July 1978

Dear Sirs,

We at Duncan & Davies are proud of our long service record in relation to our dealings with Local Bodies. This record we wish to maintain and increase in future years and we trust will continue to constructively serve Local Body needs.

We can with some confidence state that we carry the widest product range in New Zealand and within this range specialise in exotic ornamental deciduous trees and shrubs along with our own native flora. In most instances we will have the product you require available, however, if we cannot supply specific requirements on request we are fully prepared to grow such requirements on a contract basis to your specifications.

All Local Bodies should have received our July Trade List, if you are not in receipt of same please inform this office and a list will be immediately despatched.

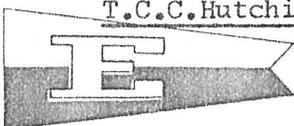

To supplement the July List we attach a list covering product we feel may be of interest and as an additional service incorporating the following additional features :-

1. Special offers - Special prices to prevail until supplies are exhausted.
2. Where available a range of grade sizes are offered - particularly advantageous to the organization with nursery or growing-on area available.
3. We have endeavoured to provide basic down to earth product information to assist in arriving at a correct plant for situation selection.
4. We have detailed where product is in 'limited supply' and with these plants availability will be on a first come first served basis.
5. Finally we offer Parks & Reserves the opportunity to book forward orders of Duncan & Davies NEW ROSES for 1979, all - except for one variety - incorporating a SPECIAL OFFER OF 3 FREE ROSE BUSHES WITH EVERY SEPARATE MINIMUM ORDER OF 12 BUSHES. We would greatly appreciate your labelling of any such rose bed established with the name of the particular rose or roses for the viewing public's information and education.

Please feel free to enquire for any further background information regarding these roses, or any other plant you may require not included in the attached list.

Yours sincerely,

T.C.C. Hutchinson, Sales Manager.

MEET the friendly knowledgeable SALES STAFF at DUNCAN & DAVIES

Colin has been with DUNCAN & DAVIES for four years and during this period has carried out the duties of GROWING-ON Supervisor — Senior Supervisor FIELD OPERATIONS — RETAIL SALES MANAGER and N.Z. SALES MANAGER.

Colin brings a wealth of experience to his new position having travelled the world widely — leaving his native U.K. in 1960 and travelling Europe, USA and Canada before coming to N.Z. Experience covers a wide field — office administration, accounting, forestry, nursery growing, Garden Centre operations and Landscape design and management.

Colin obtained the ONTARIO DIPLOMA in HORTICULTURE specialising in NURSERY MANAGEMENT a three-year study programme at the ONTARIO AGRICULTURAL COLLEGE, GUELPH, CANADA — 1969.

With two daughters married to New Zealanders, Colin feels that it is time to stop his world travels — especially when in four years he has become a real nut on N.Z. native flora.

Call on Colin for sales and advice on plants, or if you are new in the Garden Centre game he is always willing to assist with advice on Garden Centre establishment and operations.

ROBYN WILLIS is married with two beautiful little girls and a dedication to plants, which is second to none. Robyn controls the sales office operations and superintends the activities of her staff of six. Robyn brings a wide range of administrative skills to her position, and controls deleting — invoicing — lifting labelling — investigating problems — keeping the despatch shed supplied with orders and information — and after all this, finding the time to be her very charming self on the telephone — so give her a ring folks and place your order.

SALES REPRESENTATIVES:

“MACK”McKINNON —
phone TITIRANGI 5518.

Territory covered:

Northern section of the North Is. from NAPIER to AUCKLAND northwards.

Mack has been with D & D's for over a year now and had the difficult job of following a very good act, namely Norm Lambert, who covered the territory for so many years. Mack has proved more than capable in following Norm's footsteps and has introduced his very wide financial, administrative and plant knowledge to his duties and customers. Mack is dedicated to the maxim “CUSTOMER SERVICE” is all important and he represents the customer's interest with all his might.

GRAEME McPHERSON —
Phone Palmerston North
89-382

Territory covered:

Southern section of the North Island from HASTINGS/ NEW PLYMOUTH to WELLINGTON.

Graeme, like Mack, has been with the Company for just over one year and in that time has made himself indispensable to his customers. A friendly personality and careful attention paid to detail, plus honest effort and the desire to help his customers all he can signals Graeme out for a long career with Duncan & Davies. Graeme brings a wide horticultural knowledge to his position. A four-year apprenticeship in the trade followed by nursery and Garden Centre duties and three year's sales experience in another industry fits Graeme admirably for his present duties.

