26 May 1989

Dear Customer

What better way to make contact with you than to send a Super Specials List supplementary to our normal Trade List offering product lines at heavily discounted prices.

The main planting season is just beginning and there are always projects that require plants. We would ask that you take time to read this list and make the most of this great opportunity.

For those of you who are not regular customers of Duncan & Davies, and yet are buying plants, why not request our current complimentary Trade List and see the very comprehensive product range that we produce here in Taranaki.

Duncan & Davies strengths lie in the beautiful field grown plants, as well as a very large container division producing further varieties at different specifications.

Over one million plants leave the nursery annually so why not be one of those recipients.

More and more Amenity Horticulturists are having Duncan & Davies contract grow their crops. Anything from 50 - 5000+. Give us the opportunity to quote on your requirements. Compare our quality and prices.

We have Company Representatives in your area who will call as requested, or make contact with our Head Office personnel for friendly helpful advice - by phone, mail or fax - see below for details.

<b>*** TROPICAL VIREYA RHODODENDRONS ***</b>				
* <i>Vireyas bloom several times each year.</i>				
* <i>This rhododendron category is frost tender and plants will need some suitable protection if grown outdoors in frosty climate zones. They can be planted safely outdoors in most North Island situations, with a little care and attention. South Island, below Nelson, will need protection.</i>				
* <i>They grow superbly in containers for many years and will perform brilliantly in greenhouses, conservatories and interior rooms with attention.</i>				
<b>RHODODENDRON GOLD BELLS</b> Trumpet blooms in golden yellow tones, tinted apricot on edge	2L	20/30	\$7.50	\$5.00

FURTHER BONUS BUYS

We have the following assortment of Growing on Lines. These are surplus to our requirements, so **OUT THEY GO.**

The product is looking a little hungry and tired but would be ideal for those mass planting jobs. Once these plants move into landscape areas they will flush away this spring.

We have them very keenly priced.

ALL AT ONLY .50c EACH
