

# Errata

**Kinsey, M. (2006). Lawrie Metcalf 'More than just Hebes'. *New Zealand Garden Journal* 9(2): 24–25.**

Page 25: Lawrie Metcalf was awarded the Veitch Memorial Medal in 1991, not 1995 as stated in Melanie Kinsey's article.

**Dawson, M. (2009). A history of *Leptospermum scoparium* in cultivation: Discoveries from the wild. *New Zealand Garden Journal* 12(2): 21–25.**

Page 23: A cultivar selected by Graeme Platt and named after one of his daughters was referred to as *L.* 'Sherryl Lee'. Although this is how it is most commonly sold in the nursery industry, his daughters' first name is hyphenated and this should be followed in the cultivar name.

**Dawson, M. (2010). A history of *Leptospermum scoparium* in cultivation: Garden selections. *New Zealand Garden Journal* 13(1): 2–9.**

Page 5: For the reasons explained above, *L.* 'Sherryl Lee' should be hyphenated as *L.* 'Sherryl-Lee'.

**Dawson, M.; Hobbs, J.; Platt, G.; Rumbal, J. (2010). *Metrosideros* in cultivation: Pōhutukawa. *New Zealand Garden Journal* 13(1): 10–22.**

A plantsman of Gisborne was referred to as "Bob Bayly" (p. 15) and "Rob Bayly" (p. 17). This is the same person, the late Vale Rob Bayly, simply known as Rob Bayly. His name is correctly noted in *Commercial Horticulture*, Feb-March 2011 and in the *IPPS Newsletter*, Feb 2011, Vol. 42, Issue 1.

Page 18: The correct surname for the person who alerted Graeme Platt to *Metrosideros excelsa* 'Vibrance' is John Smith-Dodsworth (not John Dodsworth-Smith).

**Dawson, M. and Heenan, P. (2010). Checklist of *Metrosideros* cultivars. *New Zealand Garden Journal* 13(2): 24–27.**

Page 27: A reference to a forthcoming checklist of *Leptospermum* cultivars by Dawson and Metcalf was given as "*New Zealand Garden Journal* 14(1)". This checklist remains unpublished as it has been held back for a later issue.

## Notes for contributors to *The New Zealand Garden Journal*

- *The New Zealand Garden Journal* is a professional journal aimed at those with an in-depth interest in plants, and an enthusiasm for sharing ideas and knowledge of their origins, conservation, cultivation and use in gardens, parks and open spaces.
- The journal is published twice a year in June and December. Copy dates are 1 April and 1 October, respectively.
- Articles should be informative, accurate and well-founded. They are not treated to a formal refereeing process, but we encourage the more technical papers to be peer reviewed before submission. For more technical articles, we may seek independent advice and feedback.
- References should follow the convention adopted in recent issues.
- Articles can be up to 5000 words, preferably submitted electronically in Microsoft Word or RTF format, either on disk or as an email attachment.
- Articles will be returned to authors only if major editorial changes are required, or on request.
- Authors will not receive proofs for checking unless they specify this when submitting the article. Proofs are checked carefully by several people before printing.
- Photographs and/or illustrations should be included with captions written at the end of the article. Images must be copyright free and if not the authors work, be fully credited to the original photographer or source and full permissions obtained. Images should be supplied ideally as high definition electronic copies, or as good quality photographs and slides. All original photographs and slides will be returned.
- Authors will receive two complimentary copies of the relevant journal issue on publication. Additional copies will be available at cost.
- Online versions of the journal are uploaded on the Royal New Zealand Institute of Horticulture website at [www.rnzih.org.nz](http://www.rnzih.org.nz).
