form a slight mound in bottom of hole.
- (d) Place upright, spreading roots evenly and around this mound, fill with soil and firm well.

Nectarina

A NEW DWARF NECTARINE TREE

Fruit Just wait until you sample your first tree-ripened fruit of Nectarina. Even the appearance is inviting – big mirror-smooth fruits coloured rich deep red overlaid on yellow. The juicy yet firm flesh is golden-orange in colour and loaded with a sweet yet exhilarating flavour which tops that of any peach. Nectarina will generally follow Bonanza Peach by about four weeks.

Nectarina

A New Dwarf Nectarine Tree

Nearly 30 years of research in the U.S.A. developing a new race of dwarf fruit trees has not been confined to working with peaches alone. We are proud to have released to the public of New Zealand Bonanza, the outstanding dwarf peach, but because nectarines have a richness and sprightliness to their flavour which is not quite equalled in peaches, we've been working for a good dwarf nectarine — now we have it!

**Now enjoy "Full size fruit" from a tree less than
3 feet tall!**

Here, too, is a true genetic dwarf — one to stay neat, compact and beautifully ornamental throughout its lifetime. There is no 3 to 4 year wait for fruit, either. Generally, the handsome little tree of Nectarine will fruit in the first or second year after planting, and produce amazing crops while less than 3 feet tall. Planted with Bonanza the dwarf peach (the trees are almost identical in appearance), you'll have a miniature home orchard" which is the sensation of your neighbourhood.
