680 CUPRESSOCYPARIS LEYLANDII CASTLEWELLAN GOLD
 NOW LOOKING EXCEPTIONAL IN
 GLOWING SUMMER GOLD!!! PB6 40/60 3.50 3.25 3.00 -

A great new golden winner from the LEYLANDII stable. Bright lemon-gold fused with apple-green foliage carried on a pyramid shaped closely branched quick growing CONIFER. Hardy, not affected by wind, cold or frost, will even tolerate a little salt in the wind. Will adapt to most soil conditions, but cannot stand wet feet. Will make a good garden specimen tree, or decorative farm shelter tree, and is especially good as a town garden hedge.

SELLING WELL THROUGHOUT THE COUNTRY - IF YOU HAVEN'T TRIED THEM YET, ORDER NOW FOR IMMEDIATE DELIVERY.

681 CUPRESSOCYPARIS LEYLANDII NAYLOR'S BLUE
 STAKED. PB6 120/140 3.50 3.25 3.00 -

A tall, narrow, columnar CONIFER - pendula branching with attractive blue-green foliage displayed in irregular sprays. Foliage is much finer and slower growing than other LEYLANDII clones. This good CONIFER is wind and cold hardy and will adapt to most soil conditions, but cannot stand wet feet. Will make a suitable specimen CONIFER for town garden or farm.

=====

We offer a list of product covering most of our major product lines. Early ordering of field grown product has been heavy this year, and we regret that some lines such as Rhododendrons and Magnolias in particular are completely sold out until the new 1981 season.

We inform you that growing conditions have been good throughout 1979/early 1980, and our product has achieved favourable grades.

P L E A S E N O T E :

1. PRICES QUOTED are for EVERGREEN PRODUCT despatched BAGGED, AND DECIDUOUS PRODUCT despatched BARERROOT.

- * Please state on order form if you require delivery of DECIDUOUS PRODUCT BARERROOT or BAGGED.
- * If you require DECIDUOUS product despatched BAGGED, a bagging charge will be added to the price shown in this trade list.
- * In past seasons we have come under some fire from the retail trade for under bagging some of our field grown product: THE REASON FOR THIS WAS TO REDUCE SHIPPING COSTS AND MAINTAIN AN ACCEPTABLE PRICE STRUCTURE. We have carefully considered this conflicting series of requirements, and for this season we are using larger bag sizes to suit our products needs. However, bagging and despatch charges will increase to accommodate the larger containers used. In these circumstances it is most important you state the manner in which you require your product processed. WE WILL BE PLEASED TO SEND ANY DECIDUOUS PRODUCT BARERROOT FOR BAGGING ON YOUR OWN PREMISES.

2. WE ASK YOU TO USE THE ENCLOSED ORDER FORMS WHEN ORDERING - THANK YOU.
3. Lifting of field grown product will commence from 1 May, and as is usual, be lifted by variety and despatched in groups as they come to hand. Rose lifting and despatch will commence from 12 May, plant and weather conditions being acceptable.

WE TAKE THIS OPPORTUNITY IN WISHING ALL OUR MANY CUSTOMERS A MOST SUCCESSFUL SALES SEASON.
