ANOTHER EXCITING FIRST INTRODUCTION FOR NEW ZEALAND GARDENS.

New SEQUOIA SEMPERVIRENS cultivars from the Saratoga Horticultural Foundation, California, U S A.

The SEQUOIA SEMPERVIRENS is the world famed "Californian Redwood". Through extensive research, the Saratoga Horticultural Foundation has come up with a number of selected clones most suitable for garden use. All cultivars are extremely handsome and garden ornamental, and Duncan & Davies Ltd are proud to introduce them into New Zealand. Almost pest free, always fresh looking and with a pleasing fragrance, these Saratoga Redwoods are perfect for medium to large size gardens and farms.

SPECIAL INTRODUCTORY OFFER PRICE

S475S200 SEQUOIA SEMPERVIRENS APTOS BLUE E PB8 80/100 4.95

**NEW!**

The cultivar name of this Sequoia is a little misleading - the foliage in fact being a dark green with newer leaves of light green. Habit is upright with pendulous branching borne around the trunk in symmetrical whorls. Fast growing. The tree provides a softly weeping garden appearance.

S475S400 SEQUOIA SEMPERVIRENS LOS ALTOS E PB8 80/100 4.95

**NEW!**

A fast growing tree that makes a strong, pyramidal, symmetrical shape in the garden landscape. New foliage is a very light green with older foliage a very handsome rich, glossy, jade green.

S475S600 SEQUOIA SEMPERVIRENS SANTA CRUZ E PB8 80/100 4.95

**NEW!**

A vigorous and sturdy upright growing tree with a horizontal to slightly pendulous branching system. New foliage a very light lettuce green with older growth a mid to deep green. As for 'Aptos Blue' forms a slightly weeping garden appearance.

S475S650 SEQUOIA SEMPERVIRENS SOQUEL E PB8 80/100 4.95

**NEW!**

A slower growing form very upright and pyramidal in habit and naturally compact and well shaped in form. Branches bend slightly downward and curve upwards at the tips. New foliage is light green with a bronze tint. Older foliage is an attractive glossy mid-green. A very fine garden tree that retains its compact form.