A83	CHAENOMELES SUNSET GOLD - Single rose pink flowers. - Compact habit.	70/80	-2.20-

ALL THE ABOVE CHAENOMELES REQUIRE A POSITION IN FULL SUN AND WILL TOLERATE AND PERFORM WELL UNDER MOST SOIL CONDITIONS. - VERY HARDY AND CAN WITHSTAND EXTREMES OF HEAT AND COLD. - PROLIFIC IN FLOWER FOR A LONG PERIOD DURING SPRING. IDEAL CHILD OR ANIMAL PROOF PLANTS - GOOD FOR BLOCKING OFF PRIVATE AREAS, DIRECTING PEDESTRIAN TRAFFIC FLOW, SPECIMEN PLANTING WHERE EARLY FLOWER REQUIRED, PLANTING BANKS, COLOURFUL LOW HEDGES.

A84	CHIMONANTHUS PRAECOX Native habitat China - A bushy compact shrub to 2.5m in height and similar in diameter. Flowers produced late Winter, yellow, inner petals purplish - very fragrant.	60/70	1.40	0.65
We have well branched plants available of a good grade and at a reasonable price. Plant in parks near pedestrian traffic flow where early flowers and fragrance can be best appreciated.				
A85	CORNUS BAILEYI - Native of eastern N.America - a small shrub to 2m with many red stems - especially bright in Winter. Specially recommended on light soils.	70/80	1.60	0.55
A86	CORYLUS SPICATA Native of Japan - A wide spreading bush to 2m in height. - Late Winter/early Spring flowering - fragrant yellow blooms hang from branches in some quantity. Hardy - landscape uses similar as for CHIMONANTHUS.	30/40	-2.35-	0.35

A87	CORYLUS MAXIMA PURPUREA	<u>SPECIAL \$2.20</u>	70/80	-2.90-	0.65
	Native of S.Europe -	<u>SPECIAL \$1.90</u>	50/60	-2.60-	0.65
	A robust shrub to 2.5m in height and width. Foliage dark purple with purple catkins. Very effective in Spring, but holds leaf colour well into Summer - eventually turning bronzy-green. Exeellent colour contrast with gold, or yellow/green variegated plants.				
A88	COTINUS AMERICANUU		80/100		2.20
	Native to South eastern U.S.A. in isolated localities. A large shrub or small tree to 4m or more at maturity. Foliage good througout year, but especially spectacular in Spring and Autumn. Grows and performs best in poorer soil types. Well shaped plants available.				
A89	COTINUS COGGYGRIA ROYAL PURPLE - Smokebush		50/60		2.35
	Native of Europe through Himalayas to China. A large shrub to 3m or more at maturity - spectacular purple foliage and floral effects - even better foliage effect if kept severely pruned back each season. As for AMERICANUS performs best in poor soils. Tremendous foliage effects can be achieved by associating with yellow, grey, pale green or variegated foliated plants. Well shaped plants available.				
A90	COTONEASTER BULLATA FINEBIRD - NEW 1978				
	Native of W.China -	<u>SPECIAL \$1.50</u>	70/80	-2.40-	
	A tall shrub to 3-4m in height of few arching branches. Dark green leaves felted beneath with grey down. Small pear shaped brilliant red berries. Good as light shade cover for evergreen AZALEAS or similar plants requiring some shade.				
A91	COTONEASTER CONGESTUS -	<u>SPECIAL \$1.50</u>	30/40W	-4.70-	
	Native of Himalayas - A true evergreen shrub of low, compact, dense habit with bright red berries. A good shrub for front of border or associating with alpines or heathers.				
A92	COTONEASTER CONSPICUUS DECORUS -				
	Native of S.E.Tibet -	<u>SPECIAL \$1.50</u>	30/40W	-4.70-	
	An evergreen shrub of variable habit, usually low growing and spreading. Scarlet berries.				
A92	COTONEASTER CONSPICUUS LARGE BERRY -				
	As above with pro-	<u>SPECIAL \$1.50</u>	50/60W	-2.00-	
	lific crops of large berries.				
A93	COTONEASTER DAMMERI	<u>SPECIAL \$1.50</u>	30/40W	-4.70-	
	Native of Central China - A prostrate evergreen shrub with slender creeping stems keeping close to ground. Berries coral red. A very useful ground cover and especially good on banks - suppressing weed and containing erosion.				
A94	COTONEASTER DAMMERI ROYAL BEAUTY -				
	NEW 1977 - a good	<u>SPECIAL \$1.50</u>	30/40W	-4.70-	
	cultivar taller growing than the species - to 65cm, but performing a similar carpeting role. Berries coral red and quite prolific				

A95	COTONEASTER DAMMERI SKOGHOLM	<u>SPECIAL \$1.50</u>	40/50W	4.85	
	A vigorous form with prostrate pendulous branches making mats up to 50cm. - Very sparse in berry. Raised in Sweden in 1950. - Very good bank cover.				
A96	COTONEASTER HORIZONTALIS	<u>SPECIAL \$1.50</u>	40/50W	4.85	
	Native of China. - A low growing shrub of flat habit, rarely more than 75cm in height. Glossy green leaves carried along branches in herringbone fashion. Prolific in flower and fruit. A first rate shrub with many uses.				
A97	COTONEASTER HORIZONTALIS SUPERBA	<u>SPECIAL \$1.50</u>	40/50W	4.85	
	Similar to the species, but more robust in habit with larger leaves and berries.				
A98	DAPHNE BURKWOODII SOMERSET		20/30	2.05	
	An interesting cross between D.CAUCASICA and D.CNEORUM made by Albert and Arthur Burkwood. - An upright growing semi-evergreen shrub to 1m - masses of fragrant pink flowers.				
A99	DAPHNE BURKWOODII VARIEGATA		20/30	1.85	
	A variegated cream margined form of the above - semi-evergreen to 1m - fragrant pink flowers. Both above DAPHNES useful foliage subjects and good subjects for the fragrant garden.				
A100	DEUTZIA SCABRA CANDIDISSIMA	- Limited supply	60/70	1.85	0.55
	Native to Japan and China. - A tall erect growing shrub to some 3m at maturity. Prolific flowering double white.				
A101	ENKIANTHUS CAMPANULATUS	- Limited supply	30/40	2.35	0.35
	Native to Japan. - An erect branched shrub to 2.5m at maturity. Fast to grow, but demands acid soil conditions. Sulphur yellow flowers in profusion - Autumn foliage effects.				
A102	EXOCHORDA RACEMOSA	<u>SPECIAL \$1.75</u>	80/100	2.40	0.65
	Native of N. China. -				
		<u>SPECIAL \$1.60</u>	70/80	4.95	0.65
		<u>SPECIAL \$1.45</u>	60/70	4.90	0.65
	A bushy rounded shrub to 3m at maturity carrying huge crops of large white flowers in late Spring. Good grades offered at special prices.

CONDITIONS OF SALE

DUNCAN & DAVIES LTD take the greatest care to have all trees and shrubs sold by them to the best of their knowledge true to name and description, but any expressed or implied condition, statement or warranty, statutory at commonlaw or otherwise, as to growth, description or quality of productiveness is hereby excluded and the Company will not undertake to replace failures, or be responsible for the crop. IF THE PURCHASER DOES NOT ACCEPT THE GOODS SOLD TO HIM ON THESE TERMS THEY ARE TO BE RETURNED AT ONCE AT PURCHASERS COST. Duncan & Davies Ltd reserves the right to adjust prices, without notice, to meet any unforeseen circumstances.

TERMS OF BUSINESS

1. All prices shown on lists will include freight, packing and label charges. However, for any order of less than 50 plants we will charge freight at cost as an additional item.
2. Our normal Wholesale Trade prices will apply.
3. No quantity discounts will apply, but for large quantities of pre-ordered specific material, prices could be arrived at by mutual arrangement.
4. Wherever possible we would request orders to be not less than 50 plants in multiples of 5 of any one variety. However, single items within an order of 50 plants in multiples of 5, would be given our consideration if available, carrying the surcharge of 25% each single item.
5. ACCOUNTS : Payment is due on the 20th of the month following delivery.
6. CLAIMS : All goods are despatched uninsured and at buyer's risk. Claims for discrepancies will only be considered if we are advised on receipt of order. Claims for losses or damage in transit should be lodged promptly, DIRECT TO THE TRANSPORT ORGANISATION (i.e. NZ Railways or Road Carriers) concerned - NOT to this Company.

We are more than pleased to show you our Nursery and discuss your requirements, so please visit with us if time allows. We ask only one small courtesy - please ensure you convey at least 24 hours notice of arrival in New Plymouth. The Nursery is located some 9 miles north of our New Plymouth Head Office and such notice allows time to arrange for a smooth visit. New Plymouth Airport is situated half way between New Plymouth and D & D Nursery location, so we can arrange to meet aircraft and provide transport to the Nursery and back to the airport, or to New Plymouth.

The Nursery has many modern features worth viewing and we can promise interest throughout your visit - probably the best time to view the forthcoming seasons product is in the period January to March 1979. For 1978, visit any time between now and November, we have much to offer.

DUNCAN & DAVIES LTD. WHOLESALE TREE AND SHRUB LIST WILL BE
CIRCULATED EACH MONTH
